## **FOREWORD**

The bringing out of the District Census Handbooks is one of the various ways in which the State Government collaborates with the Government of India in the work of census-taking and the dissemination of the resulting information. While the various census publications give a lot of diverse and detailed information for the bigger units of administration i.e. state, district, tehsil and town, it is left to these District Census Handbooks to present some vital data for the still lower units i.e. wards and blocks in towns and villages in tehsils. Secondly, these handbooks present some non-census data also which is collected and processed in addition to the normal census operations.

The present series of District Census Handbook volumes combine parts A and B of the handbooks for each district. Part C, consisting of some other census tables at tehsil and town level as well as some other data, will appear in the form of a separate series.

I am gratified to note that Shri V. S. Verma, Director Census Operations, Rajasthan and his colleagues have endeavoured to bring out these exhaustive and informative volumes with precision and promptitude. I am happy to learn that the maps being included in the various district volumes are also to be published later on in the form of a comprehensive Administrative Atlas of the state. I am sure, these publications will be found useful and interesting by scholars and administrators as well as the lay reader.

Jaipur  
2nd, October, 1972

**S. L. KHURANA**  
*Chief Secretary*  
*to the Government of Rajasthan*

## PREFACE

The District Census Handbooks are a special and important feature of the whole scheme of Census data collection and the analysis and presentation thereof. The regular Census publications do, of course, present a multitudinous information but they do not go upto the Village and Census Block levels, for the rural and urban areas respectively. Secondly, they have to depend on the data collected only as a part of the House-listing and Enumeration Operations. The twofold purpose of the District Census Handbooks, like that of certain other special and ancillary studies that the Department undertakes, therefore, is to go down to these lower units of presentation and to present some data which is collected in addition to that produced by the above mentioned operations.

The District Handbook series were first introduced in the 1951 Census. While the 1961 series were an improvement over their counterparts in 1951, the present series for the 1971 Census are more elaborate and have been so planned that they present all the essential Census data and important demographic details alongwith such necessary orientation and background which is very relevant for the proper understanding of a district.

1971 Census envisages the publication of District Census Handbooks in three parts viz. A, B and C for all the districts of Rajasthan. The first two of these are being presented in this series of volumes, each volume dealing with one district of the State, because these two parts have much in common and they present information which the reader might like to interlink at various stages in his study. Part C, containing both the data collected from the various departments of the State Government as well as certain Census tables, districtwise and down to the level of tehsils, will appear as a separate series of volumes, again, one for each district.

Parts A & B have been explained in detail in the respective introductions pertaining thereto. For the sake of convenience and better presentability this volume has been divided into three sections, viz. Town and Village Directories, Primary Census Abstract and certain common appendices and maps. A look at the Contents will further elucidate this arrangement.

This Department has produced these District Census Handbooks for and on behalf of the Government of Rajasthan. We are grateful to the unfailing assistance and encouragement which we have received at each stage from the Chief Secretary, Shri S. L. Khurana, and the Deputy Secretary in the General Administration Department Shri D. R. Mehta. The ex-Chief Secretary Shri Z. S. Jhala and the ex-Deputy Secretary Shri Yatindra Singh also gave us valuable advice and support during the earlier stages of this work. We are also grateful to Shri Khurana for having consented to write a Foreword for this series of volumes. As regards the whole scheme of these volumes and their contents, we owe a deep debt of gratitude to the guidance we have received from Shri A. Chandra Sekhar, Registrar General of India, Dr. B.K. Roy Burman, Deputy Registrar General of India, Social Studies, and Dr. B.K. Roy, Map Officer.

Shri Jagat Pal Singh, Deputy Director, Social Studies, and a team of dedicated workers including Shri Shamsher Singh, Tabulation Officer, and Shri Wali Haider, Statistical Assistant, have laboured really hard to give shape to the Town and Village Directories with the help of heaps of data collected from various sources. For the Primary Census Abstract the credit goes to Dr. U. B. Mathur, Deputy Director Headquarters, Shri S.R. Luhadia, Assistant Director, Shri R.C. Bhargava, Senior Investigator and Shri S. P. Kashyap, Senior Technical Assistant, and the persons working in Technical Section. Shri Kashyap will soon be retiring and I will like to place on record here my gratitude and admiration for his hard and consistent work.

The Art Section had to carry a tremendous load in preparing the maps going with these volumes. I am happy to say that the band of old and experienced hands as well as the new recruits have risen to the occasion in an admirable manner under the supervision of Dr. R.K. Tyagi, Geographer. Shri M.M. Goyal, Tabulation Officer, has been instrumental in seeing the volumes through the press and has spared no pains in the process. For the fine quality of printing, we are indebted to Shri P.C. Patni of the Jubilee Block and Printing Works. He made special arrangements for the job and personally supervised all processes.

It is hoped that this volume as well as its companion volume namely Part C of the District Census Handbook will be found useful by the readers.

Rambagh Palace Annexe,  
JAIPUR  
Dated the 2nd Oct., 1972.

V. S. VERMA  
Director  
Census Operations, Rajasthan.

### GEOGRAPHIC REGIONS, RAINFALL & TEMPERATURE

**NOTES**

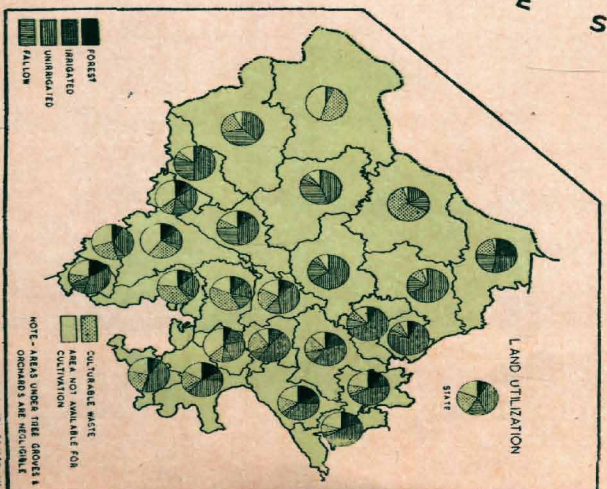

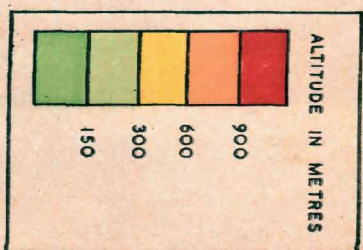

over 30 million of the world's population in the tropical and subtropical regions. The incidence of malaria is estimated to be 100 million cases annually and 2 million deaths and over 750,000 to 1,000,000 deaths each year. Nearly half of the world's population is at risk of malaria, and 100 million people are exposed to the disease each year. Malaria is a major cause of morbidity and mortality in the tropics and subtropics, and is a leading cause of death in children under the age of 5 years.

The malaria parasite is transmitted by the female Anopheles mosquito. The parasite enters the body through the mosquito's bite and enters the bloodstream. The parasite then enters the liver, where it multiplies and develops into a mature stage. The mature stage then enters the bloodstream and travels to the spleen, where it is destroyed. The spleen is the organ that filters the blood and removes old and damaged red blood cells. The spleen is also the organ that filters out the malaria parasite from the bloodstream. The spleen is the organ that filters out the malaria parasite from the bloodstream. The spleen is the organ that filters out the malaria parasite from the bloodstream.

## INTRODUCTION

The District Census Hand Book, Part A, consists of two components viz., Town Directory and Village Directory. As the very names indicate, these Directories present data at the town and village level respectively. While information in respect of the Town Directory is presented in the form of six Statements, supplemented by information given in four Tables built into the Analytical Note, information in respect of the Village Directory is presented in a proforma containing 16 columns, supplemented by thirteen Tables, similarly incorporated with the Analytical Note. Town Directory data is further supplemented by Appendix I. Similarly, the Village Directory data is supplemented by Appendices II, III-A and III-B. In addition, there are some Common Appendices and Maps relevant to the Town and Village Directories and Part B of the District Census Hand Book alike.

Before presenting the Town and Village Directory particulars for this District, it is proposed to explain here certain general points as also the layout, contents and method of compilation etc. of the Statements, Tables, Village Directory Proforma, Appendices and Maps which will follow.

### Units of presentation

As already noted above, our units of presentation are towns and villages respectively which may be defined here in some detail. The term 'town' is used here in a generic sense for all urban units e.g. municipal towns, cities, cantonments and notified areas. Urban units include :

(a) all places with a Municipality, Municipal Council or Cantonment or a Notified Town area; (b) All other places which satisfy the following criteria (i) A minimum population of 5,000; (ii) At least 75 per cent of the male working population engaged in non-agricultural pursuits; and (iii) A density of population of at least 1,000 per sq. mile (390 per sq. km.). A village or revenue mauza, including its hamlets, on the other hand, is the lowest rural unit. From the point of view of the revenue records, all urban units, too, comprise of one or more whole or part-villages depending upon the extent of municipalization.

Till 1961 the population-size class was the only criterion for classifying towns. Towns were grouped under six classes according to population i.e., Class I 100,000 and above, Class II 50,000 to 99,999, Class III 20,000 to 49,999, Class IV 10,000 to 19,999, Class V

5,000 to 9,999 and Class VI below 5,000. During the censuses anterior to that of 1961, existence of a self-governing local body, such as a Municipality, was generally the main criterion for classifying a place as a town. If there was no municipality and the population was also less than 5,000, a place could be regarded as town if in the opinion of the Census authorities it had certain urban characteristics. There were, of course, a host of such urban attributes—cultural, economic and social—which helped the Census authorities to distinguish the urban areas from the rural, depending on their local knowledge and discretion. In 1961, however, an objective test was prescribed for determining the urban areas on a uniform basis throughout the country. As already mentioned above, to qualify as a town, 3/4th of the male working population of a particular place was required to be engaged in non-agricultural pursuits. A large number of places which had been classified as towns in 1951 Census had to be thus eliminated from the 1961 list on account of the application of the above qualification.

Of the total 157 towns, 11 are governed by Municipal Councils. Out of the rest, 134 are governed by Municipal Boards, 1 by a Notified Area Committee, 1 by a Cantonment Board and the remaining 10 by Panchayats. The towns governed by Panchayats have been treated as "Census Towns" for our purposes as per the alternate criteria given above even though they do not have Municipalities.

Towns in Rajasthan can be classified from two angles—populationwise, from the point of view of presentation of Census data, and in terms of the official categorisation of various Municipal Councils and Boards on the basis of population and budget. In terms of population, they are divided into six classes. Of these 7 are Class I towns, i.e., 'Cities', having population of one lakh and above; 7 are Class II with 50,000-99,999 persons; 30 are Class III with 20,000-49,999 persons; 68 are Class IV with 10,000-19,999 persons; 41 are Class V with 5,000-9,999 persons; and 4 are Class VI with population of less than 5,000. In terms of the classification done by the State Government, the 145 towns (leaving out the non-municipal "Census Towns" as well as the two towns governed by a Notified Area Committee and a Cantonment Board, respectively) fall into five categories. Towns which have population of more than 50,000 belong to the first category, and are 11 in number, which means that 3 more towns are due for upgradation. (All these 11 are governed by Municipal

Councils; but, populationwise, while 7 are Class I, 4 are only Class II towns). Towns which have annual income of more than two lakhs per annum belong to the second category. Their number is 14. Towns having annual income of more than one lakh and up to two lakhs belong to the third category, and their number is 22. 45 towns with annual income of more than forty thousand and upto one lakh belong to the fourth category. Lastly, towns with annual income of upto forty thousand belong to the fifth category and they are 47 in number. 6 towns have not yet been classified by the State Government.

In addition to towns and villages, three other concepts, namely those of Urban Agglomeration, Outgrowth/ Part-Village and Standard Urban Area deserve to be discussed here. An "Urban Agglomeration" is a continuous urban spread constituted by a town and its adjoining urban outgrowth or two or more physically contiguous towns together with their outgrowths, if any. In this State, there are 4 cases in which whole towns constitute Urban Agglomerations namely (1) Bikaner City along with Bhinasar and Gangashahar towns (2) Jaipur City along with Sanganer census town and Amber town (3) Pilani town along with Vidya Vihar town; and (4) Sawai Madhopur town along with Man Town Notified Area. In the Town Directory, data pertaining to all the individual city/town constituents of an Urban Agglomeration has been given agglomerationwise.

