

CENSUS OF INDIA 1961

RAJASTHAN

DISTRICT CENSUS HANDBOOK

BIKANER DISTRICT

C. S. GUPTA

OF THE INDIAN ADMINISTRATIVE SERVICE

Superintendent of Census Operations, Rajasthan

FOREWORD

The Census data has always been considered as indispensable for day to day administration. It is increasingly being considered now as the foundation stone of all regional planning. The publication of this series of District Census Handbooks wherein census statistics is made available for smaller territorial units is, therefore, a significant occasion for it fills many existing gaps in statistics at the lower levels. Many interesting details have been revealed by the Census 1961 and I hope persons engaged in the administration of the State and public in general will appreciate the value and the effort that has gone into the production of such a standard book of reference.

I congratulate the Superintendent of Census Operations, Rajasthan, Shri C. S. Gupta I. A. S. and his colleagues who have done a good job with skill and perseverance.

JAIPUR,
1st March, 1966.

B. MEHTA
Chief Secretary
to the Government of Rajasthan.

PREFACE

The District Census Handbooks, to which series the present volume belongs, are the gifts of the Census of India and were first introduced in 1951. The 1961 series of District Census Handbooks are more elaborate than their counter-part in 1951 and present all important census data alongwith such other basic information as is very relevant for an understanding of the district. A wide variety of information which the Census 1961 collected has already been released in several parts as mentioned elsewhere in this book. The information contained in the present volume will be found useful by the Government, the district administration, persons engaged in regional planning, social workers and scholars in the field of humanities. Unfortunately these Handbooks became available to the users rather late in the decade. This was due to difficulties in printing. The Government Press Jodhpur, to whom this work was assigned by the State Government, had a heavy backlog of printing and found it impossible to print all the books in the series itself. Arrangements had therefore to be made to get these printed through a private press. I trust a more expeditious method for printing of such valuable matter in time will be devised in future.

I am grateful to Shri Asok Mitra, Registrar General, India for his guidance in this work from time to time. I am greatly beholden to the State Government for their kindly agreeing, as they also did in 1951, to get this series published at their cost.

Dr. U. B. Mathur, Dy. Superintendent Census Operations, Rajasthan assisted me in editing this series. Tabulation Officer Shri S. R. Luhadia assiduously worked for compilation of the information presented in the book and has seen it through the press. Many of the facts and figures incorporated in the book were built up after scrutiny of a lot of raw material and by personal contacts. This task was admirably done by Shri Ram Autar Gupta, Statistical Assistant. Without their sincere cooperation and the assistance rendered by various members of the staff, mentioned overleaf, who were associated with this work, it would have been hardly possible to present the information which is the subject matter of this book. I thank them all.

JAIPUR.
15th August, 1966.

C. S. GUPTA
Superintendent,
Census Operations, Rajasthan.

SECTION I

INTRODUCTION

INTRODUCTION

The territory, now known as district Bikaner, used to be a part of the Princely State of Bikaner which merged into the United States of Greater Rajasthan in the year 1949. After the merger the district was formed which continues up-to-date.

Location and Formation

2. District Bikaner is situated in the north-west of Rajasthan and lies between 27°15' and 29°5' north latitudes and 71°53' and 74°20' east longitudes. It is bounded on the north by Ganganagar district, on the west by Pakistan and Jaisalmer district, on the east by Churu district and on the south-east and south by Nagaur and Jodhpur districts respectively.

3. The area of the district as reported by the Surveyor General of India is 10,561 Sq. miles and according to village papers it is 10,554.5 Sq. miles or 27,336.2 Sq. Kms. The district covers 8.0% of the total area of Rajasthan and stands 3rd in rank in area amongst the other districts of the State.

4. The district is composed of four tehsils viz. Bikaner, Lunkaransar, Kolayat and Nokha which continue their name and form ever since the formation of the district. There has, however, been an inter-district transfer of areas as a result of which 43 villages and 3 hamlets of former Bap tehsil of Jaisalmer district were transferred to Kolayat tehsil of this district during the inter-censal period 1951-61. During the same period an inter-tehsil transfer of Mudsar village was also affected from Nokha to Bikaner tehsil.

Topography

5. In the greater part of the territory, the plain is undulating or interspersed with shifting sand hills the slopes of which are lightly furrowed from the action of the wind. Some of these sand dunes are moving while some have by now got fairly stabilised with trees and shrubs growing on them. The height of these sand dunes vary from 5 ft. to 100 ft. In the south of Bikaner City a considerable tract is covered with brush-wood locally called 'Jorbir' which develops fully during

the rainy season and gives an impression of a dense forest. After the rains the whole tract of the district grows into a beautiful greeny area covered with grass. The general elevation of the district varies from 400 ft. to 1,200 ft. above the sea level. Bikaner City is situated at a height of 736 ft. above sea level.

6. There are a few local 'nallahs' in the district. These have been impounded in tanks in Kolayat tehsil while others get lost in the sand. The Gajner lake which lies on the Bikaner-Jaisalmer route is situated at about 20 miles from Bikaner and is a very pretty spot in the district. The water of this lake is mostly utilised for drinking and bathing purposes but in the years of good rainfall wheat and mustard are also grown in its neighbouring areas. Another small lake is at Kolayat which is at a distance of about 19 Kms. from Gajner. About 80 Kms north-east of Bikaner City there is a salt lake at Lunkaransar. There are various other tanks in the district notably at Gangsarowar, Mandal, Madh, Dadar, Kiniya, Bhatia and Khudi.

7. Water is found in the district at varying depths. There are wells which are more than 300 ft. deep but sometimes water is available only within 20 ft. of the surface. Generally desert soil (grey and brown) is found in the district.

Climate

8. The climate of the district is dry but healthy and is characterised by extremes of temperature. During summer, hot winds blow with great force. Sand storms are frequent during which sometimes a deep layer of sand is deposited on railway lines resulting in break down of the service for several hours. The district lies in the belt having an average minimum temperature ranging from 12°.5C to 15°.0C and an average maximum temperature of 32°.5C. The normal annual rainfall of the district is 29.13 Cms. and occurs from July to September. The normal rainy days in the district are about 17 a year.

Geology and Minerals

9. The district is composed of the dreary and desolate arid region and forms a part of the Great

Indian Desert of 'Thar'. In the south-western area of the district, which forms a part of Kolayat tehsil, rocks are found. The geological formation of Eocene age are well represented in the neighbourhood of Bikaner City. The strata consists of thick white and buff limestones and shales. Lignite (Palana) and beds of fuller's earth occur in these formations.

10. Gypsum occurs at surface in large quantities at village Jamsar and also in Dheeraran, Dholera, Bhairoo, Kaoni and Jaimalsar villages of Bikaner tehsil, Madh of Kolayat tehsil and at Lunkaransar. The gypsum found at Jamsar is of fine quality. There are deposits of fuller's earth or 'Multani Mitti' at villages Palana (Bikaner tehsil) and Madh (Kolayat tehsil). Clay is found near Bikaner City and at some places in Kolayat tehsil. Red sand stone quarries are located near Khari and Dulmera villages (Lunkaransar tehsil) in north-east of the City. This stone is of excellent quality and the excavations are deep and extensive. Impure lime stone is excavated practically every where in the district as 'Kankar'. Glass sand is found near village Madh. Lignite is available at various places in Kolayat tehsil and at village Palana.

Forest, Flora and Fauna

11. During 1960-61 only about 0.3% of the total area of the district was under forests according to village papers. The vegetation which is commonly found in the desert plains, occur in this district. The trees and bushes which grow are insufficient even to fulfil the local requirements for construction of houses, for making agricultural implements and for fuel purposes. The most common tree found in the district is Khejri (*Prosopis spicigera*) the fruit of which is a long pod called 'Sangri'. This plant is very valuable for its pods, leaves and even the bark are eaten by the cattle. Sangri is also used as a vegetable. Other trees found in the district, are Rohera (*Tecomella undulata*), Ber (*Zizyphus jujuba*), Jal or Pilu (*Salvadora oleoides*). Some other trees found on embankments in the vicinity of tanks or in the gardens are Shisham (*Dalbergia sissoo*), Bar (*Ficus bengalensis*), Pipal (*Ficus religiosa*), Siris (*Albizia lebbek*) etc. Among the shrubs found in the region mention may be made of Ak (*Calotropis procera*), Phog (*Calligonum Polygonoides*), Bui (*Aerna*

tomentosa), Pala (*Zizyphus rotundifolia*), Karel (*Caparis aphylla*), Thor (*Euphorbia nivulia* and *Euphorbia royleana*). Bhurat (*Cenchrus barbatus*), Sewan (*Elionurus hirsutus*), Munj (*Saccharum griffithii*), grasses also grow. A large number of snakes are found in the district having their different names and sizes viz. Bandi, Paimda, Sankh Chur, Tolia, Padam, Khurava, Chital and Sarprotia etc. At Gajner are found the Imperial sand Grouse (*Petrocles orientalis*). Another interesting bird is the Rosy Poster (*Pastor reseus*) which visits in the winter season and helps in destroying the locusts. Sacred bird 'Neel-Kanth' (*Coracias bengalensis*) of local variety has a speciality of having a brown throat instead of the usual blue. Other important wild animals found in the district are wild pig, deer etc. There is a Forest Ranger in the district at Bikaner who looks after the activities of the department and works under the supervision of the Divisional Forest Officer, posted at Jodhpur.

General Administration

12. For the purposes of administration the district is divided into two sub-divisions and four tehsils as mentioned below :—

<i>Name of Sub-division</i>	<i>Name of Tehsil</i>
1 Bikaner-North	1 Bikaner 2 Lunkaransar
2 Bikaner-South	1 Kolayat 2 Nokha

13. The Collector is the administrative Chief of the district who is also the District Magistrate. Each Sub-division is under the charge of a Sub-divisional Magistrate who is vested with 1st class magisterial powers while each tehsil is under the charge and supervision of a Tehsildar who is vested with 2nd or 3rd class magisterial powers as the case may be. Besides Collector, Sub-divisional Officers and Tehsildars who exercise criminal powers, there are courts of District and Sessions Judge, Civil Judge and Munsif at Bikaner.

14. With the advent of democratic decentralisation, 4 Panchayat Samities have been formed out of which 3 are Community Development Blocks. The Panchayat Samities are guided by the Zila Parishad under the

(v)

chairmanship of the Pramukh and supervised by the Collector of the district who is also the District Development Officer. The Rajasthan Panchayat Samities and Zila Parishads Act, 1959 devolves on these Panchayat Samities the complete charge of the administration of the Block including the implementation of the Community Development Programmes. For imparting the technical guidance to the villagers the Government has deputed its representatives from various departments to the Blocks, so that an all round progress may be achieved. The ultimate aim of the Government is to make these Panchayat Samities the sole agency of all developmental activities at the Block level.

15. There is a jail and a judicial lock-up at Bikaner City. The office of the Superintendent of Police is located at Bikaner City. Besides, three separate Deputy Superintendents are posted at Bikaner City one each for the City, north and south areas. 15 Police Stations and 19 Police out-posts functioned in the district during the year 1961.

Land Use

16. The classification of the land use in the district during 1960-61 was as follows :-

<i>Classification of the land</i>				<i>Percent</i>
1	Forest	..	..	0.3
2	Land put to non-agricultural use ..	..	..	2.0
3	Barren and uncultivable land ..	..	..	0.3
4	Other uncultivated land excluding fallow land	..	..	0.5
5	Culturable waste	..	..	71.7
6	Fallow land	..	..	9.0
7	Net area sown	..	..	16.2
Total				100.0

Crop Pattern

17. A considerable portion (80.7%) of the total geographical area, according to village papers, is either culturable waste or fallow land. Due to the sandy nature of the soil rotation of crops is hardly possible. The district has single cropped area where Kharif crop is grown.

18. Out of the total area under crops during 1960-61, 42.4% of the area was utilised for pulses, 42.3% for cereals and the rest of the area was used for growing other crops including oil seeds. The important crops of the district in order of production are Kharif pulses and Bajra.

19. The district ranked second in the production of Kharif pulses amongst the other districts of the State and contributed 11.6% of the total production of Kharif pulses in the State during the year 1960-61.

Irrigation

20. Irrigational facilities in the district are almost non-existent. During 1960-61, about 10 acres of land was irrigated and it was all by wells.

Animal Husbandry

21. The total livestock population in the district was around 904 thousand heads according to the Livestock Census of 1961. Out of the total livestock 47.6% were sheep, 32.0% cattle, 11.5% goats and the rest comprised of buffaloes, horses, ponies, mules, donkeys, camels and pigs. The total poultry in the district during 1961 was around 2.1 thousand - mostly fowls.

