MOTIF

JUNAGARH FORT

Built in 1593 A.D. by Raja Rai Singh, a General in the army of Emperor Akbar. The fort is a formidable structure encircled by a moat and it has beautiful palaces inside. These palaces are made of red sandstone and marble which make a picturesque ensemble of courtyards, balconies, kiosks and windows dotted all over the structure. The Surajpol or the Sun Gate is the main entrance of the fort. The fort houses a number of palaces and establishments. Notable among them are the beautiful palaces of Chandra Mahal or the Moon Palace with its marvelous paintings, mirrors and carved marble panels, and the Phool Mahal or the Flower Palace. Other Palaces worth seeing are the Anup Mahal, Dungar Niwas, Gang Niwas, Gaj Mandir, and Rang Mahal, gigantic columns, arches and graceful screens adorn the palaces from within. The Junagarh Fort also houses Har Mandir, the Majestic chapel for the royal family for worshipping their Gods and goddesses.

FOREWORD

The District Census Handbook (DCHB) is an important publication of the Census Organization since 1951. It contains both Census and non Census data of urban and rural areas for each District. The Census data provide information on demographic and socio-economic characteristics of population at the lowest administrative unit i.e. of each Village and Town and ward of the District. The Primary Census Abstract (PCA) part of this publication contains Census data including data on household amenities collected during 1st.phase of the Census i.e. House Listing and Housing Census. The non Census data presented in the DCHB is in the form of Village Directory and Town Directory contain information on various infrastructure facilities available in the village and town viz; education, medical, drinking water, communication and transport, post and telegraph, electricity, banking, and other miscellaneous facilities. Later on, the Telegraph Services were closed by the Government of India on 15th. July, 2013. The data of DCHB are of considerable importance in the context of planning and development at the grass-root level.

2. In the 1961 Census, DCHB provided a descriptive account of the District, administrative statistics, Census tables and Village and Town Directory including Primary Census Abstract. This pattern was changed in 1971 Census and the DCHB was published in three parts: Part-A related to Village and Town Directory, Part-B to Village and Town PCA and Part-C comprised analytical report, administrative statistics, District Census tables and certain analytical tables based on PCA and amenity data in respect of Villages. The 1981 Census DCHB was published in two parts: Part-A contained Village and Town Directory and Part-B the PCA of Village and Town including the SCs and STs PCA up to Tahsil/Town levels. New features along with restructuring of the formats of Village and Town Directory were added. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent Village, the distance in broad ranges from the nearest place having such an amenity, was given.

3. The pattern of 1981 Census was followed by and large for the DCHB of 1991 Census except the format of PCA. It was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 Census. In addition, sex wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 Census. One of the important innovations in the 1991 Census was the Community Development Block (CD Block) level presentation of Village Directory and PCA data instead of the traditional Tahsil/Taluk/PS level presentation.

4. As regards DCHB of 2001 Census, the scope of Village Directory was improved by including some other amenities like banking, recreational and cultural facilities, newspapers & magazines and 'most important commodity' manufactured in a Village in addition to prescribed facilities of earlier Censuses. In Town Directory, the statement on Slums was modified and its coverage was enlarged by including details on all slums instead of 'notified slums'.