In the next place, we have to take note of the phenomenon of "Part Villages". Most of the towns in this State do not comprise of whole revenue villages which means that some village-portions have been left out of the municipal limits. In 1961, for Census purposes, all such part villages were treated as urbanized appendages of the towns concerned and data with regard to such part-villages was presented along with that pertaining to the core town under the description of "N.M.As." i.e. Non-Municipalized Areas. This time an attempt has been made, firstly, to ascertain the existence of all such non-municipalized areas and secondly, to find out their true nature i.e. urban or rural. As a result of this enquiry 115 cases of such part-villages have been discovered. Further, while 9 of these have urban characteristics, 103 are rural in character and the remaining 3 have urban as well as rural components. The 12 cases of urbanized village-portions have been added to the urban agglomerations of the concerned core towns under the description of "Outgrowths" alias "such-and-such village urban". The rural components, 106 in number, have been treated as separate units of presentation, along with the whole villages by way of "such-and-such village rural".

Village Directory particulars regarding these rural part-villages, wherever they occur, have been presented in Appendix-II while in Part B of D.C.H.B., i.e. Primary Census Abstract, they have been accommodated along with the whole revenue villages. In both cases, such a rural part-village has been distinguished by giving it a sub-number of the code number of an adjoining whole village. Thus, "32a" signifies a rural part-village adjoining the village bearing the code number 32.

As regards the 12 outgrowths, one of them makes a constituent of the Sawai Madhopur-Man Town urban agglomeration while the remaining 11, along with their respective core towns, constitute 11 more urban agglomerations, thus giving a total of 15 urban agglomerations 3 consisting only of cities/towns, 1 consisting of towns as well as an outgrowth and 11 consisting of only single core towns along with their outgrowths. Like the rural part-villages, the outgrowths have also been given sub-numbers, derived from the code numbers of their core towns. Thus, "III a" denotes an outgrowth of a town having the code number III. It may also be mentioned here that while the 26 districts of the State, beginning with Ganganagar and ending with Jhalawar, bear code number 1 to 26, tehsils have been code-numbered districtwise in Arabic numerals whereas towns have also been code numbered districtwise but in Roman numerals. Blocks in towns and villages in tehsils have, of course, been code-numbered in Arabic numerals, townwise and tehsilwise respectively.

As already mentioned, full particulars regarding the city/town constituents of urban agglomerations are available in the body of the Town Directory itself. For obvious reasons it was not possible to get or present full Town Directory particulars with regard to the 12 outgrowths. Therefore all the relevant and available data with regard to these outgrowths or part-villages urban has been compiled in a consolidated form (Appendix-I) in the case of the Town Directories of those districts in which one or more such outgrowths occur. However, as the 1961 Census data regarding the population of towns included the population figures for all N.M.As. (whether rural or urban), the 1971 population figures regarding these outgrowths (i.e. urban N.M.As.) have also been given along with those of the core towns in Statement I of the Town Directory for the sake of better comparability. It will, however, be realised that the new scheme of classification and presentation regarding the erstwhile N.M.As. has, by and large, resulted in a pronounced reduction in urban area and some decrease in urban population whereas urban density has, naturally, appreciated.

As regards the third concept, namely Standard Urban Area, in all 14 S U.As. have been decided upon.

The Standard Urban Area may be defined as the projected growth area of a city or town as it would be in 1991, taking into account not only the towns and villages which will get merged into it but also the intervening areas which are potentially urban. The S.U.A. has not been made a separate unit of presentation of data for either Part A or Part B of the D.C.H.B.

### Area figures

For the tehsil level rural area figures appearing in the Tables and Appendix III-B the source is the Revenue Records as maintained by the Patwaris and as reported by them for the Village Directory. For the purposes of Col. 3 of the Village Directory, the village-wise area figures, in acres, have been rounded off, wherever they have been reported by the Patwari upto decimal points. The break-up of the total village area as given in Cols. 11 to 15 of the Village Directory has similarly been rounded off following the principle of neglecting the decimal points up to 49 and adding one for all decimal values of 50 or more. Tehsil area figures have, however, been arrived at by first adding up the actual village areas, as reported, instead of the rounded off figures in Col. 3, and then rounding off this total. As the area figures for part-villages do not enter into these calculations, the tehsil rural area as per the PCA will naturally be in excess of the Village Directory tehsil rural area. If, therefore, the net tehsil rural area is to be arrived at, the area figures for part-villages as contained in Appendix II will have to be added to the tehsil rural area figures in the Tables and Appendix III-B.

The Town Directory does not give any area figures

### Town Directory

In the following paragraphs the various statements, tables etc. comprising the Town Directory will be described.

#### *Statement I : Status, growth history and functional category :*

As indicated by the title itself, this statement provides some important data regarding the status, growth in terms of population, and functional category of the towns in a district. Col. No. 1 gives the serial number, Col. 2 the name of town, and Col. 4 the name of the tehsil in which a town is situated. As already explained, towns have been code numbered districtwise and the three constituents of the location code indicate the code number of the district, code number of the tehsil and code number of the town, in that order. Towns have been

arranged in order of their code numbers. However, in the four cases in which whole towns have entered into urban agglomerations, the data pertaining to the constituent towns have been given, though separately, but at one place with the names of the towns minus the data occurring again in the order indicated by the code numbers. Where an urban agglomeration consists of only the core town and its outgrowth, the existence of such U.A. has been indicated by putting an asterisk (\*) against the name of the concerned core town in this statement as well as the other statements of the Town Directory.

Col. 2 also gives the class of the town in question in terms of population in Roman numerals and within brackets. Col. 5, on the other hand, indicates the civic administration status with the help of some symbols as also the category of the municipal body concerned in arabic numerals and within brackets. The symbols used in Col. 5 are these

|        |                              |
|--------|------------------------------|
| M      | Municipality;                |
| MC     | Municipal Council;           |
| NA     | Notified Area;               |
| Cantt. | Cantonment;                  |
| P      | Panchayat, i.e. Census Town. |

Cols. 6 to 13 provide the decadal population figures for the town in question from 1901 to 1971. A dash under any of these columns indicates that the town was not having an urban status at the time of the Census in question while 'N.A.' indicates the non-availability of data. As already mentioned, the population figures pertaining to an outgrowth, wherever it occurs, have also been given in Col. 13 within brackets underneath the population of the core town of the urban agglomeration concerned.

Table No. 1 supplements the information given in Columns 6-13 by giving the decadal increase or decrease in population in terms of percentages.

Col. 14 gives the functional category of each town as per the 1961 Census. Predominance of non-agricultural occupations governs the urban characteristics of a town. The distribution of the working population in non-agricultural pursuits, therefore, presents a scientific mode of classification according to the predominant functional characteristic of the population in a town. The industrial classification of all workers into the following nine categories, adopted at the 1961 Census, provides a basis for the functional classification of towns as it broadly corresponds to the divisions of the Standard Industrial Classification as follows :—

| <i>Industrial Categories of Workers for Census 1961</i>      | <i>Corresponding Divisions of the Standard Industrial Classification.</i> |
|--------------------------------------------------------------|---------------------------------------------------------------------------|
| I Cultivator                                                 | Part of 0                                                                 |
| II Agricultural Labourer                                     | Part of 0                                                                 |
| III Forestry, Fishing, Plantation, Mining and Quarrying etc. | Part of 0 and 1                                                           |
| IV Household Industry                                        | Part of 0, 1, 2 and 3                                                     |
| V Manufacturing, other than Household Industry               | 2 and 3                                                                   |
| VI Construction                                              | 4                                                                         |
| VII Trade & Commerce                                         | 6                                                                         |
| VIII Transport, Storage, and Communications.                 | 7                                                                         |
| IX Services                                                  | 5, 8 and 9                                                                |

These nine categories are combined and regrouped into five broad functional classes : (1) Primary Activities (categories, I, II and III); (2) Industry (categories IV, V and VI); (3) Trade and Commerce (category VII), (4) Transport (category VIII) and (5) Services (category IX).

The functional characteristics of towns are determined by working out the percentage of the working population under each of these five classes of economic activities to the total workers. If workers under one of the occupations form 40% or more of their total number, it is considered a mono-functional town. If, however, such percentage is less than 40%, the next predominant occupation is taken into account so that the total of the two may come to 60% or above and such a town is called bi-functional. Again, if the total does not come upto 60%, the third predominant occupation is taken into account and such a town is taken as multi-functional.

The data for this statement and Table 1 was obtained from the Directorate of Local Bodies as well as from the General Population Tables and the Census Atlas belonging to the 1961 series of Census publications and the 1971 urban Primary Census Abstract. The referrent year for this data is 1971.

#### *Statement II : Physical aspects and location :*

The statement gives the altitude, annual rainfall, temperature, nearest city, State Headquarter, District Headquarter, Sub-divisional/Tehsil Headquarter, the nearest railway station and the nearest bus-stand in respect of each town in a district. Annual rainfall figures (Col. 4) represent the average for ten years (1961-1970).

Where temperature figures (Cols. 5 and 6) for a particular town were available, the same have been indicated otherwise 'NA' has been put against the concerned town. However, in the latter case, temperature figures for neighbouring places have been indicated through footnotes. The neighbouring places are generally the nearest as the crow flies. The nearest city for the purpose of this statement (Col. 7) is the one situated in the district itself or in a neighbouring district or even in some neighbouring State. In the last case, the name of the State concerned is also given within brackets. In Cols. 8, 9 and 10 the distance in km. from the town in question to the headquarter concerned has also been given within brackets, after the name of the headquarter town. The figure of zero indicates that the town in question is also the headquarter as per the column heading. The same method of presentation applies to information regarding the nearest railway station and bus-stand (Cols. 11 and 12). Initially, this statement had three more Cols. 13 to 15, for the purposes of showing navigable rivers, canals etc. As no such case obtained in this State, these three columns were eliminated.

The sources of information in respect of this statement were : the Meteorological Department, Office of the Surveyor General of India, Tehsil Offices, Municipalities and the District Statistical Officer.

The referrent period in respect of this statement is the year 1969-70, generally speaking.

#### *Statement III : Municipal Finance :*

From this statement we learn about the annual sourcewise income and headwise expenditure of the various urban civic administrative units in a district in terms of the financial year 1968-69. The statement forms two parts, Receipt and Expenditure, with the amount in rupees rounded off to the nearest '00. A dash, wherever it occurs in this statement, indicates nil or negligible amounts, and 'NA' that the information in question is not available.

We may explain here the various sources of income and heads of expenditure in respect of this statement, taking first the Receipt and then the Expenditure side. Receipt through taxes etc. (Col. 3) : There are two broad categories of taxes : "obligatory" and "other". Whereas obligatory taxes (octroi, tax on land and buildings, tax on houses, land rent etc., and tax on vocation and profession) have to be imposed by every municipality, taxes of "other" category (tax on vehicles and conveyances meant for hire, tax on animals used for riding, driving, draught or burden, toll on vehicles and

other conveyance and animals entering the municipality, tax on boats, tax for scavenging and cleansing private latrines etc., lighting tax, water tax where a municipality provides for water supply, tax on artisans and any other taxes) are imposed by the various municipalities by choice though under the rules.

Revenue derived from municipal powers and property apart from taxes (Col. 4) : This source covers holding of fairs and exhibitions, supply of milk, issue of licenses of various types, maintaining of cattle ponds, fines and penalties, tax on public vehicles, contracts, transport services, cinemas, providing boating facility; allotment, sale and lease of land, land rent and contracts relating to parks and gardens and such other items etc.

Government grant (Col. 5) : There are three types of Government grants : per capita grant, P.W.D. grant, and grants from the Social Welfare and other departments. Per capita grant is given by the State Government, subject to certain conditions, to every municipality at the rate of 15 paise, but in the case of municipalities located at the district headquarters an additional sum of Rs. 5,000/- is also granted. P.W.D. grant is given for works like roads and drains. This is a matching grant and whereas in the case of municipalities located at district headquarters the Government grants only 40% of the total amount required for a work, in the case of all other municipalities this grant amounts to 75% of the total amount required for a work. Social Welfare Department also grants amounts for various purposes e.g. conversion of dry latrines into flush ones, and for the purchase of tempos, scooters, vehicles, wheelbarrows etc. for removing night soil etc.