22. There are veterinary hospitals at Bikaner and Nokha and dispensaries at Kolayat and Lunkaransar. Sheep and wool extension centres are run at Bikaner, Napasar, Nokha, Kolayat, Lunkaransar, Jamsar (Bikaner tehsil), at Mahajan (Lunkaransar tehsil) under State Scheme and at Nokha and Kolayat under Community Development Blocks. A Sheep Breeding Research Station also functions at Bikaner and a sheep breeding farm at village Kodamdesar in Kolayat tehsil. Besides, a mobile unit at Bikaner and Key village scheme centres at Bikaner and at village Mahajan (Lunkaransar tehsil) also function. A sum of Rs. 26.74 lakh was spent over the development of animal husbandry in the district during the second five year plan.

Agricultural Implements

23. There were about 39.2 thousand ploughs, 7.4 thousand carts, 92 'Ghanies', 6 tractors, 4 electric pumps and 3 oil engines in the district according to the Livestock Census of 1961.

Agricultural Improvements

24. During the second five year plan a sum of Rs. 8.47 lakh was spent in the district on agriculture sector. During this period over 4 thousand Mds. of improved seeds, 47 thousand tons of manure and around 3 hundred improved agricultural implements were distributed to the farmers under various schemes of the Agriculture Department. Besides, over 3 thousand manure pits were dug and 2 hundred acres of land was brought under the plough.

Industries and Labour

25. During the year 1952-53 there were 3 registered factories in the district the number of which increased to 69 by the end of December 1961. Bikaner Loco Carriage & Wagon Workshop is the largest establishment of the district which provided employment to over 1.6 thousand persons during the year 1961. The district is famous for the manufacture of fine variety of woolen blanket, 'Shawls' and 'lois' giving employment to a number of persons. The small scale and cottage industries of the district are flour mills, dal mills, oil mills, manufacturing of water 'Pakhals' and leather 'Kuppis'. The fine red clay found in the district has led to the establishment of a large number of potteries. A number of persons are also engaged in stone cutting and carving industries.

26. A branch office of the Industries Department is run in the district for reviving the old industries and to help in starting new industries. The department aids the small scale industries by advancing loans to the parties. A sum of Rs. 6.17 lakh was spent on industrial development in the district during the second five year plan.

27. There are 'B' Class Labour Welfare Centres at Bikaner and Jamsar (Bikaner tehsil). These Centres provide the facilities of recreation, child welfare, adult education, gymnasium, wrestling, in-door and out-door games, reading room, library etc. Besides, variety of entertainment such as free cinema shows, radio programmes are also provided to workers and their families. An Industrial Training Centre also functions in the district.

28. The district has an employment exchange located at Bikaner City which registers people who are

seeking employment and helps in securing employment for them. During 1961, the total number of registrations in the district was over 7.6 thousand.

Trade Unions

29. There were 14 registered trade unions in the district during 1960-61. The oldest trade union is Palana Colliery Mazdoor Union at Palana (Bikaner tehsil) which was registered in the year 1951. Other trade unions are Bikaner Division P.W.D. Mazdoor Union, Garden Labour Union, Mundhra Metal Workers Union, Bikaner Municipal Karamchari Sangh, Bikaner Press Employees Union, Bijli Nal Karamchari Union, Bikaner Division Railway Porters Union, Vidyut Karyalaya Karamchari Sangh, Bikaner Division Vyapar Karamchari Union, Jamsar Gypsum Mazdoor Sangh, Gypsum Mine Workers Union, Sindri Fertilizers Jamsar Workers Union at Jamsar (Bikaner tehsil) and Palana Colliery Karamchari Union at Palana.

Power

30. Rajasthan State Electricity Board's Power House at Bikaner, one of the largest power houses in Rajasthan, provides electricity to the City and the adjoining places. It provided employment to about 3 hundred persons in the year 1961. Churu town, prior to the setting of a grid sub-station at Rajgarh, also used to receive electricity from this power house. A set of 224 KW and two sets each of 104 KW capacity were installed in 1958-59 and four sets each of 100 KW capacity were installed in 1959 under development of thermal power stations and connected works at this power house. By the end of March, 1961, all the towns and a few villages of the district were electrified. During the second five year plan a sum of Rs. 154.11 lakh was spent on the development of power resources in this district.

Trade and Commerce

31. The articles that are exported out of this district consist of woolen carpets, 'Sajji', 'Ghee', Sugar-candy, cattle, bone, hides, mustard, taramira and blankets etc. while the import includes mainly steel, cloth, piece goods, rice, tobacco, metal goods, 'Kirana' (Groceries), coal and jewellery.

32. Bikaner, Nokha Mandi and Lunkaransar are the main trade centres in the district. Facilities of local markets also exist in certain villages which have been shown in the Primary Census Abstract elsewhere in this book.

33. The State Bank of Bikaner has got its branches at Bikaner, Nokha Mandi and Lunkaransar while the Punjab National Bank Ltd., the United Commercial Bank Ltd; the Central Bank of India Ltd; and the Bank of Rajasthan Ltd. have their branches at Bikaner.

34. There were 11 shops dealing in country liquor, 7 in Indian made foreign liquor and 6 in hemp drugs at the various places in the district during 1960-61. There were two permanent cinema houses in the district during 1960.

Education

35. During 1956-57 there were 8 Colleges, 14 High/Higher Secondary Schools, 27 Middle Schools, 9 Junior Basic Schools, 163 Primary Schools, 1 Professional School and 13 Schools for Special Education in the district. The number increased to 9 Colleges, 17 High/Higher Secondary Schools, 48 Middle Schools, 50 Junior Basic Schools, 290 Primary Schools, 3 Professional Schools and 79 Schools for Special Education in 1960-61. The total number of scholars in all types of institutions during 1960-61 was about 46.2 thousand. There is an office of the Director of Education of Schools at Bikaner. With the ushering in of the Panchayati Rajya, the control of the Primary Schools, except those in urban areas, was entrusted to the Panchayat Samities. A sum of Rs. 71.49 lakh was spent on the development of educational facilities in the district during the second five year plan.

Medical and Public Health

36 During 1956-57 there were 16 allopathic hospitals and dispensaries with 641 beds. By the end of the year 1960 the number of such Government institutions increased to 18 with 716 beds. There are maternity and child welfare centres at Bikaner and Gangashahar. Maternity facilities have also been provided by starting a special ward in P. B. M. Women's Hospital, Bikaner having 47 beds. Family Planning

Centres also function at dispensaries in Gangashahar and Bikaner and at maternity and child welfare centre in Bikaner City under Government control. Such centres also function at Bikaner and Nokha under the Panchayat Samities. There is a tuberculosis hospital at Bikaner with 101 beds. A tuberculosis clinic also functions there.

37. There is a venereal diseases clinic, an eye ward, a paediatric ward and an anti-rabic centre in P.B.M. Men's Hospital at Bikaner. P.B.M. Women's Hospital is also provided with an eye ward. An anti-malarial unit has also been functioning in the district with the headquarters at Bikaner City under the National Malaria Eradication Programme. X-ray facilities are provided in the P.B.M. Men's and Women's hospitals at Bikaner. Laboratory facilities are available in P.B.M. Men's Hospital, Bikaner and Government Dispensary, Deshnoke.

38. In March, 1961 there were 25 Government Ayurvedic and Unani hospitals and dispensaries in the district as compared to 13 during the year 1956-57.

39. The number of out-door and in-door patients treated in the Government allopathic medical institutions of the district in the year 1960 were around 385 thousand and 14 thousand respectively. A sum of Rs. 14.11 lakh and 80 thousand was spent on Medical and Public Health and Ayurvedic facilities in the district during the second five year plan.

Drinking Water Facilities

40. During the second five year plan water supply schemes were started for Bikaner and Nokha Mandi town over which Rs. 29.47 lakhs and Rs. 10 thousand were spent. As the work could not be completed, it was carried over to the third five year plan. Besides, other rural water supply schemes were completed under the control and supervision of the Panchayat Samities.

Housing

41. Under the scheme of Low Income Group Housing, loan upto the tune of Rs. 6 lakhs was disbursed to the public during the year 1955-56 for the construction of residential quarters in the district. During the second five year plan a sum of Rs. 12.90

lakh was disbursed to the public under Low Income Group Housing Scheme and Rs. 2.83 lakh under Middle Income Group Housing Scheme as a result of which 405 houses were constructed under L.I.G.H. and 17 houses under M.I.G.H. Schemes. 170 houses under L.I.G.H. and 2 under M.I.G.H. Schemes were under construction.

Transport and Communication

42. The district had only 114 miles of roads in 1950-51 which increased to 568 miles by the end of March, 1961. 49.8% of the roads in the district were painted and metalled 29.6% fair weather and dressed up tracks and the rest consisted of gravelled type during the year 1960-61. 2 road works were completed and a sum of Rs. 16.42 lakh was spent on road development works in the district during the second plan period.

43. There were 752 motor vehicles on road in 1954 which increased to 1,312 in 1961. The district is connected by the metre-gauge line of the Northern Railway. Two main lines and two branch lines of the railway pass through the district. A main line connects Bikaner City with Sadulpur (Churu district) while another line connects this City with Merta Road of Nagaur district. A branch line connects this City with Hanumangarh (Ganganagar district) while the other connects with Kolayat of this district. The total length of the railway line in the district during 1961 was about 205 Kilometres. There is a landing ground about 9 miles from Bikaner City but there is no regular service. There is a State Circuit House and a Dak Bungalow at Bikaner and Rest Houses at Kolayat, Deh (Kolayat tehsil) and Lunkaransar. All the important places of the district are connected with bus routes. There were 61 Post Offices, 13 Telegraph Offices, 3 Public Call Offices and one Telephone Exchange in the district during 1960-61.

Local Bodies and Co-operation

44. There are Municipal Boards in the district at Bikaner, Gangashahar, Bhinasar, Deshnoke and Nokha Mandi. The main sources of revenue of the municipalities are rent of shops, octroi, taxes, license fees, contracts and the grants provided by the Government while the items of expenditure are public health and sanitation,

light, water works etc. There is a Zila Parishad comprising of 4 Panchayat Samities and 123 Gram Panchayats in the district.

45. There is a Central Co-operative Bank and various types of Co-operative Societies in the district. In June, 1961 there were 320 societies of various categories including a Co-operative Bank with a total membership of over 22 thousand in the district. The working capital of these societies was around 43.0 lakh and the share capital was Rs. 11.5 lakh. A loan of about Rs. 25.7 lakh was advanced by the Government. The deposits and borrowings during the period was around Rs. 9.0 lakh and Rs. 21.9 lakh respectively while the total liabilities amounted to Rs. 46.8 lakh. In all, 219 societies were functioning at profit, 61 at loss and 40 societies were functioning on no profit no loss basis. During the second five year plan a sum of Rs. 3.82 lakh was spent on co-operation in the district.

Community Development

46. The Community Development Programme was started in the district during 1955-56 by establishing a block at Nokha. This was followed by the establishment of a block at Kolayat in 1958-59 and Bikaner in 1960-61. Thus by the end of the year 1961, there were 3 blocks functioning in the district.

47. During the year 1961, 4 hundred Mds. of seeds and 43 agricultural implements were distributed to the farmers and 20 agricultural demonstrations were held in the various Panchayat Samities of the district. 3 wells were constructed for irrigation and another 14 for drinking purposes. 76 adult literacy centres were opened and over 1.4 thousand persons were made literate. 24 Youth Clubs and 9 Mahila Samities were started and 6 reading rooms and libraries were opened.

Social Welfare

48. There is an office of the State Social Welfare Department under charge of the Social Welfare Officer at Bikaner which looks after the welfare activities connected with the uplift of the backward classes in the district. It also acts as a liaison between prisoners and their relatives.

49. There are two Government hostels in the district. Besides, voluntary agency hostels are run at Kolayat and Nokha Mandi under the supervision of Harijan Chhatrawas, Nokha and Jag Jeewan Chhatrawas, Kolayat with the sanctioned strength of 25 and 40 respectively. There are two training-cum-production centres for Scheduled Castes at Bikaner each of which provides the training in the trades of tailoring and shoe-making respectively.