5. The scope and coverage of Village Directory of 2011 DCHB has been widened by including a number of new amenities in addition to those of 2001. These newly added amenities are: Pre-Primary School, Engineering College, Medical College, Management Institute, Polytechnic, Non-formal Training Centre, Special School for Disabled, Community Health Centre, Veterinary Hospital, Mobile Health Clinic, Medical Practitioner with MBBS Degree, Medical Practitioner with no degree, Traditional Practitioner and faith Healer, Medicine Shop, Community Toilet, Rural Sanitary Mart or Sanitary Hardware Outlet in the Village, Community Bio- gas, Sub Post Office, Village Pin Code, Public Call Office, Mobile Phone Coverage, Internet Cafes/ Common Service Centre, Private Courier Facility, Auto/Modified Autos, Taxis and Vans, Tractors, Cycle-pulled Rickshaws, Carts driven by Animals, Village connected to National Highway, State Highway, Major District Road, and Other District Road, Availability of Water Bounded Macadam Roads in Village, ATM, Self-Help Group, Public Distribution System(PDS) Shop, Mandis/Regular Market, Weekly Haat, Agricultural Marketing Society, Nutritional Centers (ICDS), Anganwadi Centre, ASHA (Accredited Social Health Activist), Sports Field, Public Library, Public Reading Room, Assembly Polling station, Birth & Death Registration Office. In the Town Directory, seven Statements containing the details and the data of each Town have been presented viz.; (i)-Status and Growth History of Towns,(ii)- Physical Aspects and Location of Towns, (iii)-Civic and other Amenities, (iv)-Medical Facilities, (v)-Educational, Recreational & Cultural Facilities, (vi)-Industry & Banking, and (vii)- Civic & other amenities in Slums respectively. CD Block wise data of Village Directory and Village PCA have been presented in DCHB of 2011 Census as presented in earlier Census.

6. The data of DCHB 2011 Census have been presented in two parts, Part-A contains Village and Town Directory and Part-B contains Village and Town wise Primary Census Abstract. Both the Parts have been published in separate volumes in 2011 Census.

7. The Village and Town level amenities data have been collected, compiled and computerized under the supervision of Mrs. Shubhra Singh, the then Joint Secretary & Director of Census Operations, Rajasthan. The task of Planning, Designing and Co-ordination of this publication was carried out by Dr. Pratibha Kumari, Assistant Registrar General (SS) under the guidance & supervision of Dr. R.C.Sethi, Ex-Addl. RGI and Shri Deepak Rastogi present Addl.RGI. Shri A.P. Singh, Deputy Registrar General, (Map) provided the technical guidance in the preparation of maps. Shri A.K. Arora, Joint Director of Data Processing Division under the overall supervision of Shri M.S.Thapa, Addl. Director (EDP) provided full cooperation in preparation of record structure for digitization and validity checking of Village and Town Directory data and the programme for the generation of Village Directory and Town Directory including various analytical inset tables as well as Primary Census Abstract (PCA). The work of preparation of DCHB, 2011 Census has been monitored in the Social Studies Division. I am thankful to all of them and others who have contributed to bring out this publication in time.

C. Chandramouli
Registrar General &
Census Commissioner, India

New Delhi.

PREFACE

It is my pleasure to present this publication pertaining to the Village and Town wise Primary Census Abstract of the District as per Census 2011. It is a synopsis of the development made by the District in the past decade and the challenges ahead.

Rajasthan is the largest State in the country, with difficult terrain comprising desert, forests, mountains, tribal belt, ravines and a long international border. It also has typical hard to reach population groups. The mandate of universal coverage for census was a challenge in the State. I am deeply indebted to the State Government of Rajasthan for their unstinted support and cooperation at all stages of Census Operations of 2011. I am grateful to Shri Salahuddin Ahmad, the then Chief Secretary of Government of Rajasthan for his prompt response, guidance and cooperation given to the Census Organization. He infused a sense of urgency and seriousness in the minds of District Collectors and Officers of the District Administration, which geared up the entire administrative machinery. I also thank the Principal Secretary, GAD who liaised with the Directorate of Census Operations on behalf of the State Government. The GAD pursued pending action points pertaining to the different Departments of the State Government and ensured prompt response to the repeated requests made by the Directorate. I am also thankful to other Departments like Departments of School and Sanskrit Education, Home, Finance, Revenue, Planning, Public Relations, Local Self-government and Personnel Department for extending their full cooperation.

The Supervisors and Enumerators, the basic census field functionaries worked ceaselessly in the entire period of fieldwork to make Census 2011 successful.