Loan and Advance (Cols. 6 and 7) : Loans are generally granted by the L.I.C. and State Government though the municipality can borrow from private sources also subject to the condition that such loans will be used for works of permanent nature only. Advances are also made by the State Government to various municipalities for some specific purposes subject to the availability of funds. The "Other" sources of income (Col. 8) may differ from one municipality to another, as for example, one municipality provides boating and skating facilities and runs a cinema, and, another runs buses. General Administration (Col. 10) : The main heads of expenditure cover salary of staff, contingent expenditure on account of administration staff, police guards etc. wherever kept, protection of municipal property and enforcement of the laws and collections of taxes etc. The secondary heads of expenditure pertain to the construction and maintenance of new public streets, 'dharma-shalas', rest houses, other public buildings,

and places for housing the poor, granting of loans for constructing houses, providing accommodation for any class of servants and employees or granting loans to the employees for this purpose, planting and maintaining road-side and other trees, providing recreational facilities, promotion of public health, infant welfare, contribution towards any public funds raised for relief of human sufferings within and without a municipality, organising and maintaining shops and stalls for the sale of necessities of life during the times of scarcity, holding fairs and exhibitions, and providing anti-rabic treatment, housing and maintaining destitute orphans and cripples, maintaining maternity centres and child welfare clinics, private schools etc. public safety, public health and convenience, and public works (Cols. 11-13) : The following are the items related to these heads of expenditure : lighting of public streets, places and buildings, watering of public streets and places, cleansing of public streets and places and sewers and all spaces not being private properties, removing of noxious vegetation and abating all public nuisances, removing filth, rubbish, night soil, odour or any other noxious or offensive matters from privies, latrines or other common places, extinguishing of fires, regulating of offensive, dangerous trade or works, protecting of public latrines, privies, urinals, obtaining of supply or an additional supply of water, naming of streets, numbering of houses, keeping records of birth and death, arranging destruction or preservation of dogs within the municipality, arranging of preparation of compost manure from night soil and rubbish, establishment and maintenance of cattle ponds etc. There are some special duties also which consist in providing special medical aid to the sick in times of the outbreak of a dangerous disease and taking such measures as may be required to prevent such an outbreak or suppressing the recurrence thereof, giving relief, and establishing and maintaining relief works in times of famine or scarcity for destitute persons within the limits of a municipality. Public Institutions (Col. 14) : Such institutions are educational, cultural, religious and social. The municipalities can give aid to such institutions and patronise them; but such institutions should not be Government-run. The above description includes not all but some of the important items pertaining to the receipt and expenditure amounts of a municipality. The purpose is just to give a general idea of the sources of income and items of expenditure.

Two tables (Nos. 2 and 3) indicate firstly, income or expenditure under a particular group of sources or heads, as the case may be, in terms of the percentage of the total income or expenditure, and secondly, per

capita income and expenditure in rupees within brackets. In order to facilitate analysis, the various sources of income and heads of expenditure have been grouped under three headings in each case in these tables. The information for this statement as well as its two accompanying tables came from the various municipalities and panchayats etc.

*Statement IV : Civic and other amenities :*

The purpose of this statement is to provide information with regard to the various amenities available in a town. The road-length figures (Col. 1) include, generally speaking, all pucca and kutcha roads within the limits of a town as well as the lanes etc. in some cases. Roads falling within municipal limits of a town are generally maintained by the civic bodies concerned. While some of these bodies take the technical help from the Public Works Department, some others have their own engineering personnel. Urban Improvement Trusts also maintain roads separately but information pertaining to them is not included in this statement. The system of sewerage/drainage (Col. 4) is indicated with the help of these symbols :

KD : Kutcha drainage;  
OSD : Open surface drainage;  
S : Sewer.

As regards latrines (Cols. 5 to 7), flush latrines of various types are given under the heading 'water borne', while those serviced manually by scavengers feature under 'service'. The category of 'Others' pertains to the various other latrines not manually or regularly serviced. In Col. 8 the actual method of the removal of night soil, and not the final disposal or use of the same, is indicated. The purpose was to assess the extent of the use of human labour in removing the night soil. The symbols used are these :

HL : Head-load;  
WB : Wheel barrow;  
T : Truck/Tractor;  
CL : Cart-load.

In the case of protected water supply, only such towns as have a regular protected water supply scheme as per the information received from the Public Health Engineering Department are indicated as beneficiaries of this system. Where a protected water supply scheme is under execution, the symbol UE has been used. The capacity in the context of protected water supply relates not to the storage but to the pumping. The symbols used to indicate the various sources are these:

W : Well;  
TW : Tubewell;  
TK : Tanks and reservoirs;  
R : River;  
C : Canal.

Only such towns have been treated as having a fire-fighting service as provide for regular fire-fighting squads. As regards the electric supply, domestic connections (Col. 12) denote electric supply available to residential consumers for light, fans, and radios etc. Industrial connections (Col. 13) in this context signify electric supply available to industrial consumers and this can be for the purposes of small, medium, and large scale industries. Commercial connections (Col. 14) are those which are available to non-residential premises such as business houses, shops, cinemas, auditoria, clubs, public offices, railways, hospitals, schools, hostels, petrol pumps, X-ray plants etc. and religious premises and charitable homes and such portions of residential premises as are used for conducting of business. The category, 'Commercial' is further divided into two types : (i) that for light, fans and radios etc. and (ii) for small heat and power appliances. Road-lighting points (Col. 15) denote street lighting systems including traffic control system and lighting of public parks etc. under municipalities, panchayats etc. but excluding private colonies. There is yet another category 'Others' (Col. 16) which in the present context pertains to agricultural connections and mixed-load connections.

Information given under the various columns of this statement was collected from the various civic bodies as well as the Public Health and Engineering Department, Rajasthan State Electricity Board, and the various private electric supply companies.

The information in this statement refers to the year 1969 for Cols. 3 to 8, and 11; to 1971 for 9 to 10; and to 1969-70 for Cols. 12 to 15.

*Statement V : Medical, educational, recreational and cultural facilities :*

Statement V presents data in respect of medical, educational, recreational and cultural facilities. Medical institutions in Col. 3 in the present context include both the Government and the recognised private institutions pertaining to allopathic, homoeopathic, ayurvedic, unani, and naturopathic systems. Private clinics etc. are, however, excluded. The number of beds for a category of medical institutions is indicated in Col. 4. The various medical institutions are denoted by these symbols :

|     |   |                                     |
|-----|---|-------------------------------------|
| H   | : | Hospital;                           |
| D   | : | Dispensary;                         |
| TBC | : | T.B. Clinic;                        |
| HC  | : | Health Centre;                      |
| FC  | : | Family Planning Centre;             |
| MCW | : | Maternity and Child Welfare Centre; |
| PHL | : | Public Health Laboratory;           |
| AYU | : | Ayurvedic;                          |
| HOM | : | Homoeopathic;                       |
| UN  | : | Unani;                              |
| NP  | : | Naturopathic.                       |

In the case of ayurvedic, homoeopathic, unani and naturopathic systems, only hospitals and dispensaries have been shown. Symbol H or D, as the case may be, has been added after the abbreviated symbols in respect of the four above-named systems. Table No. 4 shows the number of beds per thousand population in respect of the various medical institutions.

As regards educational facilities, information relating to certain specified categories of institutions has been given under Cols. 5 to 12. the remaining educational institutions such as universities, agricultural and veterinary colleges etc. are taken care of by Col. 13 under the heading 'Others'. The figures within brackets in each case represent the incidence of a particular type of institution. In Col. 9 no symbols have been used and only the number of the concerned institution is shown, the name of the institution in full being given in a footnote.

In showing the various other educational institutions in Col. 13 of Statement V, the total number of such institutions has been indicated within brackets, full names of these institutions being by way of a footnote. In those cases, however, in which the number of a particular institution exceeds one and the institutions belong to different categories, the actual number of such institutions is also indicated against their names in the footnote, otherwise the number of institutions is not given in the footnote.

The symbols used are as follows :

|          |   |   |           |
|----------|---|---|-----------|
| Col. 5 : | A | : | Arts;     |
|          | S | : | Science;  |
|          | C | : | Commerce. |

In the case of Col. 5, where colleges with combined faculties exist, the symbols also have been combined accordingly. In the case of parks/stadia, and auditoria and drama halls, the figures indicating these units may mean one of the two amenities or both of them.

Relevant matter which went into the preparation of this statement and the accompanying table (No. 4) came from the concerned directorates and universities etc. as well as the various local bodies.

Information provided in this statement is for the year 1970-71, by and large.

#### *Statement VI : Trade, commerce, industry and banking :*

The purpose of this statement is to provide certain essential data in order to facilitate a study of the economy of the various towns in a district. Particulars regarding trade, commerce, industry have been given by mentioning the three most important imported, exported, and manufactured commodities. The information provided here, however, does not reflect the volume of trade in terms of money. The number of banks given in Col. 12 in this statement includes both the commercial and co-operative banks. The credit societies are those which provide loans for agricultural or non-agricultural purposes.

The information for this statement was collected from the Directorate of Industries, Reserve Bank of India, and the Registrar, Co-operative Societies. The statement refers to the year 1969-70, but in some cases, as for example in the case of banks, figures for even up-to the earlier part of 1972 have been included.

#### *Appendix I : Town Directory Particulars regarding Outgrowths :*

The population figures for these outgrowths, where they occur, are indicated below the population figures of the core towns concerned, in Statement I. As regards the other Statements, available and relevant particulars relating to these outgrowths have been presented in this appendix. Information given here has been collected separately from the concerned bodies.

#### **Village Directory**

After having explained the layout of the Town Directory, we may now pass on to the second component of Part A of the District Census Hand Book i.e. the Village Directory. Information in respect of each village in a district is presented through a 16-column proforma. This proforma had two more columns originally, 17-18, which pertained to information regarding markets/hats etc., and the places of religious, historical, and archaeological interest. Since the relevant information has now been provided through footnotes these two columns have been omitted. The various data given in the Village Directory proforma can be discussed better if instead of following the sequence of columns, we follow the order of subjects dealt within the proforma.

The information contained in the Village Directory proforma is of three types : general information as contained in Cols. 1-3, 10 and 16 as well as the footnotes; information related to amenities (Cols. 4-9); and information regarding the land-use pattern (Cols. 11-15). We may take up these items one by one.

### *General*

Columns 1-3 of the Village Directory proforma give the code number, name, and area, in acres, of a village. Col. 10 indicates the most-preferred staple foods in respect of each village, and Col. 16 shows, for each village, the nearest town and the distance of such town from the concerned village in kilometre.

Villages have been presented in order of their code numbers. (It may be mentioned here that villages have been code numbered tehsil-wise and the name and code number of the concerned tehsil are given at the top to the left of each double-page spread). As regards the names of villages, every care was taken to standardise the spellings of village names; yet there may be variations in some cases between the spellings of village names as given in Col. 2 of the Village Directory proforma and in the Alphabetical List being given as one of the Common Appendices. In all such cases the version contained in the Alphabetical List may be taken as the standard one. Any village can, of course, be identified with the help of its code number also. The total area of each village (Col. 3) has been rounded off to the nearest acre. Names of food grains in Col. 10 of the proforma indicate the most-preferred food grains and lintels, wherever used as a staple food, for each village. The purpose is to indicate the staple foods which are consumed by a majority of the people in a village over the major part of the year. For the purposes of Col. 16 of the Village Directory proforma, names of only such places as were classified as towns were taken into account. Such towns, however, may belong to neighbouring districts or even neighbouring states. In the last case, names of such states are also given in brackets. Information, wherever provided, regarding the day/days of fairs, markets etc. held in a village and the places of religious, historical and archaeological interest has been given by way of footnotes.

Some of the information as contained in the above mentioned Cols. of the Village Directory has been further analysed in two tables viz., Table No. 1 and Table No. 2. Table No. 1 shows villages in terms of their number as well as area at the district and tehsil levels. In all, the table contains 8 different categories of area, the lowest area-unit being 50 acres or less and the highest 5,001 acres and above. The other table shows the incidence of the use of foodgrains for a tehsil as a

whole on the basis of the first-preference foodgrains for each village.