50. The Government has also opened two 'Sanskar Kendras' at Bikaner City for the development of cultural and religious activities of the Scheduled Castes. Houses have been constructed for rehabilitating the Scheduled Castes and Gadolia Luhars at Bikaner City. During the year 1956-57 a sum of Rs. 29 thousand was sanctioned for the construction of houses, Panchayat-Ghar and drinking water wells at Palana (Bikaner tehsil). Besides, houses were constructed at Nokha, Deshnoke etc. for rehabilitating the Scheduled Castes. In all a sum of Rs. 5.89 lakh was spent for social welfare and welfare of backward classes in the district during the second five year plan.

51. Some of the important fairs of the district are as follows :-

(i) *Kapil Muni-ka-Mela*

At village Kolayat, situated at a distance of 50 Kms. to the south-west of the Bikaner City, a fair is held in the honour of Kapil Muni on Kartika Sudi 13 to Agrahayana Badi 1 (Oct.-Nov.) every year. It is the biggest fair of the district where about 50,000 people assemble to participate in the fair. The main day of the fair is on Kartika Sudi 15 (Purnima). The main place of pilgrimage is a tank which has 52 bathing ghats of which several are reserved for women. A temple dedicated to the saint at the main ghat contains a statue in white marble to which coconuts, batasha (Sugar-drops), dry fruits, mishry (Sugar candy) etc. are offered. Shri Kolayatji is the nearest railway station.

(ii) *Karni Mata-ka-Mela*

This fair is held at Deshnoke town (Bikaner tehsil)

which is about 20 miles from Bikaner City. The main fair is held every year during the 'Navratri' on Chaitra Sudi 1 to Chaitra Sudi 10 (March-April) in honour of Karni Mata - a Charan woman who is believed to have been an incarnation of Devi. The largest congregation is on Saptami and Ashtami when about 30,000 persons assemble in the fair. A fair also takes place in 'Navratri' on Ashvina Sudi 1 to Ashvina Sudi 10 (Sept.-Oct.) when nearly 5,000 people participate. Most of these people belong to Ganganagar, Bikaner and Churu districts. Rajputs and Charans, however, come from all over Rajasthan. The Rajputs celebrate 'Jadula' (the first hair cut of a child) ceremony of their children and place the child at the feet of the deity to obtain her blessings. Deshnoke is a railway station and is connected by a metalled road with Bikaner, Nagaur, Jodhpur and Jaipur. Cash, coconuts and sweets are offered to the deity.

(iii) *Jambheswar-ka-Mela*

A fair is held at village Mukam in Nokha tehsil at a distance of 15 Kms. from Nokha Mandi town in the honour of Jambheswar—the illustrious founder saint of the Bishnoi sect who worship him as the incarnation of Vishnu. The fair takes place twice in a year on Phalguna Badi Amawasya to Phalguna Sudi 3 (Feb.-March) and Ashvina Badi 14 to Ashvina Sudi 2 (Sept.-Oct.). The former is the main fair while the later is a smaller one. The estimated congregation in these fairs are over 12,000 and 3,500 respectively. The Bishnois pay their homage to the saint and offer cash, Moth etc. in his honour. They observe fast on Amawasya and perform congregational hawan or 'agnihotra' and do not conduct any other business on this day.

(iv) *Bhaironji-ka-Mela*

A fair is held at village Kodamdesar in Kolayat tehsil either on Bhadrapada Sudi 12 or Bhadrapada sudi 13 (Aug.-Sept.) every year. The estimated congregation in the fair is 4,000. The people also perform the 'Jadula ceremony' of their children on this occasion.

(v) *Shivwari-ka-Mela*

A religious fair is held in village Shivwari (Bikaner

tehsil), which is about halfway between Devi Kund and the City at some distance to the south of the road, on Shravana Sudi 7 to Shravana Sudi 10 (July-Aug.) every year. The peak day is Shravana Sudi 10 (July-Aug.). There is a temple dedicated to Lord Shiva where about 10,000 people congregate to offer their prayers. Bikaner is the nearest railway station.

(vi) *Jaitha Bhutta-ka-Mela*

At village Gajner (Kolayat tehsil) there is a Samadhi of Jaitha Bhutta on the bank of a lake near the Palace. A fair is held here on Ashvina Sudi 8 (Sept.-Oct.) every year. About 4,000 people participate in the fair. Although both Hindus and Muslims assemble, only Muslims participate in the worship. Gajner itself is a railway station.

52. The main festivals among the Hindus are Navratri, Akshya Tritiya, Gangaur, Raksha-Bandhan, Dashera, Deewali, Basant Panchmi while the Muslims observe Moharrum, Idul-Milad-ul-Nabi, Ramzan, Idulfitre and Idul Zuha.

Places of Historical and Archaeological Importance

53. Following places are considered important in the district from the historical and archaeological point of view :—

Bikaner

Bikaner, the fourth largest City of Rajasthan, has a population around 1.51 lakh which constitutes 80.1% of the district's urban population. It lies fairly deep in the Thar Desert behind the endless waves of sand dunes. This region is believed to be the seat of a great civilization at the time when the sacred river Saraswati used to flow here. The town is directly connected by rail with Delhi 462 Kms. (287 miles), Jaipur 378 Kms. (235 miles) and Jodhpur 275 Kms. (171 miles). The walled City presents the appearance of a magnificent town. The City wall is about seven Kms. in circuit built wholly of stone with several fine gates. The town is built upon a rock formation which is higher than the surrounding sandy tract. Due to this reason Bikaner is visible even from a distance. The fort is the main attraction of

the City. There are some other elegant buildings in red and yellow sand stone.

The Forts

The Bikaner Fort was built by Raja Raisingh (1571-1611), one of Akbar's distinguished generals, during 1588-1593 A.D. It has two entrances each of which has three or four successive gates with different names and its ramparts have numerous towers. The fort, which also contains the Maharaja Raja Rai Singh's Palace (the oldest building in the fort) is situated about three hundred yards from the Kot gate of the City and includes the Suraj parol, the Karkhana Kalan (great workshop), the Har Mandir, the Chaubara and Hazuri Darwaza (royal entrance) and the Raj Nivas. Most of these buildings are executed in yellow sand stone. The walls of Chandan Mahal are covered with niches, mirrors and carved marble panels. Phool Mahal is decorated with glittering mirror work, carvings and paintings and the ante-room of this Mahal is adorned by the sculptures of Hindu deities. The Sheesh Mahal of Gaj Mandir is famous for its mirror and stucco work. The Chhatar Mahal, the ceiling of which is highly ornamented, bears a 'Ras Lila' frieze. Ganga Nivas, the spacious darbar hall, is faced with richly carved red sand stone. There is a big tank known as 'Sur Sagar' near the fort which was constructed by Maharaja Sur Singh. The old fort, built by Bika (the founder of Bikaner City) is situated on some high rocky ground. It is surrounded by ravines and is located outside the southern wall of the City. It is a small place and is considered more like a shrine than a fort. There are cenotaphs of Bika and his successors and inscriptions over them record the dates of the funerals and the number of 'Satis' at each.

Palaces and Temples

Outside the City is the Lalgah Palace, an imposing edifice of carved red stone, which contains a remarkable collection of paintings. It is one of the most magnificent building in Bikaner City and at present is the residence of the Maharaja. It was built by Maharaja Ganga Singh in the memory of his father Lal Singh. Within the Palace, the flooring has mostly been done in marble. The Gajner Palace built on the

banks of a lake, is situated about 31 Kms. (20 miles) south-west of Bikaner City. It was founded by Maharaja Gaj Singh and was a favourite place of residence of Bikaner Chiefs. There is a temple dedicated to Susani Devi, the 'Kuldevi' of the Surana Oswals, in village Morkhana of Nokha tehsil. The village is situated at a distance of 28 miles south-east of Bikaner City and is about 14 miles from Deshnok town. The temple is built of Jaisalmeri stone. There are carved images on its exterior but many of these have been covered by white plaster. Of the famous temples, the Bhandasar Jain temple, Laxmi Narain temple and temple of Dhuni Nath are important in the district.

The Museum

The Ganga Golden Jubilee Museum at Bikaner is stocked with some very interesting and rare art pieces. There is a fine collection of terracottas belonging to the Gupta period. One of the beautiful pieces is a five feet white marble image of Saraswati.

Devi Kund or Devi Sagar

This tank, which is a picnic spot, is situated three miles east of the Bikaner City. A large number of cenotaphs of the former rulers are located on the banks of this tank. These are fine buildings and have beautiful domes.

Electoral Participation and Preferences

54. During the first general elections in the year

1952, the district formed three constituencies with a voting population of about 158 thousand persons and three seats in the State Vidhan Sabha. 43.1% voters exercised their right of franchise. The highest percentage of polling was 45.5 recorded in Bikaner City constituency, the lowest was in Nokha constituency where only 39.7% votes were polled. All the three seats were captured by the independent candidates. No separate seat was allotted to the district in the House of the People for it was combined with Sardarshahar, Ratangarh and Sujangarh assembly constituencies of Churu district and Nagaur-West and Didwana assembly constituencies of Nagaur district for this purpose.

55. During the second general elections in the year 1957, the number of assembly constituencies remained the same but one of them was made a double member constituency. The total voting population was about 181 thousand. 42.0% voters (49.6% of men and 28.1% of women) exercised their right of franchise. The highest percentage of polling was 50.9 in Bikaner City constituency and lowest in Lunkaransar constituency where 33.4% votes were polled. One seat was captured by the Congress, one by the Praja Socialist Party and the rest two were taken by the candidates who were independent. The district at this time too was not allotted any separate seat for the House of the People as it was combined with Ganganagar and Churu districts (excluding a few villages of Sujangarh tehsil) to form a parliamentary constituency.

SECTION II

**PRIMARY CENSUS ABSTRACT
&
OTHER CENSUS TABLES**

PRIMARY CENSUS ABSTRACT

PRIMARY CENSUS ABSTRACT

The Primary Census Abstract furnishes the population figures for 1961 Census and is presented in three parts viz. District, Rural and Urban Primary Census Abstracts. These abstracts contain the data in respect of area, number of occupied residential houses and households, total population and its breakup by sex, literacy, Scheduled Castes and Scheduled Tribes, workers and non-workers. The workers have further been classified into following nine industrial categories:—

- I As Cultivator,
- II As Agricultural Labourer,
- III In Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and allied activities,
- IV At Household Industry,
- V In Manufacturing other than Household Industry,
- VI In Construction,
- VII In Trade and Commerce,
- VIII In Transport, Storage and Communications and
- IX In Other Services.

2. The District Primary Census Abstract furnishes the data for the district total, rural and urban areas, each rural tehsil and for each town separately. The Rural Primary Census Abstract presents the data for the villages while Urban Primary Census Abstract furnishes information for the municipal wards of all the towns in the district.

3. A Revenue Mauza (including its hamlets) is treated as a village while a town is a place having either a Municipality or Cantonment or satisfying the following factors:—

- (a) having a minimum population of 5,000 and
- (b) having three-fourth of its male adult population engaged in non-agricultural pursuits, or
- (c) having a density of approximately 1,000 persons per sq. mile.

Hamlets falling into the revenue areas of the towns but not administered by the municipality are treated as the non-municipal area of the town. The villages in the Rural Primary Census Abstract are presented tehsilwise and within a tehsil in order of their Census location code numbers.

4. In the Urban Primary Census Abstract, the data has been presented for each municipal ward of the towns. The blockwise figures for towns could not be presented

here for want of space. This information, however, is available in the office of the Superintendent, Census Operations, Rajasthan. The data for non-municipal areas attached to a town has been shown just after the wards while for special charges, the figures have generally been included in the respective wards.

5. A special column (2a) in the Rural Primary Census Abstract has been provided for showing some of the basic amenities which existed in the villages. These amenities have been shown by means of symbols as under:—

- P—Primary School
- M—Middle School
- H—High/Higher Secondary School
- C—College
- D—Dispensary
- Hos—Hospital
- Tmw—Trained Midwife
- V—Veterinary Hospital/Dispensary
- Pw—Pucca well
- Kw—Kutchha well
- Tk—Tank
- B—Baori (stepped well)
- Rly—Railway Station
- Po—Post Office
- To—Telegraph Office
- Lm—Local Market

6. Village marked with an asterisk (*) indicates the location of a Gram Panchayat.

7. The area figures shown in column (3) of the Rural Primary Census Abstract are collected from the Revenue Authorities while this column of the Urban Primary Census Abstract has been left blank as area figures for the wards are not available.