I am deeply grateful to Dr. C.Chandramouli, Registrar General & Census Commissioner, India for his unstinted support and spontaneous, unfailing guidance throughout our endeavours and bringing out this publication. My grateful thanks to Dr. R.C.Sethi, Ex-Addl. RGI and Shri Deepak Rastogi present Addl. RGI, Dr. Pratibha Kumari, Assistant Registrar General (SS), Shri A.P. Singh, Deputy Registrar General (Map), Shri M.S.Thapa, Addl. Director (EDP), Shri A.K. Arora, Joint Director (EDP) and their colleagues at the headquarter office for their ever willing, helping hand and thoughtful suggestions for putting together and shaping the volumes in their present form.

The Joint Secretary & Director of Census Operations, Rajasthan, Ms. Shubhra Singh, under whose guidance the entire operations were carried out deserves all credit for its success, but she was repatriated to the Government for taking up some other important assignment before this volume could be made available for the release.

Shri Avinash Sharma, Assistant Director, incharge of Primary Census Abstract, who was ably assisted by his team of dedicated workers, deserves all praise for their perseverance and dedication in finalization of PCA. The contribution of Shri G.B. Goswami, Assistant Director (Data Centre), Shri K.C. Gupta, Assistant Director and Shri Puneet Mehrotra, Assistant Director is also memorable in finalization of PCA, Census, 2011.

Dr. Pulkesh Sharma, Assistant Director, incharge of Village & Town Directories and District Census Handbooks, coordinated the work with his team of devoted workers; contributed immensely with determination and dedication to the cause of digitization, validation and finalization of Village and Town Directories and preparation of District Census Handbooks, Census, 2011 in the stipulated time limit, deserves all appreciation.

The members of the staff in the Map Section did a commendable job under the guidance of Shri R.S. Tyagi, R.O. (Map) in bringing out various maps.

In view of the increasing demand of the publications in electronic format, it has been decided to release the DCHB Part-B in electronic format also.

HISTORY AND SCOPE OF THE DISTRICT CENSUS HANDBOOK

The need of data at the grass root level for the administrative and planning purposes at sub micro level as well as academic studies prompted the innovation of District Census Handbook. District Census Handbook is a unique publication from the Census organization which provides most authentic details of census and non-census information from village and town level to district level. The District Census Handbook was firstly introduced during the 1951 Census. It contains both census and non census data of urban as well as rural areas for each district. The census data contain several demographic and socio-economic characteristics of the lowest administrative unit i.e. of each village and town and ward of the district. The non census data comprise of data on availability of various civic amenities and infrastructural facilities etc. at the town and village level which constitute Village Directory and Town Directory part of the DCHB. The data of DCHB are of considerable importance in the context of planning and development at grass-root level.

In 1961 census DCHB provided a descriptive account of the district, administrative statistics, census tables and village and town directory including Primary Census Abstract. This pattern was changed in 1971 Census and the DCHB was published in three parts: Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 census DCHB was published in two parts: Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA up to tahsil/town levels. New features along with restructuring of the formats of village and town directory were added into it. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given.

The pattern of 1981 census was followed by and large for the DCHB of 1991 Census except the format of PCA. It was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 census. In addition, sex wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 census. One of the important innovations in the 1991 census was the Community Development Block

(CD Block) level presentation of village directory and PCA data instead of the traditional tahsil/taluk/PS level presentation.

As regards DCHB of 2001 Census, the scope of Village Directory was improved by including some other amenities like banking, recreational and cultural facilities, newspapers & magazines and 'most important commodity' manufactured in a village in addition to prescribed facilities of earlier censuses. In Town Directory, the statement on Slums was modified and its coverage was enlarged by including details on all slums instead of 'notified slums'.