Information for Cols. 1-3, 10 and 16 as well as the footnotes was obtained from the Patwari, the revenue official at the village level. In Cols. 1 to 3, 10 and 16, discussed above, no symbols have been used.

### *Amenities*

The Village Directory also gives information about educational, medical, power supply, drinking water, communication and posts and telegraphs amenities at the village level (Cols. 4-9). This information has been presented with the help of certain symbols. Where more than one unit of a particular amenity exist, actual number thereof is given within brackets. As regards the educational amenities, primary, middle, and secondary/higher secondary schools and colleges have been taken into account. The term 'college' here stands for all types of colleges whether arts, science, commerce or any other type. In the case of medical institutions, whereas hospitals and dispensaries belong to ayurvedic, unani, and allopathic systems, other institutions belong to allopathic system alone. These could be either those run by the Government or private and recognized by the former. As regards power supply, only such villages have been treated as the beneficiaries of power supply as are so recognised by the State Electricity Department. Whether power supply in a village is used exclusively for agricultural purposes or otherwise has not been indicated. In providing information regarding drinking water, the sources of drinking water in various villages have been indicated.

It may be mentioned here that tanks, one of the sources of drinking water, are of two types. The usual village ponds (kutchra) or excavated tanks (pucca or kutchra) belong to the first type. To the second type belong tanks (called 'Tankas') which are usually built at the basement of a house, a terrace attached to a house (usually in the front) or in the open ground. Such tanks usually have pucca floor, roof and wall, and are filled with the rain-water flowing in from the roof of a house (usually pucca) or from the tops of the roofs and terraces both. The tanks which are built in the open ground are also pucca and are filled with the water flowing in either from their own parapeted roofs or catchment areas. These tanks have small openings on one side or in the middle of their tops and such openings are covered with wooden planks to which are attached iron hooks etc. in order to secure these openings by means of lock and key as such tanks are mostly privately owned.

Protected water supply means piped water supply by means of an overhead storage tank. In terms of

communication amenities, both "pucca" and "kutcha" roads and rail facilities within a mile of a particular village are indicated. Coming to the last amenity, posts and telegraphs, information for post offices, posts and telegraphs offices, and telephone centres has been provided.

The data given in Cols. 4 to 9 of the Village Directory proforma has been analysed with the help of seven tabular statements and one tabular abstract. Table No. 3 indicates the number of various educational institutions, the number of villages in which they are located, and their incidence per 100 sq km. at the tehsil level. This incidence is indicated within brackets below the figures of the numbers of the educational institutions. Tables No. 4 and 5, respectively, present information in respect of medical and posts and telegraphs amenities and the method of presentation is identical to that of Table No. 3. Table No. 6 shows the number of villages electrified or not electrified at the district and tehsil levels. Table No. 7 indicates the various sources of drinking water at the district and tehsil levels. Table No. 8 gives the position of villages in respect of the availability of "Pucca" and "Kutcha" roads and rail facilities within a radius of a mile from a particular village, at the district and tehsil levels again. The availability of communication facilities in respect of various distance groups in terms of distance from the nearest town is indicated through Table No. 9. In addition to these tables, a tabular abstract (Appendix III-A) is also given at the end of the Village Directory which gives an overall idea about the incidence of the various amenities at the tehsil level.

The relevant data in respect of the various amenities, discussed above, came initially from the Patwari during 1970. It was, however, cross-checked with information obtained from the University of Rajasthan, the State Electricity Board, the Public Health and Engineering Department, the State Education and Medical Departments, and the Posts and Telegraphs Departments.

The information pertaining to the educational, medical and postal facilities relates to the year 1970-71 and that to drinking water to 1969-70. Position regarding power-supply is as on 31-3-1971.

The symbols used for denoting the various amenities are :

#### Educational —

|   |   |                                    |
|---|---|------------------------------------|
| P | : | Primary School;                    |
| M | : | Middle School;                     |
| H | : | Secondary/Higher Secondary School; |
| C | : | College.                           |

#### Medical —

|     |   |                                     |
|-----|---|-------------------------------------|
| H   | : | Hospital;                           |
| D   | : | Dispensary;                         |
| FC  | : | Family Planning Centre;             |
| MCW | : | Maternity and Child Welfare Centre; |
| HC  | : | Health Centre.                      |

#### Power Supply —

|   |   |             |
|---|---|-------------|
| E | : | Electrified |
|---|---|-------------|

#### Drinking Water —

|    |   |                                  |
|----|---|----------------------------------|
| T  | : | Tap i.e. Protected Water Supply; |
| W  | : | Well;                            |
| TK | : | Tank;                            |
| TW | : | Tubewell;                        |
| R  | : | River;                           |
| O  | : | Others.                          |

#### Communications —

|    |   |              |
|----|---|--------------|
| PR | : | Pucca Road;  |
| KR | : | Kutcha Road; |
| T  | : | Train.       |

#### Posts and Telegraphs —

|     |   |                              |
|-----|---|------------------------------|
| PO  | : | Post Office;                 |
| P&T | : | Posts and Telegraphs Office; |
| TL  | : | Telephone.                   |

#### Land-use pattern

Having discussed the general and amenitywise information as contained in the Village Directory, we may now pass on to the third aspect of this Directory, namely, the villagewise land-use pattern. Cols. 11 to 15 of the proforma present data regarding areas under forests, irrigated cultivation, unirrigated cultivation, tree-groves and orchards, fallow land, cultivable waste, and land not available for cultivation. To begin with, forest in the present context means only such area as has been declared forest under some law of the State. Forest may be either private or Government-owned. In some cases where whole villages consist exclusively of forest areas, only the area figures denoting forest and as obtained from the Forest Department have been given. Col. No. 12 presents area figures regarding cultivated irrigated area in terms of net and double-cropped area. Out of the two figures given in this column before the bracket, the first denotes the net sown area and the second, the double-cropped area. The source or sources of irrigation along with area irrigated by such source/sources is/are also given in this column within brackets. This sourcewise breakup, naturally, adds up to the total of the figure/figures preceding this breakup. What Col. No. 12 does for irrigated

cultivated area, Column No. 13 does for the unirrigated cultivated area. There is one difference, however, while in the case of irrigated cultivated area, breakup has been given in terms of the source of irrigation, this breakup is in terms of the type of land i.e. dry, inundated, tank bed or river-bed etc. in respect of the unirrigated area.

As per the prescribed all-India proforma for the Village Directory :

- (i) Cols. 12 and 13 were to include orchards and current and other fallows of upto 5 years;
- (ii) Col. 14 was to include fallow land not cultivated for more than 5 years and also shrubs and jungles in addition to grazing lands.

But as per the pattern on which land-use figures are maintained in this State :

- (i) Breakup of orchards into irrigated/unirrigated was not available;
- (ii) Data regarding orchards on the one hand and other trees and shrubs was not available separately;
- (iii) Land lying fallow for upwards of two years was treated as old fallow (instead of the upwards of five years criterion) and break-up of fallow land under the irrigated/un-irrigated categories was not available.

In view of these limitations the following modifications in the prescribed proforma have been made :

- (i) Orchards as well as other trees and shrubs have been given at one place, in Col. 13 A ;
- (ii) All fallow land, current or old i.e. of a standing of less than 5 years, has been given in Col. 13 B.

In brief, therefore, while as per the all-India pattern, the area in Col. 13 A of our proforma should have been spread over Cols. 12 and 13 on the one hand and Col. 14 on the other, the area in Col. 13 B should have been divided between Cols. 12 and 13 depending upon the extent to which such fallow land was either irrigated or unirrigated. This has not been possible due to the reasons already explained. Apart from this, the categories in Cols. 14 (old fallow of 5 years and more and grazing lands) and 15 (barren and uncultivable land including mountains and land under buildings, roads etc.) are as per the all-India pattern.

Four tables and a tabular abstract further elucidate the land-use data presented in Cols. 11-15 of the Village Directory proforma. Table No. 10 presents an overall picture of the land-use pattern at the tehsil level. This table shows area breakup for each type of land as well as the percentage thereof to the total area of a tehsil. It also gives the total areas of land at the tehsil level. Table No. 11 presents the breakup of the total cultivated area at the tehsil level into total irrigated and total unirrigated and further provides the breakup into gross, net, and double-cropped area under each of these categories. In addition, it provides percentage breakups as in the case of Table No. 10. Table No. 12 projects, at the tehsil level again, further breakup of the irrigated area in terms of the sources of irrigation and shows the percentage of each source of irrigation to the total irrigated area. The percentage figures in respect of the various items in the three tables mentioned above are indicated within brackets below the actual area figures in the respective cases. The last Table (No. 13) brings us to the average percentage of cultivable waste per village. The villages for this purpose have been grouped in terms of their distance from the nearest towns. A tabular abstract (Appendix III-B) of land-use given at the end of the Village Directory, gives a total view of the land-use pattern at the tehsil level.

A few general points may also be noted while referring to the Village Directory. As already mentioned, area figures in all cases are given in acres. The area figures for tehsils were converted from acres to sq. kms. in the case of Tables 3, 4 and 5, in order to present incidence of some amenities per 100 sq. kms.

It will be seen that in some cases particulars of one village have been included with those of some other village. This has been due to the records for the village not having been maintained separately. Similarly, a number of villages are shown as unpopulated even though they may also be found as having some amenities.

### **Common appendices and maps**

As already mentioned, the Common Appendices and Maps, put in Section III of this volume, are useful from the point of view of both Parts A and B of the District Census Hand Book. Appendix I gives the names of all towns and villages (including urban and rural part-villages) along with Hindi equivalents, in alphabetical order. The Code No. and Page Nos. given against each town/village will help in easily locating the data pertaining to the latter in Parts A and B. Appendix II gives distribution of population by religion at district,

tehsil and town levels. In case there have been any territorial changes affecting the boundaries of the district in question or any of its tehsils during the intercensal period (1961-71) the same have been indicated in Appendix III.

### *Maps*

An attempt has been made to make the maps accompanying this volume as helpful as possible. Among others, the Survey of India, Settlement, P.W.D., Railway, and Irrigation maps as well as town maps obtained from the Town Planning Department have been consulted. While the State maps have been put between the first & last covers, the District, Tehsil and Town maps have been included in Section III. Some of the main points regarding these maps are as follows :

#### *(i) State*

A State map in colour showing district and tehsil boundaries and headquarter towns, major roads and rivers and railways has been included. It is accompanied by three insets showing Rajasthan in India, tehsilwise population density and the intercensal territorial changes. The other State map, also in colour, shows its physical features and is accompanied by insets dealing with geographic regions, rainfall, and temperature, soils and land utilisation pattern. The scheme of geographic regions of the State has been adopted from a map on the subject by Shri A. K. Sen of the Central Arid Zone Research Institute Jodhpur.

#### *(ii) District*

This map is also in colour and shows tehsil and sub-divisional boundaries, mountains and hills, rivers, roads, railways and towns and villages among other things. As many villages as possible have been included though in most cases it has been necessary to leave out some smaller villages. Village dots are in accordance with population size. Major amenities and village code number have also been given beside the village-size dot and village name. However, in some cases it has not been possible to give the village names. In such cases, village names can be ascertained by referring to the alphabetical list. Amenity symbols have been arranged underneath the village names. An endeavour has been made to locate the village-size dot as near to the actual village-site as possible with the help of the Survey of India toposheets. Still, it is not claimed that it has been possible to put the village-size dots with fool-proof precision. As exact municipal boundaries are not known in most cases, the town areas in the district as well as the tehsil maps include the outgrowth and part-villages, wherever they occur, and their approximate location is indicated by sub-numbers. Spheres indicating population size of towns have also been given beside

major amenities symbols which have been placed within dotted-line boxes for better readability. Hills and mountains have been shown with the help of hachures but altitudes have not been mentioned. A skeleton index accompanies each map; the complete index is given on the next page.

The district map also includes one inset indicating the tehsils within the district as also the inter-censal changes in district and tehsil boundaries, wherever involved.

#### *(iii) Tehsil*

The basic tehsil map shows village boundaries, village names and code numbers, village population-size dots, towns, rivers and means of communications among other things. In some cases, it has been possible to give only the village code numbers and not the names. The village-size dots do not indicate the exact village-sites. Each tehsil map carries an abridged index; the detailed index is available on the next page.