8. Column (4) of the Abstract includes houses used as dwellings or partly as dwellings.

9. Column (5) shows the number of households. A "household" has been defined as a group of persons who commonly live together in the same house and take their meals from a common kitchen. A servant, friend or a guest (related or unrelated) residing and eating with the household during the census period has been treated as a member of the household. On the other hand, a son or a daughter residing in a hostel is not treated as a member of the household.

10. Columns (6) to (8) of the Abstract show the total population and its sex-wise breakup. This also includes houseless and institutional population. Houseless person has been defined as (i) a person who might be doing domestic service or some other work with one or more households but who does not reside in any house and sleeps in the corridors, verandahs or passages in buildings or on the streets; (ii) wandering or nomadic tribes found to be staying in temporary huts, etc. or residing without any such huts just on the open ground; and (iii) beggar, vagrant, tramp, sadhu, fakir, etc. who is found in the foot-paths, streets, in places like parks, gardens, railway yards, etc. Institutional population includes persons enumerated in penal, charitable or mental institutions, hostels, hotels, hospitals, boarding houses, etc.

11. Columns (9) to (12) of the Abstract show the population of Scheduled Castes and Scheduled Tribes and their sex-wise breakups. The further breakups of individual Scheduled Castes/Tribes are given in Table SCT—I.

12. Columns (13) & (14) of the Abstract give the number of literate and educated persons. A "literate" is defined as a person who knows both reading and writing. This also includes the persons having higher education. Detailed information on educational levels has been given in Table B—III and C—III.

13. Columns (15) & (16) give the total number of male and female workers. A person is classified as "worker" if in case of seasonal work like cultivation, livestock, dairying, household industry, etc. he has had some regular work of more than one hour a day throughout the greater part of the working season. In the case of regular employment in any trade, profession, service, business or commerce, he was employed during any of the fifteen days preceding the day of the enumerator's visit to the household. A person who was working but was absent from his work during the fifteen days preceding the day on which enumerated or even exceeding the period of fifteen days due to illness or other causes has been treated as a worker. A person who had been offered work but had not actually joined, has been treated as non-worker. "Work" includes not only actual work but effective supervision and direction of work also.

Persons under training as apprentices with or without stipend or wages are regarded as workers. An adult woman who was engaged in household duties but doing no other productive work to augment the family's resources has not been considered as working. If, however, in addition to her household work she engaged herself in work such as rice pounding for sale or wages, or in domestic services for wages for others, in minding cattle or selling firewood or making and selling cowdung cakes, or grass, or any such work, she has been treated as a worker. Similarly persons like beggars, pensioners, agricultural or non-agricultural royalty, rent or dividend receivers, who earn an income but who are not participating in any productive work, are not treated as workers

unless they also work in cultivation, industry, trade, profession, business or commerce. A public or social service worker who is engaged in public service actively or a political worker who is actively engaged in furthering the political activity of his party is regarded as a worker.

The population classified as workers here is the economically active population including family workers but not including unemployed persons.

14. Columns (17) to (34) furnishes the sex-wise distribution of workers into nine industrial categories. The explanations for these categories are given below:—

Category I

This category includes both the owner cultivators and tenant cultivators. Along with workers personally doing work in land are also included persons who are engaged in supervision or direction of cultivation. The term 'cultivation' involves ploughing, sowing and harvesting and does not include fruit growing or keeping orchards or groves or working for plantations.

Category II

All other persons working on land as labourers on wages without exercising any supervision or direction and without holding any right upon the land are classified as agricultural labourers and are included in this category.

Category III

Workers in mining, quarrying, livestock, forestry, fishing, hunting, plantations, orchards and allied activities are included in this category.

Category IV

A "Household Industry" is an industry conducted by the head of the household himself and/or mainly by the members of the household at home or within the village in rural areas and only at home in urban areas. The industry should not be run on the scale of a registered factory but may use machinery and employ power like steam engine or oil engine or electricity to drive the machinery. Thus, in a rural area, the household industry can be located either at home or within the village but in urban area, the household industry or at least the major part of its work must be located at home. A household industry relates to production, processing, servicing or repairing and includes making and selling of goods but should not be confined simply to buying and selling. It does not include profession such as pleader, doctor, barber, waterman or astrologer, etc. Persons working in other person's household industry as paid employees, are also treated as workers in household industry.

Category V

'Manufacturing' includes all types of production, processing, servicing or repairing of goods which does not

include production or processing under category IV.

Category VI

This category includes workers engaged in construction and maintenance of buildings, roads, railways, bridges, telegraph, telephones, water-ways, reservoirs, etc.

Category VII.

This category includes workers engaged in any capacity in wholesale or retail trading activity and commercial transactions relating to imports and exports, real estates and properties, stock and shares, insurance, money lending banking, etc.

Category VIII‡

This category includes workers engaged in transport activities by air, rail, road or water and in services incidental to transport such as packing, carting, loading unloading, etc. Workers engaged in storage, warehousing and communication services such as posts, telegraph, telephones, wireless signalling, information and broadcasting are also included in this category.

Category IX

This category includes (i) Public utility services like electricity or gas or water supply, sanitary services; (ii) Central, State or Municipal employees; (iii) Professional services; (iv) Trade or labour associations, recreation services, etc.

15. Columns (35) & (36) give the total number of male and female non-workers. The following persons have been

classified as non-workers:—

1. Full-time student or child attending school who does no other work, such as make articles at home for sale, nor even help part-time in his own family cultivation, industry, trade or business.
2. Person engaged in unpaid home duties (like housewife or other adult female) who does no other work, such as make articles at home for sale or wages, nor help regularly even part-time in family cultivation, industry, trade or business.
3. Dependant, including an infant or child not attending school, a person permanently disabled from work because of illness or old age.
4. Retired person who is not employed again, rentier, person living on agricultural or non-agricultural royalty, rent or dividend or any other person of independent means for securing which he does not have to work and who does no other work.
5. Beggar, vagrant or independent woman without indication of source of income and others of unspecified source of income.
6. Convict in Jail (an under-trial prisoner has been shown as a worker if he used to work before he was apprehended) or an inmate of a penal, mental or charitable institution.
7. Person who has not been employed before but is seeking employment for the first time.
8. Person employed before but now out of employment and seeking employment.

OTHER CENSUS TABLES

GENERAL POPULATION TABLES

(Note on A-Series)

There are four Tables and four Appendices in this series. These tables, being the basic population tables, furnish information about area, sexwise population and its variation during sixty years, classification of villages and towns by population and the trends of urbanisation in the district.

Table A-I

2. This is the basic population table showing area, density, number of villages and towns, occupied residential houses and population by persons, males and females. The data has been presented for the district as well as for each tehsil for total, rural and urban areas separately. The town figures have been shown immediately after the entries of the tehsil in which they are situated. The abbreviation just after the name of the town has been used to denote that the particular town has a Municipality or a Cantonment.

3. It may be noted that in the previous censuses the density of population and other urban break-ups upto the town level were not mentioned in this table which have been shown separately now for 1961 Census besides furnishing the number of inhabited and uninhabited villages in each tehsil.

4. The area figures both for rural and municipal towns have been obtained from the State revenue authorities. Though the area figures have been collected originally in acres yet these figures have been shown in Sq. miles and Sq. Km. in columns 3 (a) and 3 (b) respectively after converting them into the respective units. Further, the area figures have been given upto one decimal place in case of the district as well as for each tehsil but such presentation is made upto two decimal places in case of towns.

5. The density of persons has been worked out according to the area shown under column 3 (a) and has been presented separately for the district and for each of the tehsils and towns under column 4.

6. A village and a town has already been defined in para 3 of the note on Primary Census Abstract.

7. For the purpose of 1961 Census, a 'House' is a structure or part of a structure inhabited or vacant, or a

dwelling, a shop, a shop-cum-dwelling or a place of business, workshop, school etc., giving out on the road or a common staircase or a common courtyard leading to a main gate or enjoying a separate entrance. 'Occupied residential houses' are those houses which are used wholly or partly for the purpose of residence by one or more households.

8. In addition to this main table, there are three appendices which were not prepared in the last censuses.

Appendix I

9. This appendix is helpful in finding out the growth of the district to the present area since the last census. The appendix shows the territorial changes that have taken place during the last decade. A brief description of gain and loss of territory in those tehsils which had changes in area during the period is also shown in this appendix. A list of Such transferred areas has been given in the annexure to this appendix.

10. An annexure showing the places with less than 5,000 population which were treated as towns in 1951 Census but declassified in 1961, is attached to this appendix.

Appendix III

11. This appendix shows the sexwise figures for houseless and institutional population for the district and each tehsil for total, rural and urban areas separately. Houseless and Institutional population has already been defined in para 10 of the note on Primary Census Abstract.

Table A-II

12. This table compares population figures of the district as ascertained at the 1961 Census with the corresponding figures for the six previous censuses. The figures presented for the six previous censuses in the table, have been adjusted after taking into consideration the territorial changes taken place in the district so as to afford a correct basis for comparison. This is an important table as it gives the growth of population from decade to decade. It further provides a basis for estimating the population especially in the absence of reliable data for vital statistics.

The main change in this table over 1951 Census is that the percentage variation has also been mentioned from decade to decade.

13. The appendix attached to this table shows the population for the district as well as for each tehsil according to their territorial jurisdiction in 1951 besides furnishing the changes in area and the population involved in those changes that have taken place during the last decade. The details of transfers of areas and population in every case have been given in the footnote separately.

Table A-III

14. This table furnishes the sexwise total rural population together with the number of inhabited villages for the district as well as for each tehsil arranged into seven population size groups viz., less than 200, 200-499, 500-999, 1,000-1,999, 2,000-4,999, 5,000-9,999 and 10,000 and above.

15. The main changes in this table over 1951 Census are (i) the group less than 500 has now been split up into two groups viz., less than 200 and 200-499 and (ii) it relates only to villages while in 1951 Census it related to villages and towns both.

Table A-IV

16. This table shows the growth of each town in the district since 1901 together with its sexwise population. It further furnishes the information regarding decade variation in population and its percentage. For the purpose of this table all the towns have been classified into the

following six classes according to population:-

Class I	1,00,000 and above
Class II	50,000 — 99,999
Class III	20,000 — 49,999
Class IV	10,000 — 19,999
Class V	5,000 — 9,999
Class VI	Less than 5,000

17. The district totals for a class have been given followed by the various towns in that particular Class. Column No. 2 of the table presents the name of the town and just under it the area of that town has been given both in Sq. miles and Sq. Km. The status of the town is separately shown in column No. 3 in an abbreviated form.

18. The main object of this table as indicated above is to show the growth of towns as towns and not how certain places have been converted into towns from villages as such the figures against towns have been shown for those decades only in which they were recognised as towns. The district population for all classes during the previous decades has been arrived at after adding the population of those places which were treated as towns in the corresponding decade but now declassified. As such if a town had not been treated as town in all the previous censuses, it is indicated as declassified in those particular censuses. Towns treated for the first time in 1951 Census have been asterisked*.

19. The change in this table over 1951 Census is that the areas of towns as well as the percentage of decade variations of total population of the towns have been additionally shown in the present census.

20. A separate volume—Part II-A incorporating the General Population Tables for the State and the districts have been issued in which the concepts used have also been discussed.

TABLE A-I—AREA, HOUSES AND POPULATION

District/Tehsil/Town	Total Rural Urban	Area in		Popu- lation per Sq. mile	No. of villages		No. of towns	No. of occupied Residential houses	Population

	U	4.1	10.6	1,892	..	..	1	1,265	7,740	3,858	3,882
*Nokha Mandi Town (M)	R	4.09	10.59	1,892	..	..	1	1,265	7,740	3,858	3,882

Note :- 1. The Sq. Km. and density figures of urban areas of Tehsil/District are worked out using the area figures corrected upto 2 places of decimals obtained by adding the area of towns in the respective units and not using the area figures given in the table. In addition to this the area figures relating to Sq. Km. are further adjusted to make the Tehsil/District totals tally.

2. Towns treated as such for the first time in 1951 Census which continue as towns in 1961 Census are shown with asterisk (*) on their left.

3. The following abbreviation has been used for the Status of a town e. g.

(M)= Municipality

@=Entirely Rural

Note:— The district totals for each class of town relating to the years 1901 to 1951 do not correspond with the totals that would be arrived at by adding of the population figures of various towns relating to each census year. This is because that the district figures relating to the past census years also contained the population of those places which were classified as towns in the various censuses.

Town treated as such for the first time which continue as towns in 1961 Census are shown with an asterisk (*) on their left.
M = Municipality.