The scope and coverage of Village Directory of 2011 DCHB has been widened by including a number of new amenities in addition to those of 2001. In the Town Directory, seven Statements containing the details and the data of each town have been presented viz.; (i)-Status and Growth History of towns,(ii)- Physical Aspects and Location of Towns, (iii)-Civic and other Amenities, (iv)-Medical Facilities, (v)-Educational, Recreational & Cultural Facilities, (vi)- Industry & Banking, and (vii)- Civic & other amenities in Slums respectively. CD Block wise data of Village Directory and Village PCA have been presented in DCHB of 2011 census as presented in earlier census. The data of DCHB 2011 Census have been presented in two parts, Part-A contains Village and Town Directory and Part-B contains Village and Town wise Primary Census Abstract. Both the Parts have been published in separate volumes in 2011 Census.

BRIEF HISTORY OF THE DISTRICT

The district derives its name from its principal city 'Bikaner', which was established by Rao Bika of Rathor clan. Rao Bika was one of the 14 sons of Maharaja Jodha, the founder of Jodhpur. Bika Ji chooses a barren land called "Jungladesh" and shaped it into an impressive city. It is also traditionally believed that Naira or Nera was the name of the owner of the site who parted with it on condition that his name be linked with that of Rao Bika and hence the name Bikaner. Archeological surveys and excavations have established beyond doubt that civilization flourished here even before the Harappa period. Excavated statues, coins and carvings of stones and clay stands are testimony to this fact.

After the advent of Gang Canal in 1927 A.D., a major change in the constitution of administrative divisions was affected and the whole of erstwhile Bikaner State territory was divided into two divisions viz. Sadar or Bikaner and Ganganagar, each one was headed by a Revenue Commissioner who exercised administrative control over Nazims (Collectors) and Tehsildars responsible for administration of the respective Nizamats (Districts) and Tehsils.

In 1947, the Bikaner Ruler signed an instrument of accession with India and in 1949 it was merged in the State of Rajasthan. It became one of the five divisions of Rajasthan State. This division was earlier Nizamat made of three districts, Bikaner being one of them. The erstwhile Bikaner Nizamat continues into the present Bikaner district.

During the period 1951-61 an inter-district transfer of 43 villages took place by adding to Kolayat tehsil transferred from Bap tehsil of Jaisalmer district. Besides village 'Mudsar' was transferred from Nokha tehsil to Bikaner tehsil as an inter-tehsil transfer. In 1961-71, inter-census period, there was not a single case of inter-district or inter-tehsil transfer in the territory. No inter-district transfer took place in the district during 1971-81. However, among inter-tehsil transfers, two villages, namely Kolasar and Meghasar, were transferred from Kolayat tehsil to Bikaner tehsil. During the inter census period 1981-91, no jurisdictional changes took place in the district.

In 1991 Census, four tehsils viz. Bikaner, Lunkaransar, Kolayat and Nokha existed in Bikaner district, having 650 revenue villages. In the district after 1991 some territorial changes have taken place at sub-division, tehsil and revenue village level. In 1991, only two sub-divisions i.e. Bikaner North and Bikaner South existed, now with the addition of Khajuwala sub-division the number has gone to 3. Similarly with the creation of new tehsils of Poogal, Khajuwala and Chhatargarh, the number of tehsils in the district has gone to 7.

The number of revenue village has increased from 650 to 778 during the decade 1991-2001. By the Gazette Notifications issued by the State Government from time to time, 127 new villages were created and the Census Town of 1991 Census - Napasar was again declared as revenue village. Poogal tehsil was carved out by transferring of 53 villages from Bikaner tehsil and Khajuwala tehsil was carved out by transferring of 10 villages from Bikaner tehsil. Similarly Chhatargarh tehsil was carved out by transferring of 6 villages of Bikaner and 17 revenue villages of Lunkaransar tehsil. Tehsil 'Sri Dungargarh' has been transferred from Churu to Bikaner district on 01-04-2001.