The tehsil map also carries an inset showing the population density within the tehsil worked out at village level although village boundaries are not being indicated. These insets constitute a special contribution of this Directorate.

Each tehsil map is accompanied by a set of four amenity maps showing the villages served by the various amenities grouped under four headings viz., Transport, Postal, Education and Medical. In each case a village having the basic amenity in the particular category, i.e., a road or railway station, a post office, a primary school or a dispensary, has been shaded. In the case of all villages having railway stations or other amenities ranking higher than the basic amenities mentioned above, appropriate symbols and village code numbers have also been given. These amenity maps are a special project undertaken by this Directorate and it is hoped that they will be found useful in giving an idea regarding the overall spatial distribution of amenities. The combined index for these amenity maps is given on the next page.

#### *(iv) Town/City*

In most cases, to-the-scale maps were not available. In all such cases notional maps are being given. An attempt has been made to give the exact municipal limits but as these limits are often not properly demarcated either on land or on maps, the boundaries have to be treated as notional and approximate wherever part-villages are involved. Functional areas as well as ward boundaries and all other important sites and land-marks have been indicated. Names of neighbouring villages and part-villages have also been given. The symbols used have been explained in each case along with the map itself.

Wardwise and townwise densities have been shown by way of an inset in all cases in which to-the-scale town maps were available. The densities have been worked out in terms of persons per sq. km. and have been rounded off to the nearest hundred. However, as the exact areas of ward were not available, the wardwise densities are only approximate. With regard to towns for which to-the-scale maps were not available, the insets pertaining to their maps carry only the ward boundaries and ward numbers. In both the cases, the insets also indicate such other neighbouring towns and outgrowths as form an urban agglomeration, wherever such an agglomeration exists. The boundaries of outgrowths are, of course, approximate.

The district, tehsil and town maps have been numbered in the following manner :—

**District Map :** District code number followed by 1.

**Tehsil Maps :** District code number followed by 2, 3, 4 etc. in the order of the tehsil code sequence with 'A' being added for each set of amenity maps.

**Town Maps :** District code number followed by the number next to that assigned to the last tehsil map with the district head-quarter city/town coming first and other towns getting subsequent numbers as per the code sequence.

## INDICES

### 1. INDEX FOR DISTRICT MAPS

As already stated, all town maps carry their respective indices. However, it may be mentioned here that

municipal and ward boundaries have been universally shown as — — — — and — — — — respectively.

## ANALYTICAL NOTE

### A. TOWN DIRECTORY

#### Introductory

As already mentioned, the Town Directory consists of six Statements which follow this note. We may now analyse the data, thus presented, in respect of the towns of this district with the help of four Tables which relate to Statements I, III and V, respectively. Bikaner town in this district forms urban agglomeration representing the adjoining towns Bhinasar and Gangashahar.

#### Statement I

A look at Cols. 6-13 will show that all the towns of this district are small-sized, except Bikaner which, having a population of 188, 518, is the largest. Civic

administrationwise, five towns are governed by municipal boards with Bikaner having a municipality of category 1; and one town, Napasar, is governed by Panchayat.

Functional categorywise, Bhinasar shows pronounced industrial characteristics, Deshnoke shows similar characteristics primarily and Gangashahar and Nokha Mandi secondarily.

A study of Cols. 6-13 in conjunction with Table No. 1, which follows, shows that in 1961-71, Nokha Mandi town has returned the highest growth rate viz., 44.99 per cent. Due to non-availability of figures for the preceding decades, it is not possible here to trace the growth rate for earlier decades.

TABLE No. 1

DECADAL POPULATION VARIATION (1901-1971)

| Sl. No. | Name of Town | 1901-1911 | 1911-1921 | 1921-1931 | 1931-1941 | 1941-1951 | 1951-1961 | 1961-1971 |
|---------|--------------|-----------|-----------|-----------|-----------|-----------|-----------|-----------|
| 1       | 2            | 3         | 4         | 5         | 6         | 7         | 8         | 9         |
| 1.      | Bikaner      | +5.18     | +24.33    | +23.80    | +48.06    | -7.95     | +28.62    | +25.15    |
| 2.      | Gangashahar  | —         | —         | —         | —         | —         | +21.28    | +28.23    |
| 3.      | Bhinasar     | —         | —         | —         | —         | —         | +24.79    | +22.38    |
| 4.      | Napasar      | —         | —         | —         | —         | +33.48    | +13.27    | +32.71    |
| 5.      | Deshnoke     | —         | —         | —         | —         | +19.59    | +10.91    | +19.64    |
| 6.      | Nokha Mandi  | —         | —         | —         | —         | —         | +69.85    | +44.99    |

#### Statement II

It will be seen from Col. 3 that there is not much variation in altitude from one town to another. Jodhpur and Bikaner are the two nearest cities in respect of the towns in this district. Of the six towns, four have railway stations though all of them have bus stands.

#### Statement III

A look at Cols. 3-16 in conjunction with Table Nos. 2 and 3 will show that Bikaner, which happens to be a

municipality of category 1, has the highest total annual Receipt and Expenditure figures. There is a considerable variation as far as the pattern of sources of income and heads of expenditure from one municipality to another is concerned. While Nokha Mandi shows the highest percentage of per capita income in terms of revenue from taxes, Gangashahar has that distinction in relation to government grants, loans and advances. As regards the percentages of per capita expenditure Nokha Mandi shows the highest figures, and for expenditure on general administration, Napasar.

TABLE No. 2

## RECEIPT (SOURCEWISE, IN PERCENTAGE, AND PER CAPITA)

| Sl. No. | Name and Class of Town | Civic Administration Status & Category | Receipt through taxes | Revenue derived from municipal properties apart from taxes and other sources | Receipt from Government Grant, Loans & Advances | Total Receipt     |
|---------|------------------------|----------------------------------------|-----------------------|------------------------------------------------------------------------------|-------------------------------------------------|-------------------|
| 1       | 2                      | 3                                      | 4                     | 5                                                                            | 6                                               | 7                 |
| 1.      | Bikaner (I)            | MC(1)                                  | 73.37<br>(7.54)       | 9.11<br>(0.94)                                                               | 17.52<br>(1.80)                                 | 100.00<br>(10.28) |

*Statement IV*

It will be observed that the system of sanitation is, generally speaking, traditional, though each town has provision for latrines. In the removal of night soil, besides head load and cart load systems, trucks are also used. All the six towns have protected water supply schemes; and are electrified. Fire-fighting services are available in Bikaner town alone.

*Statement V*

In terms of medical and educational amenities, Bikaner town is the one best served. Of the six towns, only Bikaner has cinemas. Table No. 4 (which follows) shows that Bikaner provides for the highest number of beds per thousand population in medical institutions.

TABLE No. 4  
MEDICAL FACILITIES

| Sl. No. | Name of Town | Total No. of beds in medical institutions | No. of beds per 1,000 population | Sl. No. | Name of Town | Total No. of beds in medical institutions | No. of beds per 1,000 population |
|---------|--------------|-------------------------------------------|----------------------------------|---------|--------------|-------------------------------------------|----------------------------------|
| 1       | 2            | 3                                         | 4                                | 1       | 2            | 3                                         | 4                                |
| 1.      | Bikaner      | 1,158                                     | 6.14                             | 4.      | Napasar      | 6                                         | 0.68                             |
| 2.      | Gangashahar  | 12                                        | 0.87                             | 5.      | Deshnoke     | 6                                         | 0.73                             |

*Statement VI*

As may be seen from the Statement, the items under sub-heads 'imported' and 'exported' relate to daily necessities generally speaking though wool, stone, milk products, blankets, cement, and edibles like 'papar',

'bhujia' etc. are to be noted. Among the manufactured articles, hosiery, bhujia/papar, plaster of paris, cement tiles and ginned wool can be mentioned. Each town has banking facilities; but agricultural and non-agricultural credit societies serve Bikaner and Napasar towns only.

## ANALYTICAL NOTE

### B. VILLAGE DIRECTORY

#### General

As may be seen from Table No. 1 below, the entire district consists of 671 villages of which 205 belong to Kolayat tehsil and 173, 171, 122 to Bikaner, Lunkaransar and Nokha tehsils respectively. As regards the classification of villages in terms of area, the district's 671 villages fall mainly into four out of the eight categories provided for, there being only 1, 3, 3 and 22 villages in the first four categories respectively. The highest number of villages, 376, belongs to the eighth category.

As regards the tehsils, only 1 village of the first category belongs to Kolayat tehsil, 3 villages of the second category belong to Kolayat and Bikaner tehsils, (2,1). The 3 villages of the third category also belong to Kolayat and Bikaner tehsils in the same order and 22 villages of the fourth category belong to Kolayat, Bikaner, Nokha tehsils (12, 9, 1). The biggest concentration of villages obtains in the area categories sixth, seventh and eighth. It, thus, becomes, evident that the villages in this district are large-sized in terms of their area.

TABLE No. 1

#### VILLAGES CLASSIFIED BY AREA

| District/Tehsil         | Total No. of villages | Area in acres |          |          |           |           |             |             |            |
|-------------------------|-----------------------|---------------|----------|----------|-----------|-----------|-------------|-------------|------------|
|                         |                       | 50 or less    | 51-100   | 101-200  | 201-500   | 501-1,000 | 1,001-2,000 | 2,001-5,000 | 5,001 +    |
| 1                       | 2                     | 3             | 4        | 5        | 6         | 7         | 8           | 9           | 10         |
| <b>Bikaner District</b> | <b>671</b>            | <b>1</b>      | <b>3</b> | <b>3</b> | <b>22</b> | <b>32</b> | <b>64</b>   | <b>170</b>  | <b>376</b> |
| 1. Bikaner Tehsil       | 173                   | —             | 1        | 1        | 9         | 9         | 11          | 34          | 108        |
| 2. Lunkaransar Tehsil   | 171                   | —             | —        | —        | —         | 5         | 11          | 51          | 104        |
| 3. Kolayat Tehsil       | 205                   | 1             | 2        | 2        | 12        | 14        | 28          | 50          | 96         |
| 4. Nokha Tehsil         | 122                   | —             | —        | —        | 1         | 4         | 14          | 35          | 68         |

Table No. 2 which follows, shows that for the district as a whole, bajra and wheat, in that order, are the most commonly used foodgrains. This is also true

to the tehsils in the district. Moth is another foodgrain consumed in this district.

TABLE No. 2

#### STAPLE FOOD

(Figures indicate the number of villages)

| District/Tehsil         | Names of Staple foods |          |          |          |          |            |          |          |          |           |          |

| 4. Nokha Tehsil         | —                     | —        | —        | —        | —        | 72         | —        | —        | —        | 48        | —        |

The various places where hats/markets/fairs are held have been indicated in the footnotes. Bikaner, Phalodi, Arupgarh, Suratgarh, Sardarshahar, Dungargarh, Gangashahar, Deshnoke, Napasar, Nokha Mandi are the ten nearest towns in respect of the various villages in the district. Among the places of interest are temples, maths, shrines, forts, palaces and sites of fairs etc.

### Amenities

#### (i) Educational

The district, as a whole, has 300 primary schools,

34 middle schools and 6 secondary/higher secondary schools. There is no college in the district (rural area). In terms of the number of these institutions, Nokha tehsil is the one best served in respect of primary schools, Bikaner tehsil in respect of middle, and secondary/higher secondary schools; though Lunkaransar tehsil also equals Bikaner tehsil in respect of the last item. The highest incidence of primary and middle schools, per 100 Sq.Km., obtains in Nokha tehsil.

TABLE No. 3

#### AVAILABILITY OF EDUCATIONAL FACILITIES AND THEIR INCIDENCE PER 100 SQ. KM.

## (iii) Posts and Telegraphs

In all, the district has 108 post offices, 9 posts and telegraphs offices and 9 telephone centres. Nokha tehsil has the highest incidence of post offices per 100 sq. Km.

TABLE No. 5

## AVAILABILITY OF POSTAL AND TELEGRAPHIC FACILITIES AND THEIR INCIDENCE PER 100 SQ. KM.

| District/Tehsil         | Total area in Sq. Km. | Postal and Telegraphic facilities   |                     |                                                   |                                   |                                          |                          |

## (iv) Power Supply

As the following table shows, only about 1/12th of the total number of villages of district are electrified.