APPENDIX TO TABLE A-IV
Towns in 1951 declassified in 1961
(No new town was added in 1961)

		Sq. miles	Sq. Km.	1961	1951
1	2	3	4	5	6
Lunkaransar	1 Lunkaransar	36.84	95.42	2,791	2,078

*Largely conjectural

ECONOMIC TABLES

(Note on B-Series)

In 1951 Census Reports, the population was classified on the concept of 'dependency' which has been changed to that of 'workers' and 'non-workers' at the current Census. The change in the concept will be helpful in finding out the realistic picture of the economic activity of those important sections of household workers who otherwise have been left out of account in the past censuses.

2. This series has been divided into two parts *viz.*, (i) General Economic Tables and (ii) Household Economic Tables.

(i) GENERAL ECONOMIC TABLES

3. There are 9 General Economic Tables in this series. The first 3 tables distribute the working and non-working population by economic activity correlated with sex, age and educational levels. A more elaborate classification of workers by industry according to the Standard Industrial Classification is presented in Table B-IV while it has been shown by occupation in Table B-V. Table B-VI provides information about those occupations of National Classification which attract educated personnel in urban areas. Another Table B-VII shows the classification of workers by secondary work and the last two tables distribute the non-workers by sex, age and eight broad classes according to the activities pursued by them.

Table B-I

4. This is a basic economic table prepared on the basis of Primary Census Abstract. In this table the population has been divided into nine industrial categories of workers based on Indian Standard Industrial Classification and a separate category of non-workers (detailed classification of which are available in Table B-IX in Part II-B (ii) of State Census Report) further classified into sex and broad age-groups *viz.* 0-14, 15-34, 35-59 and 60+. The classification of workers and non-workers by specific age-groups, is a special feature of 1961 Census. The age-groups correspond to the different stages of life which have special significance with reference to capacity to work *viz.*, children, young persons, middle aged and elderly persons. Detailed classification of non-workers is, however, given in Table B-IX.

5. This table presents data separately for total, rural and urban population of the district while those for tehsils for rural areas only. Another Table B-II showing such information for each town is not reproduced in this book and has been given in Part II-B (i) of State Census Report.

Table B-III

6. This table has been compiled into two parts. Part A deals with urban population of the district classified into nine industrial categories of workers and a separate category of non-workers cross tabulated by literacy and various educational levels. Part B refers to rural population of the district as well as for each tehsil where educational levels have been confined only to two categories *viz.*, Primary or Junior Basic and Matriculation and above. It is an important table indicating employment of persons of different educational standards amongst the various categories of workers. The educational qualifications of available man-power can be assessed with the help of this table.

Table B-IV

7. This table has been presented in three parts. Part A deals with the industrial classification of worker of persons at work at household industry separately for total, rural and urban parts of the district, showing the figures for divisions and major groups of Indian Standard Industrial Classification. Divisionwise figures for each tehsil in case of its rural areas are also shown.

8. Part B of this table provides the data regarding industrial classification by sex and class of worker of persons at work in non-household industry, trade, business, profession or service for total and urban areas of the district by divisions and major groups.

9. In Part C of this table the data has been furnished for industrial classification by sex and divisions, major and minor groups of persons at work other than cultivation for total and urban areas of the district. Such data for rural part of each tehsil is also presented in the supplementary table to B-IV Part-C by divisions only.

10. This table is quite important as it furnishes employment position in respect of various sectors of economy not only indicating the class of the workers *viz.*, employer, employee, single worker, family worker but also by different branches of industry according to divisions and major groups is Parts A and B and also by minor groups of Indian Standard Industrial Classification in Part C.

11. As the information included in Part C of this table is quite voluminous, the minor groups having figures less than 1% of the total workers of the respective division (less than 0.5% in case of division 2&3) have been excluded and relegated to the Appendix attached to this part of the table.

12. The Standard Industrial Classification, reproduced as an appendix at the end of note on this series describes in detail the various codes used for divisions, major and minor groups.

Table B-V

13. This is a new table and has been compiled for total and urban population by sex in order to provide information regarding occupational classification in the district engaged in production other than cultivation, further classified into divisions and groups on the basis of the National Classification of Occupations. Under each group the detailed occupational families are shown. Families having less than 1% of workers of the respective division (less than 0.5% in case of families under division 7-8) are not given in this table but are shown in an appendix attached at the end of this table. A fly leaf showing appropriate industrial category is also given in place of industrial category appearing in the table due to insufficient description given in the enumeration slip for industry or coding mistake. The occupational classification of persons engaged in non-agricultural pursuits has been further detailed according to various categories of workers. The categories of workers are same as adopted for Primary Census Abstract.

14. In this table cross tabulation of industry and occupation has been made for the first time while such information was combined in the previous censuses.

Table B-VI

15. This is a new table prepared for the first time in 1961 Census and provides information about those occupations which attract educated personnel. It has been prepared only for urban areas of the district upto divisional level of the National Classification of Occupations. The workers under each occupational division have been classified by broad age-groups viz., 0-14, 15-34, 35-59 and 60 and above. The age-groups have been further classified according to educational levels as adopted in Economic Table B-III Part A. However, the figures for total workers under each occupational division have been provided for total only and not for different age-groups. It may be noted that total workers for each occupational division in this table corresponds to the total workers of urban areas in Table B-V.

Table B-VII

16. This table has been compiled into two parts. Part A presents persons working principally (i) as cultivators (ii) as agricultural labourers or (iii) at household industry classified by sex and by the nature of their secondary work (i) at household industry (ii) as cultivator or (iii) as agricultural labourer. Such data has been presented in this part by divisions and major groups separately for the total, rural and urban parts of the district and by divisions only in case of rural part of each tehsil.

17. In case a worker is engaged in two or more kinds of work, the work consuming the larger portion of time has been treated his principal work while another consuming larger portion of his time considered his secondary work.

18. Part B of this table presents the industrial classification by sex of persons working in non-household industry, trade, business, profession or service who are also engaged in household industry. Such data has been presented in this part of the table by principal work and additional work based on divisions and major groups for the district as a whole while it has been shown by divisions only in case of each tehsil for its rural areas.

Table B-VIII

19. This is a new table prepared for the first time in the current Census. This table presents the distribution of unemployed persons aged 15 and above by sex and educational levels. It has been compiled into two parts. Part A relates to urban areas and is presented for the district as a whole. Part B relates to rural areas and is presented upto tehsil level.

20. The number of unemployed in Part A of this table have been further split up by (i) persons seeking employment for the first time and (ii) persons employed before but now out of employment and seeking work. The age-groups in the first case are 15-19, 20-24, 25-29, 30-34 and 35+ which are modified in the second case as 15-19, 20-24, 25-34, 35-44, 45-59 and 60+.

21. The break-up of educational levels is much elaborate in Part A which is the same as given in Table B-III Part A while such educational levels are confined only to (i) Primary or Junior Basic and (ii) Matriculation and above, in Part B of this Table.

Table B-IX

22. This table presents the distribution of non-working population by broad age-groups and eight classes of non-workers based on the recommendation of the United Nations Organisation. In this table data has been shown for total, rural and urban areas of the district separately and upto tehsil level for rural areas only. Such information on the non-working population had never been compiled before.

(ii) HOUSEHOLD ECONOMIC TABLES

23. There are 8 Household Economic Tables in this series compiled in the current Census which is a first attempt for collecting economic data on the basis of households in addition to what is collected for each individual. In a predominantly agricultural State where most of the population is in rural areas and where much of the goods produced are consumed by the population itself, collection of information purely on the

basis of individuals tends to go slightly out of focus unless such information is supplemented by information on economic activities of the household as an entity. A decision was, therefore, taken that the information relating to the economic activities of the majority of households viz., cultivation activities and household industry should be collected at the current Census.

24. A household Schedule was used at the Census 1961 for this purpose. In the Part I of this Schedule, information on the extent of land cultivated by the household, either owned or held from Government or held from private persons or institutions for payment in money, kind or share, and extent of land given to private persons for cultivation for payment in money, kind or share was collected. Besides, nature of household industry conducted by the household and the duration of the industry in a year alongwith number of family workers and hired workers engaged in cultivation or household industry or in both was also collected.

25. All these tables have been prepared on the basis of 20% sample of households.

Table B-X

26. This table is prepared on a 20% sample of households and is presented for the district total, rural and urban areas separately and upto tehsil level for rural areas only. The sample households have been classified into four categories viz., (i) households engaged neither in Cultivation nor Household Industry, (ii) households engaged in Cultivation only, (iii) households engaged in Household Industry only and (iv) households engaged both in Cultivation and Household Industry. Thus, the table divides all the households in three important sectors of economic activity.

27. Cultivation includes ownership, tenancy cultivation and agricultural labour. The Household Industry relates to production, processing, servicing or repairing and includes making and selling of goods.

Table B-XI

28. This table presents data for the district total, rural and urban areas separately and upto tehsil level for rural areas only. In this table a more detailed examination of the cultivating households, which have been separated in the previous table, has been made. Such households have been classified according to the size of land cultivated and cross tabulated by the interest in land cultivated. The sizes of land in acres are given as less than 1, 1.0-2.4, 2.5-4.9, 5.0-7.4, 7.5-9.9, 10.0-12.4, 12.5-14.9, 15.0-29.9, 30.0-49.9, 50+ and unspecified.

29. The interest in land cultivated has been classified into the following three categories :—

- (a) entirely owned or held from Government,

- (b) entirely held from private persons or institutions for payment in money, kind or share, and

- (c) partly held from Government and partly from private persons for payment in money, kind or share.

30. Abbreviations (a), (b) and (c) have been used in place of legends for interest in land cultivated under column 1 of the table and the same have been spelt out at the bottom of the table.

Table B-XII

31. In this table the data has been shown for the district total, rural and urban areas separately and also up to tehsil level for rural areas only. The table will facilitate a further study of households which are engaged only in cultivation, as each household having a particular size of holding mentioned in Table B-XI has been cross tabulated with reference to the number of persons working in cultivation. The holding has been grouped into the following size ranges (in acres); less than 1, 1.0-2.4, 2.5-4.9, 5.0-7.4, 7.5-9.9, 10.0-12.4, 12.5-14.9, 15.0-29.9, 30.0-49.9 and 50+ and unspecified.

32. In case of household where more than one person is working, the number of family workers and hired workers have been separated. Family workers have also been separately tabulated by sex.

Table B-XIII

33. This table is presented separately for rural and urban areas of the district. The table shows the distribution of sample households engaged both in Cultivation and Household Industry classified by size of land cultivated and by size of Household Industry. The Household Industries have been classified according to the code numbers of divisions 0, 1, 2 & 3 and their major groups of Indian Standard Industrial Classification (for detailed description see Appendix at the end of the note on this series). It throws light on Household Industries which are carried on as an ancillary to cultivation in different parts of the district.

Table B-XIV

34. In this table the data has been presented for the total, rural and urban households separately for the district and relates to households engaged only in Household Industry. The table has been prepared in two parts:—

Part A:—It relates to households classified by major groups of principal Household Industry and number of persons engaged in each, grouped under 1, 2, 3-5, 6-10 and more than 10 persons. The Household Industries

have been classified according to the code number of divisions 0, 1, 2 & 3 and their major groups of Indian Standard Industrial Classification (for detailed description of code numbers see Appendix at the end of the note on this series).

Part B:—It relates to households classified by minor groups of principal Household Industry. In cases where there are more than one Household Industry under a minor group, sub-minor group numbers in four digits have been given.

Table B-XV

35. This table has been prepared for households engaged both in Cultivation and Household Industry. The data has been shown separately for total, rural and urban areas of the district. Tehsilwise break-ups for rural areas only could not be given here due to short of space, however, the same is available in Part III of State Census Report. In this table, an analysis has been made of persons working in these households with reference to size of holding. In cases where more than one person is employed, the number of family workers and hired workers are separately given. Similar data in respect of households engaged in Cultivation only has already been given in Table B-XII. A comparison between this table and Table B-XII will show how the combination of Household Industry with Cultivation affects the employment position. This table helps to establish a co-relation between the Household Industry and the scale of Cultivation.

Table B-XVI

36. This table is confined only to Household Industry and the data has been presented separately for the district total, rural and urban areas. The data in respect of Households engaged in Household Industry only or both in Household Industry and Cultivation are given separately. Household Industry is classified according to period of working of the industry grouped under 1-3 months, 4-6 months, 7-9 months and 10 months to one

year and under each category number of households number of family workers and number of hired workers are given. This table thus, furnishes important data on the seasonality of various household industries and yields inferences on the seasonality of Household Industry with seasonality of Cultivation.