ADMINISTRATIVE SETUP

Bikaner District is Divisional Commissioner Head Quarter District. District Collector is head of the district for revenue, Law and order matters. District Collector & District Magistrate is the head of District Administration.

For administration and development, the district is divided in Sub-Divisions and tehsils (sub-districts). The District Bikaner has 8 sub-divisions. Each of the sub-divisions is headed by a Sub-divisional Officer (SDOs) / Magistrates, the officers are responsible for implementation of law and order matters in their respective sub-divisions.

There are 8 Tehsil headquarters in Bikaner district and each one has a Tehsildar as an administrative officer who works in accordance with the Land Record System to serve for the rural farmers and land holders and is responsible for maintaining the revenue matters in their respective tehsils.

For the purpose of the implementation of rural development projects/ Schemes under Panchayati Raj System, the district is divided in the 6 Panchayat Samitis (Blocks). Block Development Officer or Vikas Adhikari is the Controlling Officer of each of the Panchayat Samiti to serve as extension and developmental executive at block level. The compositions of Panchayat Samities are as follows:

Sl. No.	Name of Panchayat samiti	No. of Gram Panchayat	No. of Villages	Tehsil(s) (No. of Villages)	Census Towns
1	2	3	4	5	6
1	Bikaner	31	125	Bikaner (125)	
2	Khajuwala	34	139	Poogal (58), Khajuwala (57), Chattargarh (24)	Beriyawali (CT)
3	Lunkaransar	36	180	Lunkarnsar (139), chattargarh (41)	
4	Kolayat	37	232	Kolayat (232)	Kolayat (CT)
5	Nokha	52	145	Nokha (145)	
6	Sridungargarh	30	98	Sridungargarh (98)	
Total		220	919		2 Census Towns

There are 4 statutory towns viz. Bikaner (M.Corp), Deshnok (M), Dungargarh (M) and Nokha (M) in the Bikaner district.

DISTRICT HIGHLIGHTS- 2011 CENSUS

- Bikaner district ranks 11th in terms of population, 2nd in terms of area and 32nd in terms of population density.
- Bikaner district has eight tehsils, in which Kolayat tehsil has the highest number of villages (232) whereas Khajuwala tehsil has lowest number of villages (57).
- Bikaner district has 919 villages, out of them 857 villages are inhabited and 62 villages are uninhabited. In Bikaner district 53 new villages and 2 new census towns have created as compared to 2001 Census.
- In Bikaner district, Lunkaransar (Tehsil: Lunkaransar) is the most populous (22,931 persons) village; and Kishnayath Budhan (Tehsil: Kolayat) is the least populous (01 person) village.
- Bikaner district consists 66.1 percent rural and 33.9 percent urban population whereas the State percent of rural and urban population is 75.1 and 24.9 respectively.
- The sex ratio of Bikaner district (905) is significantly lower than the State sex ratio (928).
- The literacy rate in Bikaner district is 65.1 percent which is lower than the State Average (66.1 percent) and it ranks 17th among the other districts of the state. Gender Gap of the literacy rate is 22.7 percent in the district.
- The Scheduled Caste and Scheduled Tribe population in Bikaner district is 20.9 percent and 0.3 percent respectively whereas the State percent of Scheduled Caste and Scheduled Tribe population is 17.8 and 13.5 respectively.
- The economy of Bikaner district is mainly dependent on agriculture as 61.1 percent workers in the district are either cultivators or agricultural labourers. However the district percent of such workers is lower than the state average of 62.1 percent.
- Work participation rate (WPR) of Bikaner district has recorded 41.7 percent and gender gap in WPR is 20.8 percent points.
- In Bikaner district among the workers the percentage of cultivators, agricultural labourers, workers in household industry and other workers (category of workers) are 50.6, 10.5, 2.7 and 36.2 percent respectively.