TABLE No. 6  
POWER SUPPLY

| District/Tehsil         | Villages having Power supply | Villages not having Power supply | District/Tehsil   | Villages having Power supply | Villages not having Power supply |
|-------------------------|------------------------------|----------------------------------|-------------------|------------------------------|----------------------------------|
| 1                       | 2                            | 3                                | 1                 | 2                            | 3                                |
| <b>Bikaner District</b> | <b>53</b>                    | <b>618</b>                       |                   |                              |                                  |
| 1. Bikaner Tehsil       | 23                           | 150                              | 3. Kolayat Tehsil | 8                            | 197                              |
| 2. Lunkaransar Tehsil   | 1                            | 170                              | 4. Nokha Tehsil   | 21                           | 101                              |

(v) *Drinking water*

As Table No. 7 shows, the district depends largely on wells and tanks as sources of drinking water. Only 20 villages have protected water supply schemes and 36 villages have tube-well facility.

TABLE No. 7  
DRINKING WATER

| District/Tehsil         | Sources of drinking water |            |            |          |           |           |
|-------------------------|---------------------------|------------|------------|----------|-----------|-----------|
|                         | Tap                       | Well       | Tank       | River    | Tubewell  | Others    |
| 1                       | 2                         | 3          | 4          | 5        | 6         | 7         |
| <b>Bikaner District</b> | <b>20</b>                 | <b>478</b> | <b>352</b> | <b>1</b> | <b>36</b> | <b>83</b> |
| 1. Bikaner Tehsil       | 7                         | 131        | 78         | —        | 12        | 10        |
| 2. Lunkaransar Tehsil   | 4                         | 122        | 115        | —        | 4         | 34        |
| 3. Kolayat Tehsil       | —                         | 117        | 108        | 1        | 11        | 38        |
| 4. Nokha Tehsil         | 9                         | 108        | 51         | —        | 9         | 1         |

(vi) *Communication facilities*

The following table indicates that only a small number of villages in the district are served by pucca roads and railway stations. A fair number of villages are accessible by kutcha roads only, while a good number of them are connected by no roads whatsoever.

TABLE No. 8  
MEANS OF COMMUNICATION

| District/Tehsil         | Means of Communication |             |                 | District/Tehsil   | Means of Communication |             |                 |
|-------------------------|------------------------|-------------|-----------------|-------------------|------------------------|-------------|-----------------|
|                         | Pucca Road             | Kutcha Road | Railway Station |                   | Pucca Road             | Kutcha Road | Railway Station |
| 1                       | 2                      | 3           | 4               | 1                 | 2                      | 3           | 4               |
| <b>Bikaner District</b> | <b>73</b>              | <b>230</b>  | <b>18</b>       |                   |                        |             |                 |
| 1. Bikaner Tehsil       | 28                     | 62          | 7               | 3. Kolayat Tehsil | 12                     | 73          | 4               |
| 2. Lunkaransar Tehsil   | 16                     | 14          | 6               | 4. Nokha Tehsil   | 17                     | 81          | 1               |

The availability of communication facilities, as projected in Table No. 9, will show that the largest number of villages having pucca roads falls in the 51-100 Km. distance group and of those having kutcha roads in the

26-50 Km. distance group. There are only 5 villages which have both pucca road and rail and 6 villages which have both kutcha road and rail facilities.

TABLE No. 9  
MEANS OF COMMUNICATION (VILLAGES GROUPED IN TERMS OF DISTANCE FROM THE NEAREST TOWN)

| Distance from the nearest town (in km.) | Total No. of villages | Means of Communication |             |                      |                     |                      |        |
|-----------------------------------------|-----------------------|------------------------|-------------|----------------------|---------------------|----------------------|--------|
|                                         |                       | Pucca Road             | Kutcha Road | Pucca Road and River | Pucca Road and Rail | Kutcha Road and Rail | Others |

#### Land-use pattern

The following table shows that in terms of area, Bikaner is the largest tehsil followed by Kolayat, Lunkaransar and Nokha tehsils in that order.

The largest un-irrigated area belongs to Nokha tehsil, the largest area under cultivable wastes to Bikaner tehsil, that not available for cultivation to Kolayat tehsil, and the

largest area under fallow land to Bikaner tehsil. Bikaner tehsil alone has some forest area worth the mention; and irrigated area and area under tree-groves and orchards are negligible to be taken into account for comparison. The highest percentages, (to total tehsil area) of un-irrigated area and that under fallow land belong to Nokha tehsil, of area under cultivable waste to Bikaner tehsil, and of area not available for cultivation to Kolayat tehsil.

TABLE No. 10  
LAND UTILISATION PATTERN

(Area in acres)

| Tehsil                | Total Area (Rural)    | Forest           | Irrigated     | Un-irrigated       | Tree groves & Orchards | Fallow land        | Culturable Waste     | Not available for cultivation |
|-----------------------|-----------------------|------------------|---------------|--------------------|------------------------|--------------------|----------------------|-------------------------------|
| 1                     | 2                     | 3                | 4             | 5                  | 6                      | 7                  | 8                    | 9                             |
| 1. Bikaner Tehsil     | 2,193,857<br>(100.00) | 18,450<br>(0.84) | 134<br>(0.01) | 182,166<br>(8.30)  | —                      | 331,913<br>(15.13) | 1,619,124<br>(73.80) | 42,070<br>(1.92)              |
| 2. Lunkaransar Tehsil | 1,617,299<br>(100.00) | 966<br>(0.06)    | —             | 292,517<br>(18.09) | —                      | 220,812<br>(13.65) | 1,065,732<br>(65.90) | 37,272<br>(2.30)              |
| 3. Kolayat Tehsil     | 1,965,468<br>(100.00) | —                | —             | 138,332<br>(7.04)  | —                      | 270,242<br>(13.75) | 1,405,811<br>(71.53) | 151,083<br>(7.68)             |
| 4. Nokha Tehsil       | 935,479<br>(100.00)   | —                | 16<br>Neg.    | 425,489<br>(45.48) | —                      | 252,616<br>(27.00) | 220,833<br>(23.61)   | 36,525<br>(3.91)              |

As is evident from Table No. 11, the largest gross cultivated, and gross un-irrigated areas belong to Nokha tehsil. The irrigated double-cropped, cultivated double-

cropped, and un-irrigated double-cropped areas are almost zero, hence no comparative figures.

TABLE No. 11  
IRRIGATED AND UNIRRIGATED AREA

| Tehsil                | (Area in acres)       |                     |                |               |               |                |                     |                     |                |
|-----------------------|-----------------------|---------------------|----------------|---------------|---------------|----------------|---------------------|---------------------|----------------|
|                       | Total cultivated area |                     |                | Irrigated     |               |                | Un-irrigated        |                     |                |
|                       | Gross                 | Net                 | Double Cropped | Gross         | Net           | Double Cropped | Gross               | Net                 | Double Cropped |
| 1                     | 2                     | 3                   | 4              | 5             | 6             | 7              | 8                   | 9                   | 10             |
| 1. Bikaner Tehsil     | 182,300<br>(100.00)   | 182,300<br>(100.00) | —              | 134<br>(0.07) | 134<br>(0.07) | —              | 182,166<br>(99.93)  | 182,166<br>(99.93)  | —              |
| 2. Lunkaransar Tehsil | 292,517<br>(100.00)   | 292,517<br>(100.00) | —              | —             | —             | —              | 292,517<br>(100.00) | 292,517<br>(100.00) | —              |
| 3. Kolayat Tehsil     | 138,332<br>(100.00)   | 138,332<br>(100.00) | —              | —             | —             | —              | 138,332<br>(100.00) | 138,332<br>(100.00) | —              |
| 4. Nokha Tehsil       | 425,505<br>(100.00)   | 425,505<br>(100.00) | —              | 16<br>(Neg.)  | 16<br>(Neg.)  | —              | 425,489<br>(100.00) | 425,489<br>(100.00) | —              |

Table No. 12, which follows, shows that only Bikaner and Nokha tehsils have, cultivated irrigated areas, though negligible. The same is true about area

irrigated by wells. Irrigation by tanks, is hardly worth mentioning and that irrigated by canals is non-existent.

TABLE No. 12  
SOURCES OF IRRIGATION

| Tehsil                | Total gross cultivated irrigated area | (Area in acres)       |              |        |        |
|-----------------------|---------------------------------------|-----------------------|--------------|--------|--------|
|                       |                                       | Sources of Irrigation |              |        |        |
|                       |                                       | Wells                 | Tanks        | Canals | Others |
| 1                     | 2                                     | 3                     | 4            | 5      | 6      |
| 1. Bikaner Tehsil     | 134<br>(100.00)                       | 134<br>(100.00)       | —            | —      | —      |
| 2. Lunkaransar Tehsil | —                                     | —                     | —            | —      | —      |
| 3. Kolayat Tehsil     | —                                     | —                     | —            | —      | —      |
| 4. Nokha Tehsil       | 16<br>(100.00)                        | 7<br>(43.75)          | 9<br>(56.25) | —      | —      |

Table No. 13 projects the percentages of cultivable waste per village. It will be noted that the highest percentage obtains in the distance group 5 Km. or less

and the lowest in the 51-100 Km. distance group in terms of distance from the nearest town.

TABLE No. 13

## CULTIVABLE WASTE (VILLAGES GROUPED BY DISTANCE FROM THE NEAREST TOWN)

| Distance from<br>the nearest town<br>(in km.) | Total No. of<br>villages | Average percentage<br>of cultivable waste<br>per village | Distance from<br>the nearest town<br>(in km.) | Total No. of<br>villages | Average percentage<br>of cultivable waste<br>per village |

## **SECTION II**

### **DISTRICT CENSUS HANDBOOK**

#### **PART B**

### **PRIMARY CENSUS ABSTRACT**

## INTRODUCTION

Part B of the District Census Handbook presents the Primary Census Abstract-PCA in short. As its very name implies, it is the presentation of the basic data of the Census, on full-count basis and upto the level of the primary units. Thus, the PCA provides information regarding area, number of occupied residential houses and number of households. It also gives total population, population of scheduled castes and tribes, number of literate and educated persons and the break-up of the total population into workers (nine broad industrial categories) and non-workers-all by sex.

### Units of presentation

The PCA is being presented in three parts-District, Rural and Urban. The District PCA is a sort of summary giving district, and tehsilwise totals for the total, rural, urban areas separately. Data for each town in a tehsil has also been given separately. The Rural PCA, besides giving tehsil totals, provides data for all villages and part-villages, if any. Similarly, the Urban PCA gives totals for towns, and the further break-up of the data at ward and block levels. These blocks have been numbered in arabic numerals for each town.

The District PCA is followed by the Rural PCAs for all tehsils in the district arranged in their code sequence. Urban PCAs for all towns in the district then follow with the towns arranged as per their code sequence.

The concepts of 'urban agglomeration' (U. A. in short) and 'part-village/outgrowth' have already been explained in the Introduction to Part A. In the District and Urban PCAs data regarding the individual components of a UA is also given underneath the consolidated data for the UA as a whole. The only exception is that of the Jaipur UA, data regarding which is given by way of a footnote in the concerned District PCA as this UA consists of towns falling in more than one tehsil.

In the case of UAs, the code-sequence of towns may be broken for presenting data regarding all the constituents of a UA at one place. In such cases only the names of the constituent-towns, minus data, feature at the places indicated by the code sequence. The name holds good for the Urban PCA.

While the urban part-villages or outgrowths have been accommodated along with their core towns in the District and Urban PCAs, the rural part-villages feature as per the code sequence in the Rural PCA. In all cases

involving rural part-villages and blocks of outgrowths entries pertaining to them have been given in italics so as to distinguish them from other villages and blocks respectively. It may also be mentioned that the constituents of all outgrowths have been explained with the help of footnotes in both the District and Urban PCAs.

Besides the tehsils and towns certain areas therein were set up as special charges with their own block sequences for the purposes of the Census and data was collected for them separately. While the block sequences of these special charges have been merged with the general block/village sequence of the town or tehsil in question in the urban and rural PCAs, separate consolidated data for these special charges is also being given in Appendix-II. Needless to say, this particular Appendix will only be found in the concerned DCHBs. The presence of one or more such special charges in a tehsil/town, is indicated by an asterisk put against the name of that tehsil/town and a footnote giving the details of such special charges.