37. The major groups of Household Industry having less than 10% of the figures of the respective division which have been omitted from the table are shown in the Appendix at the end of the table. For detailed description of divisions and major groups of Household Industry see Appendix at the end of the note on this series.

Table B-XVII

38. The data in this table has been presented separately for the district total, rural and urban areas. The family sizes of sample households have been classified according to single member, 2-3 members, 4-6 members, 7-9 members and 10 members and over. It may be noted that although the 'Census Household' is not exactly the same as 'Family' to the extent that it may also include unrelated persons residing with the family during the census count, yet this table gives a general idea of the family sizes as in the majority of families outsiders are likely to be insignificant.

39. The sample households have also been classified by economic activity by work in cultivation or household industry. Households engaged in cultivation have been further classified by size of land holding. Classification by economic activity as well as by size of land holding is presented only for rural areas while classification by size of households is presented for total and urban areas.

40. Separate volumes Part II-B (i) & (ii) for General Economic Tables and Part III for Household Economic Tables have been issued in which the various concepts used, have been discussed in detail.

APPENDIX
STANDARD INDUSTRIAL CLASSIFICATION

Major Group (Code)	Description	Minor Group (Code)	Major Group (Code)	Description	Minor Group (Code)
1	2	3	1	2	3
<i>Division 0—Agriculture, livestock, forestry, fishing and hunting</i>					
00	Field Produce and Plantation Crops		02	Forestry and Logging—concl.	
	Production of cereal crops (including Bengal gram) such as rice, wheat, jowar, bajra maize	000		Production of gums, resins, lac, barks, herbs, wildfruits and leaves by the exploitation of forests	025
	Production of pulses, such as arhar, moong, masur, urd, khesari, other gram	001		Production and gathering of other forest products not covered above	026
	Production of raw jute and kindred fibre crops	002	03	Fishing	
	Production of raw cotton and kindred fibre crops	003		Production of fish by fishing in sea	030
	Production of oilseeds, sugarcane and other cash crops	004		Production of fish by fishing in inland waters including the operation of fish farms and fish hatcheries	031
	Production of other crops (including vegetables) not covered above	005		Production of pearls, conch, shells, sponges by gathering or lifting from sea, river, pond	032
	Production of fruits and nuts in plantation, vines and orchards	006	04	Livestock and Hunting	
	Production of wood, bamboo, cane reeds, thatching grass, etc.	007		Production and rearing of livestock (large heads only) mainly for milk and animal power such as cow, buffalo, goat	040
	Production of juice by tapping palms	008		Rearing of sheep and production of wool	041
	Production of other agricultural produce (including fruits and nuts not covered by code number 006 and flowers) not covered above	009		Rearing and production of other animals (mainly for slaughter) such as pig	042
01	Plantation Crops			Production of ducks, hens and other small birds, eggs by rearing and poultry farming	043
	Production of tea in plantation	010		Rearing of bees for the production of honey, wax and collection of honey	044
	Production of coffee in plantation	011		Rearing of silk worm and production of cocoons and raw silk	045
	Production of rubber in plantation	012		Rearing of other small animals and insects	046
	Production of tobacco in plantation	013		Trapping of animals or games propagation	047
	Production of ganja, cinchona, opium	014		Production of other animal husbandry products such as skin, bone, ivory and teeth	048
	Production of other plantation crops not covered above	015	<i>Division 1—Mining and Quarrying</i>		
02	Forestry and Logging		10	Mining and Quarrying	
	Planting, replanting and conservation of forests	020		Mining of coal	100
	Felling and cutting of trees and transportation of logs	021		Mining of iron ores	101
	Preparation of timber	022		Mining of gold and silver ores	102
	Production of fuel including charcoal by exploitation of forest	023		Mining of manganese	103
	Production of fodder by exploitation of forests	024		Mining of mica	104

APPENDIX—Contd.

Major Group (Code)	Description	Minor Group (Code)	Major Group (Code)	Description	Minor Group (Code)
1	2	3	1	2	3
<i>Division 1—Mining and Quarrying—concl'd.</i>			<i>21 Beverages—concl'd.</i>		
10	<i>Mining and Quarrying—concl'd.</i>			Production of aerated and mineral water ..	214
	Mining of other non-ferrous metallic ores	105		Production of ice	215
	Mining of crude petroleum and natural gas	106		Production of ice cream	216
	Quarrying of stone (including slate), clay, sand, gravel, limestone	107		Processing of tea in factories	217
	Mining of chemical earth such as soda ash ..	108		Processing of coffee in curing works ..	218
	Mining and quarrying of non-metallic products not classified above such as precious and semi-precious stones, asbestos, gypsum, sulphur, asphalt	109		Production of other beverages	219
<i>Division 2&3—Manufacturing</i>			22	<i>Tobacco Products</i>	
20	<i>Foodstuffs</i>			Manufacture of bidi	220
	Production of rice, atta, flour etc. by milling dehusking and processing of crops and food grains	200		Manufacture of cigars and cheroots ..	221
	Production of sugar and syrup from sugarcane in mills	201		Manufacture of cigarette and cigarette tobacco	222
	Production of indigenous sugar, gur from sugar cane or palm juice and production of candy	202		Manufacture of hookah tobacco	223
	Production of fruit products such as jam, jelly, sauce and canning and preservation of fruits	203		Manufacture of snuff	224
	Slaughtering, preservation of meat and fish and canning of fish	204		Manufacture of jerda and other chewing tobacco	225
	Production of bread, biscuits, cake and other bakery products	205		Manufacture of other tobacco products ..	226
	Production of butter, ghee, cheese and other dairy products	206	23	<i>Textile—Cotton</i>	
	Production of edible fats and oils (other than hydrogenated oil)	207		Cotton ginning, cleaning, pressing and baling	230
	Production of hydrogenated oils (Vanaspati)	208		Cotton spinning (other than in mills) ..	231
	Production of other food products such as sweetmeat and condiments, muri, murki, chira, khoi, cocoa, chocolate, toffee, lozenge	209		Cotton spinning and weaving in mills ..	232
21	<i>Beverages</i>			Cotton dyeing, bleaching	233
	Production of distilled spirits, wines, liquor from alcoholic malt, fruits and malts in distillery and brewery	210		Cotton weaving in powerlooms	234
	Production of country liquor	211		Cotton weaving in handlooms	235
	Production of indigenous liquor such as toddy, liquor from mahua, palm juice ..	212		Manufacturing of khadi textile in handlooms	236
	Production of other liquors not covered above	213		Printing of cotton textile	237
				Manufacturing of cotton nets	238
				Manufacturing of cotton, cordage, rope and twine	239
			24	<i>Textile—Jute</i>	
				Jute pressing and baling	240
				Jute spinning and weaving	241
				Dyeing and bleaching of jute	242
				Printing of jute textile	243
				Manufacture of other products like rope, cordage from jute and similar fibre such as hemp, mesta	

APPENDIX—Contd.

Major Group (Code)	Description	Minor Group (Code)	Major Group (Code)	Description	Minor Group (Code)
1	2	3	1	2	3
25	<i>Textile—Wool</i>		28	<i>Manufacture of Wood and Wooden Products—concl.</i>	
	Wool baling and pressing	250		Manufacture of structural wooden goods (including treated, timber) such as beams, posts, doors, windows	282
	Wool cleaning and processing (scouring) ..	251		Manufacture of wooden industrial goods other than transport equipment such as bobbin and similar equipment and fixtures ..	283
	Wool spinning and weaving in mill ..	252		Manufacture of other wooden products such as utensils, toys, artwares	284
	Wool spinning other than in mills ..	253		Manufacture of veneer and plywood ..	285
	Wool weaving in powerloom	254		Manufacture of plywood products such as tea chest	286
	Wool weaving in handloom	255		Manufacture of boxes and packing cases other than plywood	287
	Embroidery and art work in woollen textile ..	256		Manufacture of materials from cork, bamboo, cane, leaves and other allied products ..	288
26	<i>Textile—Silk</i>			Manufacture of other wood and allied products not covered above	289
	Spinning and weaving of silk textile in mill ..	260	29	<i>Paper and Paper Products</i>	
	Dyeing and bleaching of silk	261		Manufacture of pulp from wood, rags, waste paper and other fibres and the conversion of such pulp into any kind of paper and paper board in mill	290
	Spinning of silk other than in mills ..	262		Manufacture of pulp from wood, rags, waste-paper and other fibres and the conversion of such pulp into any kind of paper and paper board handmade	291
	Weaving of silk textile by powerloom ..	263		Manufacture of products, such as paper bags, boxes, cards, envelopes and moulded pulp goods from paper, paper board and pulp ..	292
	Weaving of silk textile by handloom ..	264	30	<i>Printing and Publishing</i>	
	Printing of silk textile	265		Printing and publishing of newspapers and periodicals	300
	Manufacture of silk cordage, rope and twine	266		Printing and publishing of books	301
27	<i>Textile—Miscellaneous</i>			All other types of printing including lithography, engraving, etching, block making and other work connected with printing industry ..	302
	Manufacture of carpet and all other similar type of textile products	270		All types of binding, stitching, sizing and other allied work connected with binding industry ..	303
	Manufacture of hosiery and other knitted fabrics and garments	271	31	<i>Leather and Leather Products</i>	
	Embroidery and making of crepe lace and fringes	272		Currying, tanning and finishing of hides and skins and preparation of finished leather ..	310
	Making of textile garments including raincoats and headgear	273		Manufacture of shoes and other leather footwear	311
	Manufacture of made up textile goods except wearing apparel such as curtains, pillow cases, bedding materials, mattresses, textile bags ..	274		Manufacture of clothing and wearing apparel (except footwear) made of leather and fur ..	312
	Manufacture of waterproof textile products such as oil cloth, tarpaulin	275			
	Manufacture and recovery of all types of fibres for purposes of padding, wadding and upholstery filling	276			
	Manufacture of coir and coir products ..	277			
	Manufacture of umbrellas	278			
	Processing and manufacture of textile products not covered above	279			
28	<i>Manufacture of Wood and Wooden Products</i>				
	Sawing and planing of wood	280			
	Manufacture of wooden furniture and fixtures	281

31	<i>Leather and Leather Products—concl.</i>		34	<i>Non-metallic Mineral Products other than Petroleum and Coal</i>	
	Manufacture of leather products (except those covered by code Nos. 311, 312), such as leather upholstery, suitcases, pocket books, cigarette and key cases, purses, saddlery, whip and other articles	313		Manufacture of structural clay products such as bricks, tiles	340
	Repair of shoes and other leather footwear	314		Manufacture of cement and cement products	341
	Repair of all other leather products except footwear	315		Manufacture of lime	342
32	<i>Rubber, Petroleum and Coal Products</i> ..			Manufacture of structural stone goods, stone dressing and stone crushing	343
	Manufacture of tyres and tubes	320		Manufacture of stonewares, other than images	344
	Manufacture of rubber footwear	321		Manufacture of stone images	345
	Manufacture of rubber goods used for industrial purpose	322		Manufacture of plaster of paris and its products	346
	Manufacture of all kinds of other rubber products from natural or synthetic rubber including rubber raincoat	323		Manufacture of asbestos products	347
	Productions of petroleum, kerosene and other petroleum products in petroleum refineries	324		Manufacture of mica products	348
	Production of coaltar and coke in coke oven	325	35	<i>Manufacture of earthenware and earthen pottery</i>	350
	Manufacture of other coal and coaltar products not covered elsewhere	326		Manufacture of chinaware and crockery	351
33	<i>Chemicals and Chemical Products</i>			Manufacture of porcelain and its products	352
	Manufacture of basic industrial chemicals such as acids, alkalis and their salts not elsewhere specified	330		Manufacture of glass bangles and beads	353
	Manufacture of dyes, paints, colours and varnishes	331		Manufacture of glass apparatus	354
	Manufacture of fertilizers	332		Manufacture of earthen image, busts and statues	355
	Manufacture of ammunition, explosives and fire works	333		Manufacture of earthen toys and artwares except those covered by code No 355	356
	Manufacture of matches	334		Manufacture of glass and glass products except optical and photographic lenses and glass products covered above	357
	Manufacture of medicines, pharmaceutical preparations, perfumes, cosmetics and other toilet preparations except soap	335		Manufacture of other non-metallic mineral products not elsewhere specified	359
	Manufacture of soap and other washing and cleaning compounds	336	36	<i>Basic Metals and their Products except Machinery and Transport Equipment</i>	
	Manufacture of turpentine, synthetic, resin and plastic products and materials (including synthetic rubber)	337		Manufacture of iron and steel including smelting, refining, rolling, conversion into basic forms such as billets, blooms, tubes, rods	360
	Manufacture of common salt	338		Manufacture including smelting, refining of non-ferrous metals and alloys in basic forms	361
	Manufacture of other chemicals and chemical products not covered above (including inedible oils and fats)	339		Manufacture of armaments	362
				Manufacture of structural steel products such as joist, rail, sheet, plate	363
				Manufacture of iron and steel furniture	364
				Manufacture of brass and bell metal products	365
				Manufacture of aluminium products	366