Section - I

Primary Census Abstract (PCA)

BRIEF NOTE ON PRIMARY CENSUS ABSTRACT

Introduction:

The Indian Census has the reputation of being one of the best in the world. The first Census in India was conducted in the year 1872. This was conducted at different points of time in different parts of the country. In 1881 a Census was taken for the entire country simultaneously. Since then, Census has been conducted every ten years, without a break. Thus, the Census of India 2011 was the fifteenth in this unbroken series since 1872, the seventh after independence and the second census of the third millennium and twenty first century. The census has been uninterruptedly continued despite of several adversities like wars, epidemics, natural calamities, political unrest, etc.

The Census of India is conducted under the provisions of the Census Act 1948 and the Census Rules, 1990. In Censuses until 1931, a synchronous de-facto method was adopted wherein the Census was conducted throughout the country on a single night. This being a very costly affair and involved the deployment of very large force at one point of time was given up in 1941. Since then the same methodology has been followed in all the Censuses. It is a gigantic operation and considered to be the single largest, complex, peace time administrative exercise in the world.

The Census Operation in India is carried out in two distinct but inter connected phases - the House listing and Housing Census followed by the Population Enumeration. During the first phase of Census 2011 i.e., House listing and Housing Census, the buildings, census houses and households were identified and systematically listed in the House Listing and Housing Census Schedule during the period April to September, 2010 in different States/Union Territories. Apart from listing of houses, some useful data on the amenities available to the households was also collected for assessing condition of human settlements, housing deficits etc.

Censuses prior to Census 2001 had the system of collecting the information through Individual Slip which was a key schedule for every individual. The information collected through slip was then compiled for a household. Some information was also collected in addition to this for the household. During 2001 Census a comprehensive Household Schedule was adopted replacing the individual slip concept. In 2011 Census also similar household schedule was used for canvassing. The scope of demographic, socio-economic parameters has been widened in every census.

2. Population Enumeration - Census 2011:

The field work of the second phase i.e. Population Enumeration was carried out during February-March, 2011. One of the essential features of Population Enumeration in the second phase was that each person was enumerated and her/his individual particulars were collected at a well-defined point of time.

The Census moment and the reference date for the Census of India 2011 was 00:00 hours of 1st March, 2011. The enumeration was conducted from 9th February to 28th February, 2011 along with a revisional round from 1st March, 2011 to 5th March, 2011 synchronously all over the country except for few specific areas of the Jammu & Kashmir, Himachal Pradesh and Uttarakhand states that remain snowbound in February. In these locations the population enumeration was done from 11th September, 2010 to 30th September, 2010 along with a revisional round from 1st October, 2010 to 5th October, 2010. The reference date for the census in snow bound non-synchronous areas of these states was 00.00 hours of the first day of October, 2010. In addition to the coverage during House listing & Housing Census, the enumeration of the Houseless population was carried out on the night of 28th February, 2011, as has been the usual practice. For the purpose of Census, certain areas where the access of the civilian enumerators was not permissible due to security reasons termed as 'Special Charges' such as the Defence and strictly Military/Para-Military areas, including operational areas were also covered. Such areas were not covered during the House listing & Housing Census. In addition to the defence/para-military areas, Special Charges also included certain factory areas, certain colonies, sensitive areas, scientific establishments, etc. These also formed Special Charges as these were not accessible by the usual census enumerator.

3. Quality Assurance:

A Task Force for Quality Assurance (TFQA) functioned under the chairmanship of the RG & CCI. Experienced officers of the different divisions of the organization i.e. Heads and senior officers of the Census Division, Data Processing Division, Map Division, Demography Division and Social Studies Division comprised the TFQA. The Directors of Census Operations were co-opted as members whenever the TFQA discussed the data for their States/Union territories. The main objective of constituting the TFQA was to subject the data to stringent validation checks and ensure its quality before release as it was expedient to be satisfied itself about the quality of data before putting the same in public domain.