### Area figures

We have followed two sources as regards the presentation of area figures. The figures for the total area of the district have been taken from the Survey of India. The actual urban area for a district has been deducted from the Surveyor General of India's figures for the district as a whole to give the rural area at the district level. The urban areas have, of course, been received from the Municipalities and Tehsils and in a few cases, where part-villages are concerned, approximate urban areas have been made use of. At the tehsil level, however, the total area has been arrived at by adding the actual urban and rural areas, the latter having been obtained by totalling up the areas of all its constituent villages/part-villages. Thus, it will be seen that while urban area figures in the tehsil will add up to the urban component at the district level, the same is not true for rural area in as much as the tehsil level rural area figures will not add up to the rural areas as reported at the district level. At the district level, the total area has been given in sq. km. upto one place of decimal but upto two places of decimal in case of urban centres and in case of rural also in sq. km. but upto one decimal place only.

### Changes in the presentation of PCA

The distribution of population by broad industrial categories has been made on the 1961 pattern except for the fact that Category III of 1961 has been divided into two categories viz., Category III workers in Live-

stock, Forestry, Fishing, Hunting, Plantations, Orchards and allied activities and Category IV- workers in Mining and Quarrying. The Category IV of 1961, namely workers at Household Industry have been brought under Category V, namely workers in Manufacturing, Servicing, Repairing etc. But the two are distinguished by suffixes (a) and (b) viz., Category V(a) at Household Industry and Category V(b) Workers in Manufacturing etc. other than Household Industry. There is no other change to the remaining broad industrial categories of workers and non-workers except for the fact that 'business services' as also tea stalls and restaurants which were included in Category IX at the 1961 Census are now included in Category VII namely Workers in Trade and Commerce.

#### **Workers & non-workers—change in concept**

Wide variations in the proportions of workers obtaining in 1961 and 1971 may be observed. The broad classification of workers in the two censuses is not comparable on account of a significant conceptual difference. While at the 1961 Census, stress was laid on work so that all people who work, including family workers, who are not in receipt of any income, and/or who cannot earn enough for their maintenance were also included as 'workers', at the 1971 Census the persons have been classified for their economic activity on the basis of what a person had returned as his main activity. The main activity was first ascertained according as he spent his time basically as a 'worker' producing goods and services or as a 'non-worker'. Thus, those who had returned themselves as housewives or students or retired persons etc. for their main activity have been classified accordingly under the category of Non-workers. For regular work in industry, trade or service the refe-

rence period was the week prior to the enumeration (which was a fortnight in 1961) and for seasonal work such as agriculture etc. the last one year.

#### **Analysis of data**

An Analytical Note supported by eight tables explains the statistical information presented in the PCA and helps the reader to appreciate its contents better. It throws light on the distribution and density of population in tehsils by their total, rural and urban areas, sex ratio obtaining in the various tehsils, percentage of scheduled castes and scheduled tribes to total population, and also the proportions of distribution of the scheduled castes and scheduled tribes by the total, rural and urban areas of tehsils in the district. A discussion on the literacy rates of the district as well as for its various tehsils is also made for total, rural and urban areas, both for males and females. The note dwells on the distribution of population by workers and non-workers, their percentage distribution for the district and its various tehsils by sex and their total, rural and urban areas. Percentage distribution of workers and non-workers by sex and by various Industrial Categories then forms the subject matter of a brief discussion.

#### **Appendices**

Appendix I gives the Presidential Order listing the castes and tribes that are scheduled in the Constitution of India for this State. The scheduled castes and scheduled tribes population shown in the Primary Census Abstract relates to these castes and tribes. As already mentioned above, PCAs of some special charges have been given in Appendix-II in the DCHBs of the concerned districts. The Common Appendices and Maps in Section III have already been described in the Introduction to Part A.

## ANALYTICAL NOTE

### Distribution of population

Bikaner district has a population of 573,149 persons which is about 2.23 per cent of the population of Rajasthan. The district with its 27,231.0 Square Kilometres of area covers 7.96 per cent of the total area of the State. The density of population, thus, works out to be 21 persons per Square Kilometre. Tehsils Bikaner and Nokha and particularly the urban areas of these two tehsils have high densities. The table below presents the area, population and density of the district and its various tehsils by total, rural and urban areas separately.

| District/Tehsil         | Total<br>Rural<br>Urban | Area in<br>sq. km. | Population | Density per<br>sq. km. |
|-------------------------|-------------------------|--------------------|------------|------------------------|
| 1                       | 2                       | 3                  | 4          | 5                      |

|                         | R                       | 3,793.5            | 114,476    | 30                     |
|                         | U                       | 2.8                | 11,222     | 3,994                  |

As many as 335,998 persons live in the rural areas of the district while 237,151 persons reside in the urban centres. The proportion of urban population to the total population of the district is 41.38 per cent which is highest among all the districts of Rajasthan State. Four tehsils namely Bikaner, Nokha, Lunkaransar and Kolayat (placed according to their population size) together make up the district. Bikaner tehsil alone contributes 54.71 per cent of the district population. The contribution of

tehsils Nokha, Lunkaransar and Kolayat towards district population is 21.93, 13.18 and 10.18 per cent respectively. The following table gives the population and percentage share of various tehsils comprising Bikaner district.

| District/Tehsil         | Population<br>(Percentage in brackets) |                                   |                                   |
|-------------------------|----------------------------------------|-----------------------------------|-----------------------------------|
|                         | Total                                  | Rural                             | Urban                             |
| 1                       | 2                                      | 3                                 | 4                                 |
| <b>Bikaner District</b> | <b>573,149</b><br><b>(100.00)</b>      | <b>335,998</b><br><b>(100.00)</b> | <b>237,151</b><br><b>(100.00)</b> |
| 1. Bikaner Tehsil       | 313,583<br>(54.71)                     | 87,654<br>(26.09)                 | 225,929<br>(95.27)                |
| 2. Lunkaransar Tehsil   | 75,547<br>(13.18)                      | 75,547<br>(22.48)                 | —                                 |
| 3. Kolayat Tehsil       | 58,321<br>(10.18)                      | 58,321<br>(17.36)                 | —                                 |
| 4. Nokha Tehsil         | 125,698<br>(21.93)                     | 114,476<br>(34.07)                | 11,222<br>(4.73)                  |

The rural population of the district is made up by Nokha tehsil contributing 34.07 per cent to such population followed by Bikaner tehsil which contributes 26.09 per cent. The proportionate share of tehsils Lunkaransar and Kolayat in the district rural population is 22.48 and 17.36 per cent respectively. While tehsils Lunkaransar and Kolayat have no urban centres, Nokha tehsil has one and Bikaner tehsil has as many as five urban centres. Bikaner tehsil alone contributes 95.27 per cent of the district urban population, whereas the share of Nokha tehsil is only 4.73 per cent.

### Sex-ratio

There are 901 females per thousand males in the district (the proportion for Rajasthan as a whole is 911:1000). While the sex ratio in the rural areas of the district is 908 it is comparatively low in the urban areas, for there are 892 females per thousand males as would be seen from the following table.

centres while only 98 persons live in the rural areas. The table below provides the actual population and percentage share of various tehsils in the formation of

the scheduled castes and scheduled tribes population of the district by its total, rural and urban areas.

| District/Tehsil         | Scheduled Castes population<br>(Percentage in brackets) |                           |                           | Scheduled Tribes population<br>(Percentage in brackets) |                       |                        |

| 1. Bikaner Tehsil       | 39,571<br>(44.61)                                       | 19,677<br>(28.91)         | 19,894<br>(96.42)         | 327<br>(78.42)                                          | 14<br>(14.29)         | 313<br>(98.12)         |
| 2. Lunkaransar Tehsil   | 13,575<br>(15.30)                                       | 13,575<br>(19.94)         | —                         | 6<br>(1.44)                                             | 6<br>(6.12)           | —                      |
| 3. Kolayat Tehsil       | 13,134<br>(14.81)                                       | 13,134<br>(19.30)         | —                         | 48<br>(11.51)                                           | 48<br>(48.98)         | —                      |
| 4. Nokha Tehsil         | 22,420<br>(25.28)                                       | 21,682<br>(31.85)         | 738<br>(3.58)             | 36<br>(8.63)                                            | 30<br>(30.61)         | 6<br>(1.88)            |

The largest contribution to the scheduled caste population is made by Bikaner tehsil (44.61 per cent) followed by Nokha tehsil (25.28 per cent). The remaining tehsils Lunkaransar and Kolayat contribute 15.30 and 14.81 per cent respectively. Majority of the scheduled caste population lives in the rural areas of the tehsils. 96.42 per cent of the urban scheduled caste population is found in the urban centres of Bikaner tehsil while the proportionate share of Nokha tehsil is 3.58 per cent. Bikaner tehsil contributes 78.42 per cent of the scheduled tribes population of the district. The percentage share of tehsils Kolayat, Nokha and Lunkaransar is 11.51, 8.63 and 1.44 per cent respectively. The bulk of the tribal population is found in the urban areas of Bikaner tehsil and only 98 persons reside in the rural areas of the tehsils.

### Literacy

25.82 per cent of the total population of the district is literate. While 45.80 per cent of the urban population knows how to read and write, only 11.71 per cent of the rural population has this attainment. Male literacy in the district, is 35.00 per cent. It is 57.42 per cent in the urban areas while it is 19.05 per cent in the rural areas. Literacy among females is poor. Though the district average comes to 15.63 per cent, it is only 3.64 per cent in case of rural areas. It is, however, 32.77 per cent in case of urban areas. The table below provides the literacy rates by sex and by total, rural and urban areas of the district and its various tehsils.

| District/Tehsil         | Total<br>Rural<br>Urban | Percentage of Literacy |              |              | District/Tehsil   | Total<br>Rural<br>Urban | Percentage of Literacy |              |             |

Down at the tehsil level, the sex ratios vary from 867 in Lunkaransar tehsil to 946 in Nokha tehsil. While the rural areas of the various tehsils have sex ratios ranging from 867 in Lunkaransar tehsil to 942 in Nokha tehsil rather high variations in the sex ratios are observed in the urban areas which range from 888 in Bikaner tehsil to 987 in Nokha tehsil.

#### Scheduled castes and Scheduled tribes

15.48 per cent of the total population of the district belongs to scheduled castes. The percentage of such

population in the rural areas is 20.26 per cent, while in urban areas it is only 8.70 per cent. The population of the scheduled tribes in the district is small and only 0.07 per cent of the total population of the district belongs to such communities. The proportion of tribal population in the rural areas of the district is 0.03 per cent while in urban areas it is 0.13 per cent. The table below provides the percentage distribution of scheduled castes and scheduled tribes population in the district and its various tehsils for total, rural and urban areas separately.

| District/Tehsil       | Percentage of Scheduled Castes to total population |       |       | Percentage of Scheduled Tribes to total population |       |       |
|-----------------------|----------------------------------------------------|-------|-------|----------------------------------------------------|-------|-------|
|                       | Total                                              | Rural | Urban | Total                                              | Rural | Urban |

| 2. Lunkaransar Tehsil | 17.97                                              | 17.97 | —     | 0.01                                               | 0.01  | —     |
| 3. Kolayat Tehsil     | 22.52                                              | 22.52 | —     | 0.08                                               | 0.08  | —     |
| 4. Nokha Tehsil       | 17.84                                              | 18.94 | 6.58  | 0.03                                               | 0.03  | 0.05  |

Down at the tehsil level, the percentage of scheduled castes for the total areas varies from 12.62 per cent in Bikaner tehsil to 22.52 per cent in Kolayat tehsil. It ranges from 17.97 per cent in Lunkaransar tehsil to 22.52 per cent in Kolayat tehsil in case of rural areas and from 6.58 per cent in Nokha tehsil to 8.81 per cent in Bikaner tehsil in case of urban areas. The percentage of scheduled tribes in the various tehsils for the total areas ranges from 0.01 per cent in Lunkaransar tehsil to 0.10 per cent in Bikaner tehsil. It ranges from 0.01

per cent in Lunkaransar tehsil to 0.08 per cent in Kolayat tehsil in case of rural areas while from 0.05 per cent in Nokha tehsil to 0.14 per cent in Bikaner tehsil in case of urban areas.