36	<i>Basic Metals and their Products except Machinery and Transport Equipment—concl'd.</i>		38	<i>Transport Equipment—concl'd.</i>	
	Manufacture of metal products (other than of iron brass, bell metal and aluminium) such as tin can	367		Manufacture of bicycles and tricycles and accessories such as saddle, seat frame, gear	385
	Enamelling, galvanising, plating (including electroplating) polishing and welding of metal products	368		Building and repairing of water transport equipment such as ships, boats and manufacture of marine engines	386
	Manufacture of sundry hardware such as G.I. pipe, wire net, bolt, screw, bucket, cutlery (This will also include the manufacture of sundry ferrous engineering products done by jobbing engineering concerns which can not be classified in major groups 36, 37, 38 and 39)	369		Manufacture and repair of air transport equipment including aeroplanes, aeroengines	387
37	<i>Machinery (All kinds other than Transport) and Electrical Equipment</i>			Repairing of bicycles and tricycles	388
	Manufacture and assembling of machinery (other than electrical) except textile machinery	370		Manufacture of other transport equipment not covered above such as animal drawn and hand drawn vehicles	389
	Manufacture and assembling of prime mover and boilers, other than electrical equipment, such as diesel engines, road rollers, tractors	371	39	<i>Miscellaneous Manufacturing Industries</i>	
	Manufacture of machine tools	372		Manufacture of optical instruments and lenses, ophthalmic goods and photographic equipment and supplies	390
	Manufacture of textile machinery and accessories	373		Manufacture of scientific, medical and surgical instruments and equipment and supplies	391
	Manufacture of heavy electrical machinery and equipment such as motors, generators, transformers	374		Assembling and repairing of watches and clocks	392
	Manufacture of electric lamps and fans	375		Manufacture of jewellery, silverware and wares using gold and other precious metals	393
	Manufacture of insulated wires and cables	376		Manufacture and tuning of musical instruments	394
	Manufacture of all kinds of battery	377		Manufacture of stationery articles not covered elsewhere such as pencil, penholder, fountainpen	395
	Manufacture of electronic equipment such as radio, microphone	378		Manufacture of sports goods	396
	Manufacture of electric machinery and apparatus, appliances not specified above	379		Manufacture and repair work of goods not assignable to any other group	399
38	<i>Transport Equipment</i>			<i>Division 4—Construction</i>	
	Manufacture, assembly and repairing of locomotives	380	40	<i>Construction</i>	
	Manufacture of wagons, coaches, tramways and other rail road equipment other than that covered by code No. 363	381		Construction and maintenance of buildings including erection, flooring, decorative constructions, electrical & sanitary installations	400
	Manufacture and assembling of motor vehicles of all types (excepting motor engines)	382		Construction and maintenance of roads, railways, bridges, tunnels	401
	Manufacture of motor vehicles engines parts and accessories	383		Construction and maintenance of telegraph and telephone lines	402
	Repairing and servicing of motor vehicles	384		Construction and maintenance of water ways and water reservoirs such as bund, embankments, dam, canal, tank, tubewells, wells	403
				<i>Division 5—Electricity, Gas, Water and Sanitary Services</i>	
			50	<i>Electricity and Gas</i>

Note :- The mark of an asterisk is given on those Divisions under which there are minor groups having less than 1% of workers under that particular division (0.5% in case of division 2&3). The figures of such minor groups which have been omitted from the table are shown in the Appendix.

APPENDIX TO TABLE B-IV PART-C

The following abbreviations have been used:—

HI = Household Industry

NHI = Non-Household Industry

M = Males

F = Females

APPENDIX TO TABLE B-V

Families having less than 1% of the workers of the respective divisions and less than 0.5% in case of Division 7-8 only have been shown in the appendix. The following abbreviations have been used :-

III Mining, Quarrying, Livestock, Forestry, Fishing, Hunting,
Plantations, Orchards and Allied activities
IV Household Industry
V Manufacturing other than Household Industry

M=Males

VI Construction
VII Trade and Commerce
VIII Transport, Storage and Communications
IX Other Services

F=Females

APPENDIX TO TABLE B-XVI

The major groups of household industry having less than 10 percent of the respective divisions marked with an asterisk have been excluded from the main table and have been shown in run-on-lines in this Appendix. The figure preceding the bracket represents the code number of the major group dropped from the table while alphabets given in brackets are meant for showing the different ranges of period of working in the household industries 'with' or 'without' cultivation as explained below. The numerical figure shown after the alphabets denotes the number of households in that particular range indicated by that alphabet.

With Cultivation

Without Cultivation

Abbreviations	Class range or period of working	Abbreviations	Class range or period of working
A	= 1 to 3 months	E	= 1 to 3 months
B	= 4 to 6 „	F	= 4 to 6 „
C	= 7 to 9 „	G	= 7 to 9 „
D	= 10 Months to 1 year	H	= 10 Months to 1 year
X	= Months not stated	Y	= Months not stated

SOCIAL AND CULTURAL TABLES

(Note on C-Series)

There are 8 tables in this series relating to Social and Cultural aspects. Table C-I has been prepared from Household Schedules on the basis of 20 per cent sample. All the other tables in this series are based on full count and give data regarding age, sex, marital status and education, separately for rural and urban areas, single year age returns, mother tongue in alphabetical order, religion and classification by literacy and industrial category of workers and non-workers among Scheduled Castes and Scheduled Tribes for the district.

2. All the tables of this series have been reproduced in this book except Table C-VI on Bilingualism which can be seen in Part II-C (i) of the State Census Report wherein all tables of this series are contained.

Table C-I

3. This table is prepared on 20% sample from the Census Population Record Part II of the Household Schedule separately for the total, rural and urban areas of the district. The table is of sociological interest as it indicates the strength of the joint family system. It gives the composition of a household by family and non-family members. The family members have been classified into heads of household (who could be males or females) and their spouses, married sons and other married relations and never married, widowed and divorced or separated relations. As the definition of a census household also included outsiders residing with the family during enumeration, such persons have been shown in the table as unrelated persons.

4. The sample households of the rural areas have been classified into 3 categories viz. households engaged neither in cultivation nor in household industry, engaged in household industry only and engaged in cultivation. The households engaged in cultivation have further been classified by size of land holdings.

Table C-II

5. This is an important demographic table prepared on full count. It distributes the population by sex, age and marital status. The data has been presented for the district separately for rural and urban areas while those for tehsils for rural areas only. The population has been distributed into 14 age-groups which is further classified into four types of marital status viz. never married, married, widowed, divorced or separated. The age-groups followed in this table largely conform to the international requirements recommended by the United Nations Organisation.

6. This table is likely to be useful for studying the trends in the age of marriage. The data compiled here can be very well used for studying mortality in different marital statuses and also in different age-groups. The

data on married females by age-groups can be utilised for forecasting the future births from age specific birth rates. All the persons falling in age-group 0-9* have been treated as 'Never Married' for the purpose of this table.

Table C-III

7. This table distributes the total population by age, sex and educational levels. The population has been distributed in to quinquennial age-groups upto the age of 34 and the age-groups 35-44, 45-59 and 60+. The table has been compiled into three parts. Part A relates to all areas, Part B for urban areas of the district while Part C deals with rural areas down to tehsil level. In Part 'A' and 'C' the educational levels are confined only to (i) Primary or Junior Basic and (ii) Matriculation & above while in Part 'B' these educational levels are much more elaborate as shown in Table B-III Part 'A'.

8. This table can be utilised to measure the growth of literacy in the population as a whole as well as in urban and rural areas separately and in the different age-groups since the last Census. The table is of special interest to the educational authorities for future planning and also to study the public attitudes towards adult education. In 1951 Census data was provided only about illiterate and literate classified into different age-groups on 10 per cent sample.

Table C-IV

9. This table has been prepared on full count and presents the distribution of population by single year ages (0 to 100) and by sex. The age in year completed on 1-3-1961 has been given but the infants who could not complete one year on 1-3-1961 have been shown under the age '0' while all old persons aged above hundred have been clubbed together and are shown against item 'Over hundred.' The data has only been presented for the district as a whole, its urban and rural breakups can be seen in Part II-C (i) of State Census Report.

10. The data presented in this demographic table is useful for the Census Actuary for computing mortality rates from the age data of the earlier censuses and for the preparation of life tables. It also provides data for studying bias in age returns at the Census.

Table C-V

11. This table presents data separately for total, rural and urban population of the district and only for total for tehsils classified by sex of persons speaking a particular language or a dialect as mother tongue. The mother tongues are arranged in this table in an alphabetical order.

*Marital Status of this group finds place in a separate monograph-Child Marriages in Rajasthan.

12. According to Census 1961 'Mother Tongue' is the language or dialect spoken in childhood by the person's mother to the person or mainly spoken in the household.

13. This table is of great interest to philologists in view of a large variety of languages and dialects spoken in the district and will be of great assistance for ensuring the implementation of the various safeguards granted to the linguistic minorities under the constitution.

Table C-VII

14. In this table the population has been distributed in six main religions and the figures of all other religions including the figures of those having 'Indefinite belief' such as Atheists and Agnostics have been clubbed together and noted under heading 'Other Religions and Persuasions'. Separate heading 'Religion not stated' has also been provided for those who do not follow any religion and have given out only their nationalities such as Goans, Israelists, Italians etc.

15. The data of this important sociological table has been presented separately for total, rural and urban areas of the district and also for each tehsil.

Table C-VIII

16. This is a new table compiled in the 1961 Census and presents data separately for total, rural and urban areas of the district and further upto tehsil level for rural areas only. It has been prepared into two parts A & B. Part A presents the data of Scheduled Castes and Part B of Scheduled Tribes.

17. It gives the distribution of population by literacy classification of workers into different industrial categories no based the Standard Industrial Classification and non-workers. Literacy figures of these communities given for the first time in the present Census.

18. In 1951 Census data for Scheduled Castes and Scheduled Tribes was provided only about total number of persons belonging to Scheduled Castes and Scheduled Tribes classified by sex for the districts and upto sub-division.

TEHSILWISE RURAL ONLY

TABLE C-VIII PART B

HOUSING TABLES

(Note on E-Series)

There are five tables in this series prepared for the first time in this census which have been extracted from the House List prepared at the time of house numbering and house listing operations in 1960. Out of these, four tables viz. E-I, E-II, E-IV, E-V relate to housing conditions and furnish data for the purposes for which the houses are used, the tenure on which they are occupied by the households, material of construction of walls and roofs and the households classified by number of members and by number of rooms occupied by them. The data in these tables has been shown for the district as well as for each tehsil separately for total, rural and urban areas.

2. Another table (E-III) on industrial establishments also prepared from the house lists gives a break-up by industry and the fuel used cross-tabulated by the size of establishments, is not presented here for want of space and can be seen in Part IV-B of the State Census Report which presents all the tables of this series. However, the data regarding number of establishments contained in this table is separately compiled down to village level which has been presented in a separate list of industrial establishments.

Table E-I

3. This table has been prepared on full count and furnishes figures of census houses separately for total, rural and urban areas of the district and tehsils and towns with a population of 50,000 or more classified into different categories according to the uses to which they are put. The houses which were found vacant at the time of houselisting have also been shown separately as such. The following are the various types of houses into which occupied houses have been classified:—

Dwellings, shop-cum-dwellings, workshop-cum-dwellings, hotels, hostels, sarais, dharamshalas, tourist homes and inspection houses, shops excluding eating houses, business houses and offices, factories registered under the Factories Act and workshops and workshops not so registered, schools and other educational institutions including training classes, coaching and shop classes, restaurants, sweetmeat shops and eating places, places of entertainment and community gathering (Panchayat Ghar), public health and medical institutions, hospitals, health centres, doctors clinics, dispensaries, etc.

4. Occupied census houses which do not fall in any of the above categories have been classed as 'Others', e.g. temple, mosque, church, cowshed, motor garage, water-hut, engine room, store room, grass shed.