The Directors and their senior officers were involved at all levels with respect to the quality and the coverage of their states/Uts. The TFQA intensively scrutinized coverage and content parameters including edit and imputation logic. The most important aspect of the data quality was to ensure complete coverage of all geographical areas especially for the population enumeration phase where the data is disseminated right up to the village level in the rural areas and the ward level in the urban areas. Thus ensuring the complete coverage and correct geographical linkage of each enumeration block was one of the major planks of the quality control, especially for small area population statistics. The content was scrutinized mainly through the process of internal consistency, comparison

with similar data in the past and also through validation with likewise data if available, from external sources. Quite often the local knowledge and perception was looked at to understand both the existing and the new emerging trends of population distribution and characteristics. A very comprehensive check and edit mechanism was put in place to objectively examine the preliminary Census 2011 Population Enumeration results and finally clear them for use. The population data was cleared only after the full possible satisfaction of the TFQA.

The entire work relating to the data validation and scrutiny was completed by all the States/Union territories under the overall supervision and monitoring of the Census Division of the Office of the Registrar General, India with active cooperation and support of the Social Studies Division, Data Processing Division, Data Dissemination Division and Map Division.

4. Primary Census Abstract:

The Primary Census Abstract which is important publication of 2011 Census gives basic information on Area, Total Number of Households, Total Population, Scheduled Castes, Scheduled Tribes Population, Population in the age group 0-6, Literates, Main Workers and Marginal Workers classified by the four broad industrial categories, namely, (i) Cultivators, (ii) Agricultural Labourers, (iii) Household Industry Workers, and (iv) Other Workers and also Non-Workers. The characteristics of the Total Population include Scheduled Castes, Scheduled Tribes, Institutional and Houseless Population and are presented by sex and rural-urban residence.

In 1981 census main workers were presented into four categories. As regards 1991 Census, the nine-fold industrial classification of main workers has been given in the Primary Census Abstract. One of the important features of the Primary Census Abstract of 1991 Census was the presentation of population of the age group 0-6 which is continued in 2001 and 2011 Census. All the children of age 6 years or less have been treated as illiterate even if the child is going to a school and may have picked up reading and writing. This will help the data users in better analysis and understanding of the literacy data as the literacy rate is calculated with 7 years and above population and it is referred as effective literacy rate. In 2001 and 2011 census four categories of main workers have been given in the Primary Census Abstract.

5. Level of Presentation of PCA data in District Census Handbooks:

The format of Primary Census Abstract (PCA) adopted in the DCHB of 2001 Census has been continued for 2011 Census as the data on four categories of works have been presented similar to 2001 census. The Primary Census Abstract data in different PCAs are presented at different levels. The level of presentation of Primary Census Abstracts in DCHB is as under:

1. District Primary Census Abstract -District/C.D. Block/Town.
2. Primary Census Abstract for Scheduled Castes- District/C.D. Block/Town.
3. Primary Census Abstract for Scheduled Tribes -District/C.D. Block/Town.
4. Village Primary Census Abstract -C.D. Block/Village wise.
5. Urban Primary Census Abstract- Town/Ward level.

The PCA Data for villages was presented C.D. Block wise for the first time in 1991 Census. This practice is continued in 2001 and 2011 Census. The term 'Total Population' includes the Scheduled Castes, the Scheduled Tribes, the Institutional and the Houseless populations. An appendix to District Primary Census Abstract has also been furnished showing urban enumeration block-wise particulars on Total Population, the Scheduled Castes Population and the Scheduled Tribes Population for each town.

6. Area Figures:

The area figures supplied by local revenue authorities of the district in respect of tahsils, Police Stations and by the local bodies in respect of towns are given in square kilometers. The area figures of the villages supplied by the Tahsildars in acres have been converted and shown in hectares. The area figures of the C.D. Block are the total of the village areas coming under each C.D. Block. The area figures for the district are the same as adopted by the Surveyor General of India to maintain uniformity at the national level.