A total population of 88,700 persons of the scheduled castes live in the district of which 68,068 persons reside in the rural areas and 20,632 persons in the urban centres. There are only 417 persons of scheduled tribes living in the district of which 319 persons are found in the urban

The literacy rates at the tehsil level for total areas vary from 9.95 per cent in Kolayat tehsil to 37.25 per cent in Bikaner tehsil. In the rural areas these rates range from 9.85 per cent in Nokha tehsil to 14.37 per cent in Bikaner tehsil while in urban areas the literacy rates vary from 39.08 per cent in Nokha tehsil to 46.13 per cent in Bikaner tehsil. Male literacy rates in the tehsils range from 15.85 per cent in Kolayat tehsil to 48.06 per cent in Bikaner tehsil. In rural areas these rates vary from 15.85 per cent in Kolayat tehsil to 23.08 per cent in Bikaner tehsil while in urban areas such rates range from 52.20 per cent in Nokha tehsil to 57.67 per cent in Bikaner tehsil. Low literacy figures for females are observed at the tehsil level ranging from 3.40 per cent in Kolayat tehsil to 25.14 per cent in Bikaner tehsil. More distressing picture is seen at the rural level where female literacy rates range from 2.57 per cent in Nokha tehsil to 4.74 per cent in Bikaner tehsil. In case of urban areas female literacy rates, however, vary from 25.78 per cent in Nokha tehsil to 33.13 per cent in Bikaner tehsil.

#### Working population

On the basis of the main economic activity the

population of the district is divided into 28.86 per cent workers and 71.14 per cent non-workers. Amongst the male population, however, the distribution of workers and non-workers is 48.83 and 51.17 per cent respectively. In case of females the proportion of non-workers is rather very high, viz. 93.30 per cent. A great variation in the distribution pattern of workers and non-workers is seen in respect of rural and urban areas of the district. While the distribution of population into workers and non-workers in rural areas is in the proportion of 1:2, the proportion is about 1:3 in urban areas. The distribution of rural male population into workers and non-workers is 53.92 and 46.08 per cent while the urban male population is divided into 41.67 per cent workers and 58.33 per cent non-workers. The proportion of non-workers in case of rural females is 91.18 per cent and it is 96.33 per cent in case of urban females. This would be observed from the table below that presents the distribution of workers and non-workers in Bikaner district and its various tehsils by total, rural and urban areas.

| District/Tehsil       | Total<br>Rural<br>Urban | Percentage of Workers |       |         | Percentage of Non-workers |       |         |

At the tehsil level the proportion of workers to the total population varies from 26.16 per cent in Bikaner tehsil to 33.02 per cent in Lunkaransar tehsil. The contribution of males to the working force ranges from 44.69 per cent in Bikaner tehsil to 56.49 per cent in

Kolayat tehsil while female participation accounts from 5.39 per cent in Bikaner tehsil to 10.63 per cent in Nokha tehsil. In case of rural areas of the various tehsils the proportion of workers and non-workers is nearly 1:2 but in case of urban areas such proportion is about 1:3

in Bikaner tehsil and 1:4 in Nokha tehsil. The percentage of rural male workers ranges from 52.06 per cent in Bikaner tehsil to 56.49 per cent in Kolayat tehsil, while such percentage of rural female workers ranges from 5.69 per cent in Kolayat tehsil to 11.59 per cent in Nokha tehsil. In urban areas of the various tehsils male participation in the economic activity ranges from 37.62 per cent in Nokha tehsil to 41.86 per cent in Bikaner tehsil. Contribution of urban females towards economic activity is very small and ranges from 1.09 per cent in Nokha tehsil to 3.81 per cent in Bikaner tehsil.

Agriculture is the main industry of the district and 60.10 per cent of the male working population and 74.23 per cent of female working population are engaged in this work. Of the agricultural workers 53.73 per cent of male workers and 63.99 per cent of female workers are engaged in cultivation and the rest 6.37 per cent of male workers and 10.24 per cent of female workers are working as agricultural labourers. Still higher proportions are observed at the rural level where as many as 88.16 per cent of rural male workers and 91.82 per cent of rural female workers are engaged in this primary activity. The proportion of agricultural workers in the urban areas of the district is rather small and only 9.06 per cent of urban male workers and 13.81 per cent of urban female workers earned their living through agricultural activity. Other services account for 36.06 per cent of urban male workers and 52.94 per cent of urban female workers of the district. While 19.30 per cent of the urban male workers are engaged in trade and commerce, transport, storage and communication accounts for 14.12 per cent of the urban male workers. Apart from this, manufacturing other than household industry also employs 10.08 per cent of the district urban male workers. Among the urban female workers 15.30

per cent belong to those working in household industry and their participation in other activities is rather small.

Majority of the workers in the various tehsils of the district are engaged in agricultural activity. As many as 32.42 per cent of male workers in Bikaner tehsil to 89.43 per cent in Nokha tehsil and as many as 49.84 per cent of female workers in Bikaner tehsil to 95.15 per cent in Nokha tehsil work in this primary activity. Other services also engage 26.49 per cent of male workers and 28.23 per cent of female workers in Bikaner tehsil. Higher proportions of agricultural workers are observed at the rural level of the various tehsils. In the urban areas of the various tehsils the proportions of male agricultural workers range from 8.42 per cent in Bikaner tehsil to 24.14 per cent in Nokha tehsil and urban female agricultural workers vary from 9.84 per cent in Nokha tehsil to 13.87 per cent in Bikaner tehsil.

Other important economic activities which engage a sizable number of workers in the urban areas of the various tehsils are the other services where 19.95 per cent of male workers in Nokha tehsil to 36.74 per cent in Bikaner tehsil and 52.79 per cent of female workers in Bikaner tehsil to 62.29 per cent in Nokha tehsil are employed. Besides trade & commerce in which activity 18.82 per cent to 30.68 per cent of urban male workers are engaged, transport, storage and communication also accounts for 4.57 per cent to 14.52 per cent of urban male workers. Apart from this 7.72 per cent to 10.18 per cent of urban male workers are engaged in manufacturing other than household industry. The participation of urban female workers in household industry ranges from 15.23 per cent in Bikaner tehsil to 19.67 per cent in Nokha tehsil. The following table provides the percentage distribution of workers by sex and industrial categories for the district and its various tehsils.

1. Adi Dharmi
2. Aheri
3. Badi
4. Bagri
5. Bairwa or Berwa
6. Bajgar
7. Balai
8. Bansphor
9. Bargi, Vargi or Birgi.
10. Bawaria
11. Bedia or Beria
12. Bhand
13. Bhangi
14. Bidakia
15. Bola
16. Chamar, Bhambhi, Jatav, Jatia, Mochi, Raidass, Raigar or Ramdasia.
17. Chandal
18. Chura
19. Dabgar
20. Dhankia
21. Dheda
22. Dome
23. Gandia
24. Garancha Mehtar or Gancha
25. Garo, Garura or Gurda
26. Gavarla
27. Godhi
28. Jingar
29. Kalbelia
30. Kamad or Kamadia
31. Kanjar
32. Kapadia Sansi
33. Khangar
34. Khatik
35. Koli or Kori
36. Kooch Band
37. Koria
38. Kunjar
39. Madari or Bazigar
40. Majhabi
41. Megh or Meghwal
42. Mehar
43. Mehtar
44. Nu?
45. Pasi

46. Rawal
47. Salvi
48. Sansi
49. Santia
50. Sarbhangi
51. Sargara
52. Singiwala
53. Thori or Nayak
54. Tirgar
55. Valmiki

2. In Ajmer district :—

1. Aheri
2. Bagri
3. Balai
4. Bambhi
5. Bansphod
6. Baori
7. Bargi
8. Bazigar
9. Bhangi
10. Bidakia
11. Chamar, Jatava, Jatia, Mochi or Raigar.
12. Dabgar
13. Dhanak
14. Dheda
15. Dhobi
16. Dholi
17. Dom
18. Garoda
19. Gancha
20. Kabirpanthi
21. Kalbelia
22. Khangar
23. Khatik
24. Koli
25. Koria
26. Kuchband
27. Mahar
28. Meghwal
29. Nat
30. Pasi
31. Rawal
32. Sarbhangi
33. Sargara
34. Satia
35. Thori
36. Tirgar
37. Kanjar
38. Sansi

## 3. In Abu Road Taluka of Sirohi district:—

1. Ager
2. Bakad or Bant
3. Bhambi, Bhambhi, Asadaru, Asodi, Chamaadia, Chamar, Chambhar, Chamgar, Haralayya, Harali, Khalpa, Machigar, Mochigar, Madar, Madig, Telegu Mochi, Kamati Mochi, Ranigar, Rohidas, Rohit or Samgar.
4. Bhangi, Mehtar, Olgana, Rukhi, Malkana, Halalkhor, Lalbegi, Balmiki, Korar or Zadmali.
5. Chalvadi or Channayya
6. Chenna Dasar or Holaya Dasar
7. Dhor, Kakkayya or Kankayya.
8. Garoda or Garo
9. Halleer
10. Halsar, Haslar, Hulasvar or Halasvar.
11. Holar or Valhar
12. Holaya or Holer
13. Lingader
14. Mahar, Taral or Dhegu Megu
15. Mahyavanshi, Dhed, Vankar or Maru Vankar.
16. Mang, Matang or Minimadig.
17. Mang-Garudi
18. Meghval or Menghvar
19. Mukri
20. Nadia or Hadi
21. Pasi
22. Shenva, Chenva, Sedma or Ravat.
23. Tirgar or Tirbanda
24. Turi

## 4. In Sunel Tappa of Jhalawar district :—

1. Bagri or Bagdi
2. Balai
3. Banchada
4. Barabar or Basod
5. Bargunda
6. Bedia
7. Bhangi or Mehtar
8. Bhanumati
9. Chamar, Bairwa, Bhambi, Jatav, Mochi, or Regar.
10. Chidar
11. Dhanuk
12. Dhed
13. Dom
14. Kanjar
15. Khatik
16. Koli or Kori
17. Kotwal
18. Mahar
19. Mang or Mang Garodi

## 20. Meghwal

21. Nat, Kalbelia or Saper
22. Pardhi
23. Pasi
24. Sansi
25. Zamral

## SCHEDULED TRIBES

1. Throughout the State except Ajmer district. Abu Road taluka of Sirohi district and Sunel Tappa of Jhalawar district :—

1. Bhil
2. Bhil Mina
3. Damor, Damaria
4. Garasia (excluding Rajput Garasia)
5. Mina
6. Sehria, Sahariya

## 2. In Ajmer district :—

1. Bhil
2. Bhil Mina

## 3. In Abu Road Taluka of Sirohi district :—

1. Barda
2. Bavacha or Bamcha
3. Bhil, including Bhil Garasia, Dholi Bhil, Dungri Bhil, Dungri Garasia, Mewasi, Bhil, Rawal Bhil, Tadvi Bhil, Bhagalia, Bhilala, Pawra, Vasava and Vasave.
4. Chodhara
5. Dhanka, including Tadvi, Tetaria and Valvi.
6. Dhodia
7. Dubla, including Talavia or Halpati.
8. Gamit or Gamta or Gavit, including Mavchi, Padvi, Vasava, Vasave and Valvi.
9. Gond or Rajgond
10. Kathodi or Kathari, including Dhor Kathodi or Dhor Katkari and Son Kathodi or Son Katkari.
11. Kokna, Kokni, Kukna
12. Koli Dhor, Tokre Koli, Kolcha or Kolgha
13. Naikda or Nayaka, including Cholivala Nayaka, Kapadia Nayaka, Mota Nayaka, and Nana Nayaka.
14. Pardhi, including Advichincher and Phanse Pardhi
15. Patelia
16. Pomla
17. Rathawa
18. Varli
19. Vitolia, Kotwalia or Barodia.

## 4. In Sunel Tappa of Jhalawar district :—

1. Gond
2. Korku
3. Seharia

APPENDIX-II  
PRIMARY CENSUS ABSTRACT FOR SPECIAL CHARGES