5. The concepts and definitions of the terms occurring in the table are given below:—

A "Census house" is a structure or part of a structure inhabited or vacant, or a dwelling, a shop, a shop-

cum-dwelling, or a place of business, workshop, school, etc. with a separate entrance.

A "Census household" is a group of persons who commonly live together in the same census house and take their meals from a common mess unless the exigencies of work prevent them from doing so.

A "shop" or a "workshed" is a place where articles are sold for cash or for credit.

A "Workshop" is a place where some kind of production, processing, repair or servicing such as paper-making, shoe-making tailoring, cycle-repairing, motor-servicing, halwai's shop, pottery-making, goldsmithy, blacksmithy, etc., are undertaken or where goods or articles are made and sold, and is not a factory registered under the Factories Act.

A "Factory" is a large workshop which has been registered under the Indian Factories Act.

"Business houses" are those premises where transactions in money or other articles take place such as banks etc.

Table E-II

6. This table has been prepared on the basis of 20 per cent sample of households used as dwellings, shop-cum-dwellings, workshop-cum-dwellings and dwellings with other uses. Shop-cum-dwellings and workshop-cum-dwellings are census houses which are partly used for residential or dwelling purposes and partly used as a shop or workshop. Dwellings with other uses are census houses such as offices, schools, temples, mosques etc. which are partly used for residential purposes by watchmen or attendants. The total number of households given in column 4 of this table gives the total of such samples classified into the aforementioned four categories of dwellings, which have been further classified according to their tenure status, whether owned or rented, separately for the total, rural and urban areas of the district and also for tehsils and towns with a population of 50,000 or more.

7. The following concepts and definition have been used in respect of tenure status:—

The term 'owned' was considered to be a situation when a household was living in its own house or a house duly mortgaged to it by some of its debtor.

The term 'rented' meant a situation when a household was found living in a house taken on rent from a landlord or in a house that was taken on lease or in a house for which no rent was being paid with the consent of the landlord.

Table E-IV

8. This table has been prepared on 20 per cent sample of households used as dwellings, shop-cum-dwellings, workshop-cum-dwellings and dwellings with other uses.

The total number of houses given in column 3 of this table gives the totals of all such sampled household. The material out of which most of the walls are made or where a house consists of separate structures, each made of different materials, the material out of which the walls of the main bedrooms, are made has been classified into the following nine categories:—

- (1) Grass, leaves, reeds or bamboo
- (2) Timber
- (3) Mud
- (4) Unburnt bricks
- (5) Burnt bricks
- (6) C. I. Sheets or other metal sheets
- (7) Stone
- (8) Cement concrete
- (9) All other material

9. The material out of which most of the outer roof exposed to the weather is made, i.e., tiles, thatch, corrugated Iron, zinc or asbestos cement sheets or concrete, etc., or in the case of multistoreyed building, the material out of which the intermediate floor or floors is made, has been classified into the following seven categories:—

- (1) Grass, leaves, reeds thatch, wood or bamboo
- (2) Tiles, slate, shingle
- (3) Corrugated iron, zinc or other metal sheets
- (4) Asbestos cement sheets
- (5) Brick and lime
- (6) Concrete and stone slabs
- (7) All other material

10. This table has been presented separately for total, rural and urban areas of the district and also for tehsils and towns with a population of 50,000 or more.

Table E-V

11. This table has been prepared on 20 percent sample of households used as dwellings, *shop-cum-dwellings*, *workshop-cum-dwellings* and dwellings with other uses. The figures given in column 3 of this table are the totals of all such sampled households. The sex break-up of the total number of members occupying such sampled households have been further classified into the following six categories showing the number of

households and number of occupants by sex in each category:—

- (i) no regular room
- (ii) one room
- (iii) two rooms
- (iv) three rooms
- (v) four rooms
- (vi) five rooms or more

12. This table has been prepared separately for the total, rural and urban areas of the district and also for tehsils and towns with a population of 50,000 or more.

List of Industrial Establishments

13. This table gives the number of establishments and the number of workers in each branch of industry classified by minor groups of Indian Standard Industrial Classification (for detailed description see appendix to the Explanatory Note on B-Series). The data is presented in the ascending order of the minor groups showing the figures in the brackets first for the number of establishments and second for the number of workers employed. The information has been extracted from the house list prepared at the time of house numbering and house listing operations in 1960.

14. The data is presented for the district and each tehsil for total, rural and urban areas as well as for each village and town separately. A summary of number of industrial establishments by workers employed has been given separately for the district, tehsils and towns in the beginning of this table. The table has been presented in run-on-lines and the villages are shown both by their names and Code numbers. The Code number of the villages will be helpful in finding out the location of the village in the tehsil maps. Villages which do not have any industrial establishments as well as those industry minor groups for which there are no figures in village or town or tehsil have been excluded from the list.

15. The data for some seasonal industries which were not actually working during the period of house listing has not been included. The number of workers also includes the proprietor and the other household members who were working in the industry during the week preceeding the enumerators' visit.

SPECIAL TABLES FOR SCHEDULED CASTES AND SCHEDULED TRIBES

(Note on SCT, SC and ST Series)

There are 8 Tables in this series specially prepared for the population of Scheduled Castes and Scheduled Tribes in the district. No special table was prepared for these classes during 1951 Census. The only information collected at that time was the aggregate strength of Scheduled Castes and Scheduled Tribes for the district and sub-divisions. However, together more information for these communities which have been safeguarded in the constitution, special tables have been devised and presented in this series. Part V-A of the State Census Report gives information for the State on this subject.

Table SCT-I

2. This table presents the industrial classification of persons of Scheduled Castes and Scheduled Tribes at work and non-workers by sex. In other words, this table presents caste/tribe wise (arranged in alphabetical order) break-up of the data shown in Table C-VIII. This table has been compiled in two parts. Part A deals with the Scheduled Caste population showing the data for each Scheduled Caste separately in rural and urban areas of the district.

3. Special study regarding the number of persons of Scheduled Castes engaged in unwholesome occupations like tanning, currying of hides and skins, scavenging is also conducted. The number of workers shown in these occupations as well as in other industrial categories is on the basis of their principal work.

4. Part B of this table refers to Scheduled Tribes population and presents the data for each Scheduled Tribe separately in rural and urban areas of the district.

5. A fly-leaf showing the sexwise break-up for Scheduled Castes and Scheduled Tribes in the district as well as for each tehsil is also attached which presents data separately for total, rural and urban areas. Figures of such Scheduled Castes and Scheduled Tribes have also been given for each village and town in the Primary Census Abstract.

Table SCT-II

6. This table distributes the population of Scheduled Castes and Scheduled Tribes according to their marital status of never married, married, widowed, divorced or separated and unspecified status under the age-groups of 0-14, 15-44 and 45+. The total population of these classes according to their marital status is also shown separately of all age-groups.

7. This table has been presented in two parts. Part A gives such information for each Scheduled Caste and Part B relates to each Scheduled Tribe providing such information for the district.

8. This is an important demographic table. The age marital status data in the case of Scheduled Tribes give an indication whether the tribal population is decreasing, stable or increasing.

Table SCT-III

9. This table presents the distribution of the population of Scheduled Castes and Scheduled Tribes by sex and educational levels. The table has been compiled in two parts. Part A has been further classified in two parts. Part A (i) provides such type of data for each Scheduled Caste in urban areas only while Part A (ii) presents similar data for urban areas for each Scheduled Tribe.

10. Part B of this table provides the similar information as in Part A for rural areas only, being classified in two parts. Part B (i) deals with Scheduled Castes while Part B (ii) refers to Scheduled Tribes.

11. In case of urban areas the data has been given for educational standards as in Table B-III Part A while such data has been shown for mere literate primary or junior basic and matriculation and above in case of rural areas as in Table B-III Part B.

12. This is an important table, the data of which can be proved very useful for the education department as it throws light on the spread of education among these communities in the rural and urban areas separately. The data will also be helpful to the department for awarding scholarships to the members of these communities.

Table SCT-IV

13. This table presents a distribution of the population of Scheduled Castes and Scheduled Tribes according to their religion. This table is compiled in two parts. Part A provides religionwise data for each Scheduled Caste in the district showing the rural and urban figures together. Similar type of information has been presented for Scheduled Tribes in Part B of this table. It may be noted that the members of Scheduled Castes can be either Hindus or Sikhs while members of Scheduled Tribes may profess different religions.

Table SCT-V

14. This table presents a detailed examination of the rural cultivating households of the Scheduled Castes and Scheduled Tribes and is based on 20% sample. Such households have been classified in various groups according to the size of land cultivated and cross tabulated by the interest in land cultivated.

15. This table is similar to that of household economic table B-XI and is compiled in two parts. Part A presents such data for Scheduled Castes while Part B provides such information for Scheduled Tribes.

Table SC-I

16. This table presents data for students and unemployed persons in non-working population of Scheduled Castes. This is further classified according to the broad educational levels consisting of literates, primary or junior basic and matriculation and above.

17. The data has been shown separately for the district total, rural and urban areas and further down to tehsil level in case of rural areas only. It is very useful table as it indicates the numerical strength of students and unemployed persons among the Scheduled Castes.

Table ST-I

18. Scheduled Tribes have their own peculiar languages and dialects. This is due to the fact that this table is prepared showing the number of speakers of that

subsidiary language of those members of Scheduled Tribes who have moved out of their homes and as a result of contact with the local persons speak some other subsidiary language to the mother tongue. The number of persons speaking such subsidiary languages have been shown sex-wise in run-on-lines. The data has been presented separately for the district total, rural and urban areas for the each Scheduled Tribe.

Table ST-II

19. This table presents data for students and unemployed persons in the non-working population for each individual Scheduled Tribe. The data has been shown separately for district total, rural and urban areas. This table is an important one as it throws light on the progress of education and the unemployment position for each individual tribe.

SECTION III

**VILLAGE DIRECTORY
&
SOME OFFICIAL STATISTICS**

VILLAGE DIRECTORY

VILLAGE DIRECTORY

(Note)

Data collected for the Census 1961 at the village level has already been presented in the Primary Census Abstract. As an ancillary project, some additional information was also collected through a Village Information Schedule, specially designed by this office, and is presented in this Village Directory. Information in this directory and what has been presented in the official statistics and the maps may in certain cases be found to be conflicting. The reason obviously lies in the fact that data has been collected from different sources.

The Directory gives information about the major crop, the distance in miles from the nearest Primary School, Hospital or Dispensary, Railway Station, Post Office, Bus Stand and Police Station for each village. Such information was not collected for unpopulated villages. Where information was not received for a particular item an indication to this effect has been made by putting a '—'.

With a view to assist the reader to locate the villages easily, they have been presented here alpha-

betically. The names of the villages have also been given in the Devnagri Script. The names of the villages found to be printed wrongly in the Primary Census Abstract have been corrected here.

Crop which has the largest area under cultivation has been treated as the major crop of a village and the following abbreviations have been used to indicate it in Column No. 2 :—

- W — Wheat
- G — Gram
- J — Jowar
- B — Barley
- Bj — Bajra
- M — Maize
- R — Rice
- P — Pulses
- T — Til
- WG — Wheat Gram (Gochana)
- WB — Wheat Barley (Gojara)
- BG — Barley Gram (Bejar)
- Md — Mustard
- C — Cotton

SOME OFFICIAL STATISTICS

SOME OFFICIAL STATISTICS*(Note)*

Presented in this section are some tables relating to statistics collected from various official agencies. They cover subjects like rainfall, land utilisation, area and production under crops, livestock, agricultural implements, factories, employment situation and power. Information about consumption of intoxicants, educational and medical facilities, motor vehicles, progress of co-operative societies, development blocks and panchayat samities is also given in this section. A list of fairs celebrated in the district and the data relating to the electoral participation and preferences for the first two general elections also form a part of this section.

SECTION IV

DISTRICT & TEHSIL MAPS

DISTRICT AND TEHSIL MAPS

(Note)

The district and tehsil maps presented in this section have been prepared and presented for the first time. They form a part of the Census Atlas and have been reproduced here specially with a view to help the reader to locate the places mentioned in the Primary Census Abstract and the Village

Directory. The villages have been shown by code numbers in the tehsil maps.

The maps have been photographically reduced to their present size from the original revenue maps and the scale and graticules have been worked out as approximately as possible.

The following is the list of references used for all the maps :—

DISTRICT Hq.	●	I. WORKERS	
TEHSIL Hq.	▲	i CULTIVATOR	
NATIONAL HIGHWAY	— — — — —	ii AGRICULTURAL LABOURER
